

AUTHOR INDEX TO VOLUME 112

In this Index in alphabetical order are listed names of authors of all articles and letters. Full citation is given under first author only; reference is made from joint authors. Names which begin with a prefix are entered under the prefix. The month is given as a two letter notation in parentheses.

A

- Abdul-Karim FW see Al-Kaisi N; Rosenthal NS
 Abramowsky CR see Rosenthal N
 Adachi W see Sugeno A
 Agmon J see Rotenberg Z
 Aguilera S see Jamin D
 Ahmann FR see Brawer MK; Tiller LL
 Ahmann ME see Brawer MK; Tiller LL
 Al-Kaisi N, Abdul-Karim FW, Mendelsohn G, Jacobs G:
 Bronchial carcinoma tumor with amyloid stroma, 211
 (Fe)
 Alberts SR see Popper H
 Alborns-Saavedra J see Gould E
 Alexander NM see Larsen PR
 Allenby PA, Gould NS, Schwartz MF, Chiemmongkoltip P:
 Dysplastic cardiac development presenting as cardio-
 myopathy, 1255 (De)
 Allen RD: Surgical pathology computer systems have come
 of age, 1186 (De)
 Altschuler CK: Managing laboratory information, 1188
 (De)
 Alvarez M see Meredith JT
 Alves VAF see de Moraes CF
 Armitage AJ see Madan E
 Anderson RE: Guide to Clinical Laboratory Diagnosis, ed
 3 (Book Review) 663 (Je)
 Antonakopoulos GN, Chapple CR, Newman J, Crocker J,
 Tudway DC, O'Brien JM, Considine J: Xanthogranu-
 lomatous pyelonephritis, reappraisal and immunohis-
 tochemical study, 275 (Mr)
 Antonoli DA see Costello TJ
 Anunciado A see Rao KPP
 Appelmann HD: Liver: Biopsy and Pathobiology, ed 2 (Book
 Review) 1167 (No)
 Arita S see Moriarty T
 Arkin C see Brandt JT
 Armitage JO see Harrington DS
 Armstrong GR, Raafat F, Ingram L, Mann JR: Malignant
 peritoneal mesothelioma in childhood, 1159 (No)
 Arrington JH III: Pigmented Lesions of Skin: Clinicopatho-
 logic Correlations (Book Review) 102 (Ja)
 Arvanitis D see Teitel-Balfouta S
 Audouin J see Rouselet M-C
 Axtell CA, Fuks J, Jennings TA, Kadish AS: Peripheral
 T-cell lymphoma presenting as soft-tissue mass of
 extremity, 850 (Au)
 Ayala AG see Grignon DJ

B

- Bacaling JHD see Banez EI
 Bach FH see Freeman SM
 Bacher PB: Heart Muscle: Ultrastructural Studies (Book
 Review) 1168 (No)
 Bakken CL see O'Sullivan MB
 Balabaud C see Balabaud-Sage P
 Banez EI, Bacaling JHD: Evaluation of technique H-1 au-
 tomatized hematology analyzer in detecting peripheral
 blood changes in acute inflammation, 885 (Se)
 Barbosa AJA, Quisiroz DM, Mendes EN, Rocha GA, Lima
 GF Jr, Oliveira CA: Immunocytochemical identification of
Campylobacter pylori in gastritis and correlation with
 culture, 523 (My)
 Barnett RN: Basic Quality Assurance Practices for Clinical
 Laboratories (Book Review) 663 (Je)
 Barr JR see Jewell LD
 Barreil G, Tuccari G: Lactoferrin demonstration in thy-
 roid follicular and papillary carcinomas (letter) 1176
 (De)
 Barrett RJ see Qazi FM
 Bartola J: Importance of effective proficiency testing pro-
 gram to regulation of clinical laboratories, view from 1
 state, 368 (Ap)
 Bartow S: Perspectives in Pediatric Pathology, vol 11:
 Respiratory and Alimentary Tract Disease (Book Re-
 view) 308 (Mr)
 Bates SR see Getz GS
 Batsakis JG:
 Cancer Risk and Incidence Trends (Book Review) 960
 (Se)
 Diseases of Ear: Clinical and Pathologic Aspects (Book
 Review) 307 (Mr)
 Diseases of Head and Neck: Atlas of Histopathology
 (Book Review) 308 (Mr)
 Epstein-Barr Virus and Human Disease (Book Review)
 569 (My)
 Oral Pathology and Diagnosis: Color Atlas with Inte-
 grated Text (Book Review) 103 (Ja)
 Batsakis JG, Langsdorf RD, eds: CAP laboratory improve-
 ment programs, 7 (Ja), 485 (My), 878 (Se), 1085 (No)
 Bauer K see Murad TM
 Baumal R see Payton D
 Beal J see Murad TM
 Beard CM, Bergsma EJ, Klee GG: Interobserver vari-
 ability in collecting data from medical records, 594 (Je)

- Beaullis J-M see Rouselet M-C
 Beck JR see Krieg AF
 Beck JR: Clinical Decision Levels for Lab Tests, ed 2 (Book
 Review) 760 (Jy)
 Beckstead JH see Egerton DA
 Bedetti CD see Wolford JP
 Bedrossian CWM see Davila RM
 Bedrossian CWM, Davila RM: Lactoferrin demonstration
 in thyroid follicular and papillary carcinomas (letter)
 1176 (De)
 Belk WP, Sunderman FW: Landmark contribution in pa-
 thology and laboratory medicine, survey of accuracy of
 chemical analyses in clinical laboratories, (1947) 320
 (Ap)
 Bell J see Min K-W
 Benditt EP: Origins of human atherosclerotic plaques, role
 of altered gene expression, 997 (Oc)
 Benkov KJ see Thung SN
 Bentley SA: Alternatives to neutrophil band count, 883
 (Se)
 Berenson GS, Radhakrishnamurthy B, Srinivasan SR, Vi-
 jayagopal P, Dallferes ER Jr: Arterial wall injury and
 proteoglycan changes in atherosclerosis, 1002 (Oc)
 Bergsma EJ see Beard CM
 Bernstein J see Verani R
 Shan AK see Googe PB
 Shuta K see Smith FB
 Bianchiardi G see Weber G
 Billingham ME see Karch SB
 Binder WL see Nakamura RM
 Bioulac-Sage P, Quinton A, Saric J, Grimaud JA, Mouray
 MS, Balabaud C: Chance discovery of hepatic fibrosis in
 patient with asymptomatic hypervitaminosis A, 505
 (Ap)
 Bisceglia M see Santeusano G
 Blaugrund SM see Isachin HL
 Blauvelt A see Kari LR
 Block GA see Morgello S
 Blumenfeld W, Griffiths JM: *Pneumocystis carinii* in spu-
 tum, comparable efficacy of screening stains and deter-
 mination of cyst density, 816 (Au)
 Blumenfeld W, Kovacs JA: Use of monoclonal antibody to
 detect *Pneumocystis carinii* in induced sputum and
 bronchoalveolar lavage fluid by immunoperoxidase
 staining, 1233 (De)
 Body SA, Spicer A, Burgwyn CM: Immunoidentification of
Histoplasma capsulatum and *Blastomycosis dermatitidis*
 with commercial exoantigen reagents, effect of culture
 age, 519 (My)
 Bogema S see Schwartz RH
 Bonar MJ see Scheels PM
 Bongiovanni MB see Krieg AF
 Bonnin JM see Turbat-Herrera EA
 Bontempi L see Dogliotti C
 Boone DJ: Evaluating laboratory performance, historical
 and governmental perspectives, 354 (Ap)
 Bosman C see Santeusano G
 Bossart M see McAllister HA Jr
 Bossa J see Wright DN
 Bottoni EJ see Poon M
 Bouchard J see Rouselet M-C
 Bourgeois S see Meredith JT
 Bovill EG see Brandt JT; Travis PA
 Brandt JT see Wilson MS
 Brandt JT: Haemostasis and Thrombosis, ed 2 (Book Re-
 view) 760 (Jy)
 Brandt JT, Triplett DA, Arkin C, Bovill EG, Lucas FV, Rock
 WA: Variability in clotting factor assays, errors in
 technique and analysis (letter) 1080 (No)
 Brandt JT, Triplett DA, Musgrave K, Arkin C, Bovill EG,
 Lucas FV, Rock WA: Factor VIII assays, assessment of
 variables, 7 (Ja)
 Braunstein GD see Kuida CA
 Brawer MK, Schiffman RB, Ahmann FR, Ahmann ME, Cou-
 lis KM: Effect of digital rectal examination on serum
 levels of prostatic-specific antigen, 1110 (No)
 Brown WJ, Warfel J, Greenspan P: Use of Nile red stain
 in detection of cholesteryl ester accumulation in acid li-
 pase-deficient fibroblasts, 295 (Mr)
 Brubaker LH, Steele JCH Jr, Rissling JP: Cure of *Curva-*
laris pneumonia by amphotericin B in patient with
 megakaryocytic leukemia (letter) 1178 (De)
 Bruce MC see Tomaszewski JF Jr
 Bryan JA: Medical Mycology: Pathogenic Fungi and
 Pathogenic Actinomycetes, ed 3 (Book Review) 1267
 (De)
 Buja LM: Pathobiology of atherosclerosis, current con-
 cepts and perspectives, Festschrift in tribute to Robert
 W. Wissler, PhD, MD, 975 (Oc)
 Buja LM, Glasgow S, eds: Pathobiology of atherosclerosis,
 Festschrift in tribute to Robert W. Wissler, PhD, MD,
 973 (Oc)
 Buja ML see Dowling GP
 Burgwyn CM see Body SA
 Bussani R see Weber G

C

- Caldwell JH see Roberts WH
 Campa JF see Pascuzzi RM
 Campbell GR, Campbell JH, Manderson JA, Horrigan S,
 Rannick RE: Arterial smooth muscle, multifunctional
 mesenchymal cell, 977 (Oc)
 Campbell JH see Campbell GR
 Carbone A see Cozzutto C
 Cardigos N see Jabl M
 Cembrowski GS, Vanderlinde RE: Survey of special prac-
 tices associated with College of American Pathologists
 proficiency testing in Commonwealth of Pennsylvania,
 374 (Ap)
 Cerzeto L see Meredith JT
 Chapple CR see Antonakopoulos GN
 Chen KTK: Squamous cell carcinoma of ovary (letter) 114
 (Fe)
 Cheng H-M, Johnson PM: Specificity of trophoblast reac-
 tive antibodies in human pregnancy (letter) 1081 (No)
 Chiemmongkoltip P see Allenby PA
 Chopra IJ see Larsen PR
 Clausen KP see Roberts WH
 Cleary KR: Diseases of the Liver, ed 6 (Book Review) 961
 (Se)
 Clemens A see Min K-W
 Clement PB: Postoperative spindle-cell nodule of endom-
 etrium, 566 (My)
 Cohen AH see Peng S-K
 Cohen J see Jamin D
 Cohen MB see Gonzales J
 Cohen MB: Pathology in 19th century at University of
 California, 658 (Ja)
 Cohen MH see Colandrea JM
 Cohle SD, Lie JT: Inflammatory aneurysm of aorta, aor-
 titis, and coronary arteritis, 1121 (No)
 Coindre JM see De Mascarel A; Colandrea JM, Shmook-
 ler SM, O'Dowd GJ, Cohen MH:
 Cystic hypersecretory carcinomas, what's in a name?
 (letter) 1179 (De)
 Cystic hypersecretory duct carcinoma of breast, report
 of case with fine-needle aspiration, 560 (My)
 Colby TV see Rollins SD
 Colandrea JM, Edwards JL, Hruban RH, Mitchell GA, Valle
 D, Hutchings GM: Glutathione S-transferase type II, com-
 parison of pathologic features in 2 infants, 1133 (No)
 Considine J see Antonakopoulos GN
 Cooper ES, Polesky HF, Harrison CR, Schmidt FJ, Simon
 TL: 1986 comprehensive blood bank survey of College of
 American Pathologists, 878 (Au)
 Cossman J see Sundeen JT
 Cossman J, Uppenkamp M, Sundeen J, Coupland R, Raf-
 feld M: Molecular genetics and diagnosis of lymphoma,
 117 (Fe)
 Costantino AM see Santeusano G
 Costello RT see Krause JR
 Costello TJ, Wang HH, Schnitt SJ, Ritter R, Antonoli DA:
 Paget's disease with extensive involvement of female
 genital tract initially detected by cervical cytosome, 941
 (Se)
 Coulis KM see Brawer MK; Tiller LL
 Coupland R see Cossman J
 Cozzutto C, Carbone A: Pleomorphic (anaplastic) neuro-
 blastoma, 621 (Je)
 Craighead J, Moore A, Grossman H, Ehrlich W, Frattini U,
 Saxinger C, Hess U, Mgowi F: Pathogenetic role of HIV
 infection in Kaposi's sarcoma of Equatorial East Africa,
 259 (Mr)
 Crocker J see Antonakopoulos GN
 Cronin DC II see Poon M

D

- Dall DH: Pulmonary Pathology, ed 2 (Book Review) 666 (Je)
 Dallferes ER Jr see Berenson GS
 Dallferes FG: Pathology of Heart Valve Replacement (Book
 Review) 761 (Jy)
 Damato JA, Garis J, Hawley RJ, Kaiser J: Comparative
 leukocyte esterase-nitrate and RAC-T-SCREEN studies
 using single and multiple urine volumes, 533 (My)
 Damjanov I see Karayannopoulos G; Yen Y
 Dardick I see Jabl M
 Davidson E see Rotenberg Z
 Davila RM see Bedrossian CWM
 Davila RM, Bedrossian CWM, Silverberg AB: Immunocy-
 tochemistry of thyroid in surgical and cytologic speci-
 mens, 51 (Ja)
 Davis BH: Practical Microscopic Hematology: Manual for
 Clinical Laboratory and Clinical Practice (Book Review)
 961 (Se)
 Davis BW see Johnson MD
 De Mascarel A, Merlio JP, Goussot JF, Coindre JM:
 Radiohistology as new diagnostic method for barium
 granuloma, 634 (Je)
 de Mascarel CF, Falzoni R, Alves VAF: Myocardial infarct
 due to unique atrial myxoma with epithelial-like cells

and systemic metastases, 185 (Fe)
 de Vos R see van den Oord JJ de Wolf-Poeters C see van den Oord JJ
 Dehner LP see Manivel JC
 Dehner LP:

Breast Imaging: Diagnosis and Morphology of Breast Diseases (Book Review) 1166 (No)
 Clinical and Biomedical Analysis, vol 22, Histochemistry in Pathologic Diagnosis (Book Review) 101 (Ja)
 Genetic Aspects of Developmental Pathology (Book Review) 664 (Je)

Intraoperative Pathologic Diagnosis: Frozen Section and Other Techniques (Book Review) 762 (Jy)
 Malignant fibrous histiocytoma, nonspecific morphologic pattern, specific pathologic entity, or both? 236 (Mr)

Perspectives in Pediatric Pathology, vol 10: Central Nervous System Diseases (Book Review) 216 (Fe)

del Rio C, Guarner J, Honig EG, Slade BA: Sputum examination in diagnosis of *Pneumocystis carinii* pneumonia in acquired immunodeficiency syndrome, 1229 (De)

Delay S see Lack EE
 DeSchryver-Keckemell K see Wright JR Jr
 Desmet VJ see van den Oord JJ

Desmet G see Heetjens GA di Sant'Agnes PA: Neuroendocrine differentiation and prostatic carcinoma, concept 'comes of age', 1097 (No)
 Diamond I: Clinical purposes of laboratory testing, 377 (Ap)

Dick H see Min K-W
 Dickerson GR see Googe PB; Young RH
 Diebold J see Rousselet M-C

Dillon PA, Overman TL: Effect of prompt inoculation on results of septic system minimal inhibitory concentration determinations for *Listeria monocytogenes*, 163 (Fe)

Dix JD, Gaston L, Patterson W: Protein S deficiency (letter) 1082 (No)

Dogliani C, Bontempi L, Iuzzolino P, Furian G, Rosal J: Ependymoma of mediastinum, 194 (Fe)

Doster DR, Folds J, Gabriel DA: Nonsecretory multiple myeloma, 147 (Fe)

Douglas EC see Graham DM
 Dowling GP, Buja LM: Sudden death due to left coronary artery occlusion in infective endocarditis, 932 (Se)

Duckworth JK: Proficiency testing, its role in voluntary clinical laboratory accreditation program, 346 (Ap)
 Dunn J see Young RH

E

Eble JN, Hull MT: Glycoconjugate expression in human renal oncocytomas, lectin histochemical study, 805 (Au)
 Edinger SE: Medicare and Clinical Laboratories Improvement Act of 1967 proficiency testing requirements and its relationship to private sector, 357 (Ap)

Edson DC see Jones RM
 Edwards JL see Colevas AD

Egerton DA, Beckstead JN: Malignant lymphomas in acquired immunodeficiency syndrome, additional evidence for B-cell origin, 602 (Je)

Ehrmeyer SS see Luesel RH
 Ehrmeyer SS, Luesel RH: Evaluation of ability of proficiency testing programs to determine intralaboratory performance, peer group statistics vs clinical usefulness limits, 444 (Ap)

Eichhorn JN, Rosenberg AE: Intravascular papillary endothelial hyperplasia involving synovium, 647 (Je)

Enjoji M see Mori M
 Ersler W see Craighead J
 Estes ML see Ratliff NB

F

Falzone R see de Moraes CF
 Farhi DC see Schaub CR
 Fausel RE see Peng S-K

Fenoglio-Preiser C see Willman CL
 Ferrans VJ see McAllister HA Jr
 Ferrari C see Mondelli MU

Ferry JA see Googe PB
 Filippovich AH see Yasmeh WG
 Fishbein MC see Harold JG

FitzGerald GA see Harold JG
 Fluren GJ see Rodenburg CJ
 Folds J see Doster DR

Folds JD: Clinical and Pathogenic Microbiology (Book Review) 569 (My)

Foran RW see Klee GG
 Foschini NP see Giangaspero F
 Foster LV see Wong T-W

Frank KA see Hosland MH
 Fraser CG: Application of theoretical goals based on biological variation data in proficiency testing, 404 (Ap)
 Fratini U see Craighead J

Freeman SM, Noreen HJ, Bach FH: Oligonucleotide probing, applications to HLA typing, 22 (Ja)

French WJ see Peng S-K
 Friedman BA: Impact of new features of laboratory information systems on quality assurance in anatomic pathology, 1129 (De)

Fuchs J see Rodenburg CJ
 Fujii H see Ito M
 Fuks J see Axiotis CA

Fukuda S see Nakamura Y
 Furian G see Dogliani C

G

Gabriel DA see Doster DR, Macik BG
 Garis J see Damato JJ
 Garvin AJ see Hennigar RA

Gaston L see Dix JD
 Gelalier KR see Qazi FM
 Genta RM: Parasites: Guide to Laboratory Procedures and Identification (Book Review) 218 (Fe)

Gentilini R see Weber G
 Gerber MA see Thung SN

Getz GS, Mazzone T, Soltyz P, Bates SR: Atherosclerosis and apolipoprotein E, enigmatic relationship, 1048 (Oc)
 Ghosh K: OKT4 epitope deficiency and acquired immunodeficiency syndrome (AIDS) (letter) 5 (Ja)

Giangaspero F, Foschini NP: Diffuse axonal swellings in case of acquired immunodeficiency syndrome, 1259 (De)
 Giannotti B see Sanluigi M

Giarelli L see Weber G
 Giarelli L: Practice of autopsy in Trieste (letter) 770 (Au)
 Giddens DP see Glagov S

Gilbert EF: Recent Advances in Histopathology, vol 13 (Book Review) 762 (Jy)

Gilbert-Barnes E: Approaches to Elucidate Mechanisms in Teratogenesis (Book Review) 760 (Jy)

Contemporary Issues in Cardiovascular Pathology (Book Review) 961 (Se)

Perspectives in Pediatric Pathology, vol 9: Neoplasia in Infancy and Childhood (Book Review) 217 (Fe)

Gill P see Jamn D
 Gilligan PH see Hodinka RL

Gilmore BF see Lawson NS
 Girardo AA see Male JM
 Glagov S see Buja LM

Glagov S: Lasting contributions of Robert W. Wissler, PhD, MD, to pathology and to pathobiology of atherosclerosis, 973 (Oc)

Glagov S, Zarins C, Giddens DP, Ku DN: Hemodynamics and atherosclerosis, insights and perspectives gained from studies of human arteries, 1018 (Oc)

Glenn CC: College of American Pathologists Conference XIII on evaluation of proficiency testing results for quantitative methods in relation to clinical usefulness, concluding remarks, 471 (Ap)

Glick AD see Johnson MD
 Godfrey SE: Acquired immunodeficiency syndrome and clinical laboratory worker (letter) 482 (My)

Goldberg HI see Tomaszewski JF Jr
 Goldenberg DM: Targeting of cancer with radiolabeled antibodies, prospects for imaging and therapy, 580 (Je)

Gonzales J, Cohen MB: Computers in anatomic pathology, survey of California hospitals, 1192 (De)

Go DA: Acute Leukemia: Biologic, Diagnostic, and Therapeutic Determinants, 308 (Mr)

Goodman M see Googe PB
 Goodwin RA see Wilson MS

Googe PB, Ferry JA, Khan AK, Dickerson GR, Plich BZ, Goodman M: Comparison of paraneoplastic, carcinoid tumor, and small-cell carcinoma of larynx, 809 (Au)

Gordon A: Hemostasis and Thrombosis in Clinical Laboratory (Book Review) 960 (Se)

Gordon RE see Thung SN
 Gore I see Turbat-Herrera EA

Gosain AK, Wildes TO: Lateral cervical cyst containing gastric epithelium, 96 (Ja)

Gottried EL: Acquired immunodeficiency syndrome and clinical laboratory worker (letter) 482 (My)

Gould E, Porto R, Albores-Saavedra J, Ito MJ: Dermatopathic lymphadenitis, spectrum and significance of its morphologic features, 1145 (No)

Gould HS see Allen PA
 Goussot JF see De Mascarel A

Greenberg SD see Heffelfinger SC
 Greenspan P see Brown WJ

Griffiths JM see Blumenfeld W
 Grignon DJ, Ro JY, Ayala AG: Primary mucin-secreting adenocarcinoma of kidney, 847 (Au)

Grimsrud JA see Bioulat-Sage P
 Grimmer D, Landas S, Kemp JD: IgM antitrophoblast antibodies in patient with pregnancy-associated lupuslike disorder, vasculitis, and recurrent intrauterine fetal demise, 191 (Fe)

Grizzle WE see Turbat-Herrera EA
 Grogan TM see Lipman SM

Grossman H see Craighead J
 Guarner J see del Rio C

Guha A see Trillo A
 Guttenberg M see Thung SN

H

Haber MH see Pielhi MR
 Hamill B see Travis PA

Hammond HC: Federal regulation of clinical laboratories, prospective public policy analysis, 363 (Ap)

Hammond S see Roberts WH
 Hanes VE, Lucia HL: Acridine orange as screen for organisms in clinical specimens and comparison with Gram's stain, 529 (My)

Haque AK, Knef MF: Asbestos bodies in children's lungs, association with sudden infant death syndrome and bronchopulmonary dysplasia, 514 (My)

Harlan DM see Marsh WL
 Harold JG, Siegel RJ, FitzGerald GA, Satoh P, Fishbein MC: Differential prostacyclin production by human umbilical vasculature, 43 (Ja)

Harrington DS see Severson GS
 Harrington DS, Patil K, Lai PK, Yasuda NN, Armitage JO, Ip SH, Weisenburger DD, Linder J, Purtilo DT: Soluble interleukin 2 receptors in patients with malignant lymphoma, 597 (Je)

Harris EK: Proposed goals for analytical precision and accuracy in single-point diagnostic testing, theoretical basis and comparison with data from College of American Pathologists proficiency surveys, 416 (Ap)

Harrison CR see Cooper ES

Hartmann AE, Rose JW: College of American Pathologists Conference XIII on evaluation of proficiency testing results for quantitative methods in relation to clinical usefulness, introduction, 327; review and comments, 473 (Ap)

Hartmann AE, Rose JW, eds: College of American Pathologists Conference XIII September 2-4, 1987, 327 (Ap)

Hashimoto T see Nakamura Y
 Hata J see Shinoda M

Hawkins I see Popper H
 Hawkins RJ see Damato JJ
 Hay ID see Larsen PR

EH, Greenberg SD: Xanthomatous bronchiolitis obliterans with cholesterol pneumonia, 650 (Je)

Hendee WR see McGivney WT
 Hennigar RA, Sens DA, Otherson HB, Garvin AJ: Distribution of fucosubstance in kidney and related neoplasms, absence of lectin-reactive α -fucose from vasculature of bilateral Wilms' tumors, 908 (Se)

Hensley GT, Moskowitz L: Pathology of heart in acquired immunodeficiency syndrome (AIDS) (letter) 114 (Fe)

Henson DE: Grading of tumors (letter) 769 (Au)
 Histological grading of neoplasms, 1091 (No)

Herrera GA see Turbat-Herrera EA
 Herschman JM see Larsen PR

Hertz HS see Welch MJ
 Hess U see Craighead J
 High K see Macik BG

High KA: Antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins, 26 (Ja)
 Protein S deficiency (letter) 1082 (No)

Hill RB see Svendsen E
 Hingberg J see Nanji AA

Hines JR see Murad TM
 Hirokawa K, Utsuyama M, Katsura Y, Sado T: Influence of age on proliferation and peripheralization of thymic T cells, 13 (Ja)

Ho RCS see Selkewych IA
 Hosland MH, Frank KA, Hutchins GM: Pronephalic syndrome with prostatic hypoplasia, bladder wall rupture, and massive ascites in fetus with trisomy 18, 1126 (No)

Hodinka RL, Gilligan PH, Smiley ML: Survival of human immunodeficiency virus in blood culture systems, 1251 (De)

Hoeftge GA, Dewald G, Miles J, Palmer C: Proficiency testing in clinical cytogenetics, 1988 experience of College of American Pathologists, 1085 (No)

Holleman IL Jr see Qazi FM
 Honig EG see del Rio C

Hopkins MS III see Qazi FM
 Harder M see Petersen PH

Hoti A, Weiss R, Schaeke T: Ganglioglioma containing ossous tissue and neurofibrillary tangles, 653 (Je)

Harrison S see Campbell GR
 Hosty TA: Consultative Laboratory Assessment System, CLAS profile, 1203 (De)

Howanitz JM: Immunoassay, innovations in label technology, 775 (Au)

Howanitz PJ: Immunoassay, development and directions in antibody technology, 771 (Au)

Use of proficiency test performance to determine clinical laboratory director qualifications, 349 (Ap)

Howard JF Jr: Laboratory Handbook of Neuroimmunologic Disease (Book Review) 1167 (No)

Hruban RH see Colevas AD
 Hubbard JD: Intraosseous and Parosteal Tumors of Jaws (Book Review) 858 (Au)

Hull MT see Eble JN
 Hutchins GM see Colevas AD; Hosland MH

Hyma BA, Scheithauer BW, Welland LH, Irons GB: Membranous basal cell adenoma of parotid gland, malignant transformation in patient with multiple dermal cylindromas, 209 (Fe)

I

Ibe MJ see Gould E
 Iida F see Sugenoys A

Iijima K see Yoshikawa N
 Ingram L see Armstrong GR

Isaacs HM, Ryan JR, Blaugrund SM: Salivary gland lymph nodes, site of lymphadenopathies and lymphomas associated with human immunodeficiency virus infection, 1224 (De)

Ip SH see Harrington DS
 Irons GB see Hyma BA

Ito M, Sakine I, Fujii H, Ogawa M: Brown adipose tissue in Duchenne's progressive muscular dystrophy, 559 (My)

Iuzzolino P see Dogliani C

J

Jabl M, Dardick I, Cardigos N: Adenomyoepithelioma of breast, 78 (Ja)

Jacobs B see Al-Kalal N
 Jacobs TA see Wilkes MS

Jaffe R: Pediatric Surgical Pathology (Book Review) 216 (Fe)

Jamini C, Shulman I, Lam HT, Aguilar S, Shields M, Cohen J, Gill P, Levine A: Production of positive direct antiglobulin test due to suramin, 898 (Se)

Jennings TA see Axiotis CA
 Jensen RA, Page DL: Cystic hypersecretory carcinoma, what's in a name? (letter) 1179 (De)

Jeety J: Variability in clotting factor assays, errors in technique and analysis (letter) 1089 (No)

Jewell LD, Barr JR, McCaughy WTE, Nguyen G-K, Owen DA: Clear-cell epithelial neoplasms of large intestine, 197 (Fe)

Johnson SL see Severson GS
Johnson CC see Wright DN
Johnson EH see Heffelfinger SC
Johnson MD, Glick AD, Davis BW: Immunohistochemical evaluation of leu-7, myelin basic-protein, S100-protein, glial-fibrillary acidic-protein, and LNS immunoreactivity in nerve sheath tumors and sarcomas, 155 (Fe)
Johnson PM see Cheng H-M
Jones RN, Edson DC, Microbiology Resource Committee of College of American Pathologists: Identification and antimicrobial susceptibility testing of *Neisseria gonorrhoeae*, 1980-1987, results from College of American Pathologists Microbiology Surveys Program, 485 (My)
Jones RN see Woods JW
Jones RW see Tilzer LL
Jones TJ see Rao KPP
Judd RL, Welch SL: Myoid cell differentiation in true thymic hyperplasia and lymphoid hyperplasia, 1140 (No)

K

Kadish AS see Axiotis CA
Kafka MT: Internal quality control, proficiency testing, and clinical relevance of laboratory testing, 449 (Ap)
Kakavatos N see Tseloni-Balafouta S
Kambour AT: Endocrine Carcinoma: Cervicocarcinoma Atlas (Book Review) 307 (Mr)
Kaneko G see Sugeno A
Kanz MF see Haque AK
Kaplan MM see Larsen PR
Kaplan RL see Pielhi MR
Karayannopoulos G, Weiss J, Damjanov I: Detection of fungi in tissue sections by lectin histochemistry, 746 (Jy)
Karch SB, Billingham ME: Pathology and etiology of cocaine-induced heart disease, 225 (Mr)
Karell LR, Katlin S, Siew S, Blauvelt A: Angiosarcoma of adrenal gland, 1163 (No)
Katlin S see Karell LR
Katsura Y see Hirokawa K
Katzi SI see Shimada S
Kazatchkine M see Rousselet M-C
Keller J see Damato JJ
Kelly JK see Maung R
Kelly RH see Schaffner KF
Kemp JD see Grimmer D
Kemp JD: Specificity of trophoblast-reactive antibodies in human pregnancy, 1081 (No)
Kenny MR see Tschirhart RR
Kent E see Nowels K
Killion AA see Yasminah WG
Kim H-S, McBride RA, Titus JL: Quadricuspid aortic valve and single coronary ostium, 842 (Au)
Kim J see Knapp MJ
Kim YC see Ogawa K
Kissling GE see Tracy RE
Kittas C see Tseloni-Balafouta S
Kizer J see Rao KPP
Klatt EC see Tschirhart D
Klatt EC, Koss MN, Young TS, Macauley L, Martin SE: Hepatic hyaline globules associated with passive congestion, 510 (Ap)
Klatt EC, Meyer PR: Pathology of heart in acquired immunodeficiency syndrome (AIDS) (letter) 114 (Fe)
Klatt EC, Shibata D: Cytomegalovirus infection in acquired immunodeficiency syndrome, clinical and autopsy findings, 540 (My)
Klee GG see Branch CM
Klee GG, Forsman RW: User's classification of problems identified by proficiency testing surveys, 371 (Ap)
Klee GG, Tholen DW: Nonparametric analysis method for evaluation of survey results, application to Ligand Assay Survey, 399 (Ap)
Klein MJ see Ling
Knapp MJ, Roggli VL, Kim J, Moore JO, Shelburne JB: Pleural amyloidosis, 57 (Ja)
Koelma IA see Rodenburg CJ
Koopke JF: Clinical Simulations in Laboratory Medicine (Book Review) 101 (Ja)
Kojima M see Oka K
Kollin M see Ulrich TR
Konstant MW see Tomaszefski JF Jr
Kontzoglou T see Moyana TN
Korman RA: Pathologist as physician executive, administrative medicine comes of age, 579 (Je)
Koss MN see Klatt EC
Kovacs JA see Blumenfeld W
Kovacs K see Stefaneau L
Krause J see Krause JR

SUBJECT INDEX TO VOLUME 112

The following index is an alphabetical list of significant subjects presented in this volume. Books reviewed are listed alphabetically by first author under the heading "BOOK REVIEWS." The month is given as a two letter notation in parentheses.

Abdomen
pleomorphic (anaplastic) neuroblastoma [Cuzzatto] 621 (Je)
unusual oncocyte renal tumor with sarcomatoid foci and osteogenic differentiation [Young] 937 (Se)
Abortion
detection of factor VIII von Willebrand factor in endothelial cells in first-trimester fetuses [Travis] 40 (Ja)
Accreditation
overall role of proficiency testing program [Rippey] 340 (Ap)
proficiency testing, its role in voluntary clinical laboratory accreditation program [Duckworth] 346 (Ap)
Acetic Acids
circulating mucin in Wilms' tumor and nephroblastomatosis, effect on leukocyte counts [Schaub] 656 (Je)
Acid Phosphatase
prostate specific antigen and acid phosphatase-reactive cells in cystitis cystica and glandularis [Nowels] 734 (Jy)
Acquired Immunodeficiency Syndrome
acquired immunodeficiency syndrome and clinical laboratory worker (letter) [Godfrey] (reply) [Gottfried] (editorial comment) [McClendon] 482 (My)
autopsy patterns in patients dying of acquired immunodeficiency syndrome in New York City [Wilkes] 1221 (De)
chronic active hepatitis in child with human immunodeficiency virus infection [Thung] 914 (Se)
classic and immunodeficiency-associated-Kaposi's sarcoma, clinical, histologic, and immunologic correlations, [Santucci] 1214 (De)
clonal ambiguity of human immunodeficiency virus-associated lymphomas, similarity to posttransplant lymphomas [Lippman] 128 (Fe)
cytogenetic study of Kaposi's sarcoma associated with acquired immunodeficiency syndrome [Saikevych] 825 (Au)
cytomegalovirus infection in acquired immunodeficiency syndrome, clinical and autopsy findings [Klatt] 540 (My)
dermatopathic lymphadenitis, spectrum and significance of its morphologic features [Gould] 1145 (No)
diffuse axonal swellings in case of acquired immunodeficiency syndrome [Giangaspero] 1258 (De)
disseminated penicilliosis in patient with acquired immunodeficiency syndrome [Piehl] 1262 (De)
disseminated toxoplasmosis in acquired immunodeficiency syndrome [Tschirhart] 1237 (De)
idiopathic thrombocytopenic purpura in patients at risk for acquired immunodeficiency syndrome, histopathologic study, immunohistochemistry, and ultrastructural study on 6 spleens [Rousselet] 1242 (De)
in situ DNA hybridization for cytomegalovirus in colonoscopic biopsies [Roberts] 1106 (No)
in vitro susceptibility of *Cryptococcus neoformans* isolates from patients with acquired immunodeficiency syndrome [Poon] 161 (Fe)
malignant lymphomas in acquired immunodeficiency syndrome, additional evidence for B-cell origin [Egerton] 602 (Je)
MHC-antigen expression in liver in acquired immunodeficiency syndrome (letter) [van den Oord] 483 (My)
OKT4 epitope deficiency and acquired immunodeficiency syndrome
(AIDS) (letter) [Ghosh] (reply) [McCurley] 5 (Ja)
opportunistic cancers in patients with immunodeficiency syndromes [Purtillo] 111-1123 (De); correction, 112-234 (Mr)
pathogenetic role of HIV infection in Kaposi's sarcoma of Equatorial East Africa [Craighead] 259 (Mr)
pathology of heart in acquired immunodeficiency syndrome (AIDS) (letter) [Klatt] (reply) [Hensley] 114 (Fe)
Pneumocystis carinii in sputum, comparable efficacy of screening stains and determination of cyst density [Blumenfeld] 816 (Au)
production of positive direct antiglobulin test due to suramin [Jamin] 898 (Se)
progressive multifocal leukoencephalopathy and retroviral encephalitis in acquired immunodeficiency syndrome [Rhodes] 1207 (De)
salivary gland lymph nodes, site of lymphadenopathies and lymphomas associated with human immunodeficiency virus infection [Joachim] 1224 (De)
sputum examination in diagnosis of *Pneumocystis carinii* pneumonia in acquired immunodeficiency syndrome [del Rio] 1229 (De)
survival of human immunodeficiency virus in blood culture systems [Hodinka] 1251 (De)
varicella-zoster virus leukoencephalitis and cerebral vasculopathy [Morgelle] 173 (Fe)
Acridine Orange
acridine orange as screen for organisms in clinical specimens and comparison with Gram's stain [Hanes] 529 (My)
Adenocarcinoma
clear-cell epithelial neoplasms of large intestine [Jewell]

197 (Fe)
composite gastric carcinoma, report of tumor of carcinoma-carcinoid spectrum [Ulrich] 91 (Ja)
concomitant presence of inflammatory fibroid polyp and carcinoma or adenoma in stomach [Mori] 829 (Au)
glycoconjugate expression in human renal oncocytomas, lectin histochemical study [Eble] 806 (Au)
lectin histochemistry of uterine adenocarcinomas [Yen] 791 (Au)
neuroendocrine differentiation in prostatic carcinomas, retrospective autopsy study [Turbat-Herrera] 1100 (No)
postoperative spindle-cell nodule of endometrium [Clement] 566 (My)
primary mucin-secreting adenocarcinoma of kidney [Grierson] 847 (Au)
Adenocorticotrophic Hormone
neuroendocrine differentiation in prostatic carcinomas, retrospective autopsy study [Turbat-Herrera] 1100 (No)
Adenoma
adenomyoepithelioma of breast [Jabl] 73 (Ja)
bile duct adenomas in heterozygous (MZ) deficiency of α_1 protease inhibitor [Scheele] 945 (Se)
clear-cell epithelial neoplasms of large intestine [Jewell] 197 (Fe)
concomitant presence of inflammatory fibroid polyp and carcinoma or adenoma in stomach [Mori] 829 (Au)
expression of vitamin B₁₂ R-binder in breast tumors, immunohistochemical study [Ogawa] 1117 (No)
immunocytochemical localization of synaptophysin in human hypophyses and pituitary adenomas [Stefaneanu] 801 (Au)
lung cancer metastasis to adrenocortical adenomas, chance occurrence or predilected phenomenon? [Moriya] 286 (Mr)
membranous basal cell adenoma of parotid gland, malignant transformation in patient with multiple dermal cylindromas [Hyma] 209 (Fe)
papillae formation in parathyroid adenoma, source of possible diagnostic error [Sahin] 99 (Ja)
Adenosine Cyclic Monophosphate
morphology and increased growth rate of atherosclerotic intimal smooth-muscle cells [Yoshida] 987 (Oc)
Adipose Tissue
brown adipose tissue in Duchenne's progressive muscular dystrophy [Ito] 550 (My)
Administration see Organization and Administration
Adrenal Cortex Neoplasms
lung cancer metastasis to adrenocortical adenomas, chance occurrence or predilected phenomenon? [Moriya] 286 (Mr)
Adrenal Gland Neoplasms
angiosarcoma of adrenal gland [Karet] 1163 (No)
malignant peripheral nerve sheath tumor and pheochromocytoma, composite tumor of adrenal [Min] 266 (Mr)
Adrenocorticotrophic Hormone
neuroendocrine differentiation and prostatic carcinoma, concept 'comes of age' [di Sant'Agnes] 1097 (No)
Affinity Labels
use of bar code labels on collection tubes for specimen management in clinical laboratory [Tilzer] 1200 (De)
Age Factors
atherosclerosis and aging, morphometric study on arterial lesions of elderly and very elderly necropsy subjects [Weber] 1066 (Oc)
influence of age on proliferation and peripheralization of thymic T cells [Hirokawa] 13 (Ja)
Agglutinins
distribution of fucosubstance in kidney and related neoplasms, absence of lectin-reactive α -fucose from vasculature of bilateral Wilms' tumors [Hennigar] 908 (Se)
AIDS-Related Complex
pathogenetic role of HIV infection in Kaposi's sarcoma of Equatorial East Africa [Craighead] 259 (Mr)
Alaska
evolution of hepatocellular carcinoma associated with chronic hepatitis B virus infection in Alaskan Eskimos [Popper] 498 (My)
Alician Blue see Indoles
Alcoholic
sudden death due to left coronary artery occlusion in infective endocarditis [Dowling] 932 (Se)
Alkaline Phosphatase
physician office analyzer, evaluation of quality of results obtained by technical and nontechnical personnel [Nanj] 242 (Mr)
Alleles
oligonucleotide probing, applications to HLA typing [Freeman] 22 (Ja)
Alpha 1-Antitrypsin
bile duct adenomas in heterozygous (MZ) deficiency of α_1 protease inhibitor [Scheele] 945 (Se)
hepatic hyaline globules associated with passive congestion [Klatt] 510 (My)
malignant rhabdoid tumor of liver, evidence for epithelial differentiation [Parham] 61 (Ja)
Alport's Syndrome see Nephritis, Hereditary

Alzheimer's Disease
ganglioglioma containing osseous tissue and neurofibrillary tangles [Hori] 663 (Je)
American Academy of Medical Directors
pathologist as physician executive, administrative medicine comes of age [Korpmann] 579 (Je)
American College of Pathologists
statistical procedure for measuring and evaluating performance in interlaboratory comparison programs [Tholen] 462 (Ap)
American Medical Association
lasting contributions of Robert W. Wissler, PhD, MD, to pathology and to pathobiology of atherosclerosis [Glagov] 973 (Oc)
technology assessment in medicine, role of American Medical Association [McGivney] 1181 (De)
American Thyroid Association
revised nomenclature for tests of thyroid hormones and thyroid-related proteins in serum [Larsen] 111-1141 (De); correction, 112-132 (Fe)
Amikacin
in vitro inactivation of aminoglycosides by cephalosporin antibiotics [Wright] 526 (My)
Aminoglycosides
in vitro inactivation of aminoglycosides by cephalosporin antibiotics [Wright] 526 (My)
Aminotransferases
proficiency testing of enzymes, charting the way toward standardization [Lott] 392 (Ap)
Amphotericin B
cure of *Cryptosporidium* pneumonia by amphotericin B in patient with megakaryocytic leukemia (letter) [Brubaker] 1173 (De)
in vitro susceptibility of *Cryptococcus neoformans* isolates from patients with acquired immunodeficiency syndrome [Poon] 161 (Fe)
Ampicillin
effect of prompt inoculation on results of acceptor system minimal inhibitory concentration determinations for *Listeria monocytogenes* [Dillon] 163 (Fe)
Amylase
hepatic hyaline globules associated with passive congestion [Klatt] 510 (My)
Amyloid
bronchial carcinoid tumor with amyloid stroma [Al-Kalisi] 211 (Fe)
Amyloid Protein AA
restrictive cardiomyopathy with α light chain deposits in myocardium as complication of multiple myeloma, histochemical and electron microscopic observations [McAllister] 1151 (No)
Amyloidosis
pleural amyloidosis [Knapp] 57 (Ja)
Analysis of Variance
College of American Pathologists conference XIII on evaluation of proficiency testing results for quantitative methods in relation to clinical usefulness, introduction [Hartmann] 327 (Ap)
evolution of evaluation criteria in College of American Pathologists surveys [Ross] 334 (Ap)
how and why of accuracy base for proficiency testing programs [Welch] 343 (Ap)
nonparametric analysis method for evaluation of survey results, application to Ligand Assay Survey [Klee] 399 (Ap)
proficiency testing, its role in voluntary clinical laboratory accreditation program [Duckworth] 346 (Ap)
proposed goals for analytical precision and accuracy in single-point diagnostic testing, theoretical basis and comparison with data from College of American Pathologists proficiency surveys [Harris] 416 (Ap)
statistical procedure for measuring and evaluating performance in interlaboratory comparison programs [Tholen] 462 (Ap)
Anaplasia
evolution of hepatocellular carcinoma associated with chronic hepatitis B virus infection in Alaskan Eskimos [Popper] 498 (My)
malignant peripheral nerve sheath tumor and pheochromocytoma, composite tumor of adrenal [Min] 266 (Mr)
pleomorphic (anaplastic) neuroblastoma [Cuzzatto] 621 (Je)
Anatomy
computers in anatomic pathology, survey of California hospitals [Gonzales] 1192 (De)
impact of new features of laboratory information systems on quality assessment in anatomic pathology [Friedman] 1189 (De)
Anemia, Sickle Cell
histopathologic features of liver biopsy specimens in sickle cell disease [Mills] 290 (Mr)
Anesupoid
histopathological and clinical correlations of cytosarcoma phylloides [Murad] 752 (Jy)
Aneurysm
inflammatory aneurysm of aorta, aortitis, and coronary arteritis [Cohle] 1121 (No)

Angiography
pathology and etiology of cocaine-induced heart disease [Karch] 225 (Mr)

Angiosarcoma see Hemangiosarcoma

Animals, Laboratory
animal models and study of atherosclerosis [Vesselinovitch] 1011 (Oe)

Anisotropy
brown adipose tissue in Duchenne's progressive muscular dystrophy [Ito] 550 (My)

Anti-Antibodies
interference in immunoenzymometric assays caused by IgM anti-mouse IgG antibodies [McCarthy] 901 (Se)

1996 Comprehensive Blood Bank Survey of College of American Pathologists [Cooper] 878 (Se)

Anti-Human Globulin Consumption Test see Coombs' Test

Antibiotics
in vitro inactivation of aminoglycosides by cephalosporin antibiotics [Wright] 526 (My)

Antibodies
IgM antiprophylact antibodies in patient with pregnancy-associated lupuslike disorder, vasculitis, and recurrent intrauterine fetal demise, 191 (Fe)

1996 Comprehensive Blood Bank Survey of College of American Pathologists [Cooper] 878 (Se)

Antibodies, Monoclonal
anti-leu-3a antibody reactivity with Reed-Sternberg cells of Hodgkin's disease [Oka] 139 (Fe)

desmoplastic malignant melanoma, clinicopathologic study of 14 cases [Walsh] 922 (Se)

disseminated penicilliosis in patient with acquired immunodeficiency syndrome [Piehl] 1262 (De)

does immune response play role in pathogenesis of chronic liver disease? [Mondelli] 489 (My)

expression of Ia and monocyte-macrophage lineage antigens in giant cell tumor of bone and related lesions [Ling] 65 (Ja)

immunoassay, development and directions in antibody technology [Howanitz] 771 (Au)

immunocytochemical localization of synaptophysin in human hypophyses and pituitary adenomas [Stefaneau] 901 (Au)

immunohistochemical detection of ras oncogene product p21 in advanced ovarian cancer, lack of correlation with clinical outcome [Rodenburg] 151 (Fe)

immunohistochemical diagnosis of sinonasal melanoma, carcinoma, and neuroblastoma with monoclonal antibodies HMB-45 and anti-synaptophysin [Wick] 616 (Je)

immunoreactivity for cytokeratin and epithelial membrane antigen in leiomyosarcoma [Miettinen] 637 (Je)

interference in immunoenzymometric assays caused by IgM anti-mouse IgG antibodies [McCarthy] 901 (Se)

metaplastic breast carcinoma (letter) [O'Keefe] (reply) [Pascual] 578 (Je)

metaplastic breast carcinoma with epithelial phenotype of pseudosarcomatous components [Santusano] 82 (Ja)

MHC-antigen expression in liver in acquired immunodeficiency syndrome (letter) [van den Oord] 483 (My)

nodular T-cell lymphoma, report of case studied with morphologic, immunohistochemical, and DNA hybridization techniques [van den Oord] 133 (Fe)

pathogenic role of HIV infection in Kaposi's sarcoma of Equatorial East Africa [Craighead] 256 (Mr)

soluble interleukin 2 receptors in patients with malignant lymphoma [Harrington] 587 (Je)

targeting of cancer with radiolabeled antibodies, prospects for imaging and therapy [Goldenberg] 580 (Je)

use of monoclonal antibody to detect *Pneumocystis carinii* in induced sputum and bronchoalveolar lavage fluid by immunoperoxidase staining [Blumenfeld] 1223 (De)

Antibody Enzyme Technique, Unlabeled see Immunoenzyme Technique

Antibody Specificity
specificity of trophoblast-reactive antibodies in human pregnancy [Cheng] (reply) [Kemp] 1081 (No)

Anticoagulants
antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

IgM antiprophylact antibodies in patient with pregnancy-associated lupuslike disorder, vasculitis, and recurrent intrauterine fetal demise, 191 (Fe)

protein S deficiency (letter) [Dix] (reply) [High] 1082 (No)

Antigen-Antibody Reactions
absence of intratubular germ cell neoplasia in testicular yolk sac tumors in children, histochemical and immunohistochemical study [Manivel] 641 (Je)

biclonal IgM gammopathy in chronic lymphocytic leukemia [Schaffner] 206 (Fe)

bronchial carcinoma tumor with amyloid stroma [Al-Kaisi] 211 (Fe)

chance discovery of hepatic fibrosis in patient with asymptomatic hypervitaminosis A [Bioulac-Sage] 505 (My)

characterization of glomeruli by immunohistochemistry and electron microscopy in case of Wilms' tumor [Payton] 586 (My)

chordoma, immunohistochemical study of 20 cases [Meis] 553 (My)

composite gastric carcinoma, report of tumor of carcinoma-carcinoid spectrum [Ulrich] 91 (Ja)

detection of fungi in tissue sections by lectin histochemistry [Karayannopoulos] 746 (Jy)

differential prostacyclin production by human umbilical vasculature [Harold] 43 (Ja)

epithelial germinal centers in overwhelming childhood infections, aftermath of nonspecific destruction of follicular B cells by natural killer cells [Severson] 917 (Se)

expression of Ia and monocyte-macrophage lineage antigens in giant cell tumor of bone and related lesions [Ling] 65 (Ja)

immunocytochemical identification of *Campylobacter pylori* in gastritis and correlation with culture [Barbosa]

523 (My)

immunocytochemistry of thyroid in surgical and cytologic specimens [Davila] 51 (Ja)

immunohistochemical detection of ras oncogene product p21 in advanced ovarian cancer, lack of correlation with clinical outcome [Rodenburg] 151 (Fe)

immunohistochemical diagnosis of sinonasal melanoma, carcinoma, and neuroblastoma with monoclonal antibodies HMB-45 and anti-synaptophysin [Wick] 616 (Je)

immunohistochemical evaluation of leu-7, myelin basic protein, S100 protein, glial-fibrillary acidic-protein, and LN3 immunoreactivity in nerve sheath tumors and sarcomas [Johnson] 155 (Fe)

immunohistochemical studies on local antitumor effects of streptococcal immunopotentiator, OK-432, in human solid malignant tumors [Sugeno] 545 (My)

immunoreactivity for cytokeratin and epithelial membrane antigen in leiomyosarcoma [Miettinen] 637 (Je)

Influence of age on proliferation and peripheralization of thymic T cells [Hirokawa] 13 (Ja)

lactoferrin demonstration in thyroid follicular and papillary carcinomas (letter) [Barresi] (reply) [Bedrossian] 1176 (De)

late recurrence (33 years) of gastric epithelial stromal tumor (leiomyoblastoma) with low malignant potential [Miller] 96 (Ja)

malignant peritoneal mesothelioma in childhood [Armstrong] 1159 (No)

malignant rhabdoid tumor of liver, evidence for epithelial differentiation [Farham] 61 (Ja)

metaplastic breast carcinoma with epithelial phenotype of pseudosarcomatous components [Santusano] 82 (Ja)

nodular T-cell lymphoma, report of case studied with morphologic, immunohistochemical, and DNA hybridization techniques [van den Oord] 133 (Fe)

peripheral neuroepithelioma in childhood, immunohistochemical demonstration of epithelial differentiation [Shinoda] 1155 (No)

peripheral T-cell lymphoma presenting as soft-tissue mass of extremity [Axiotis] 850 (Au)

urinary bladder paraganglioma, immunohistochemical study [Moynana] 70 (Ja)

varicella-zoster virus leukoencephalitis and cerebral vasculopathy [Morzello] 173 (Fe)

xanthogranulomatous pyelonephritis, reappraisal and immunohistochemical study [Antonakopoulos] 275 (Mr)

Antigen S 100 see Nerve Tissue Protein S 100

Antigenic Determinants
OKT4 epitope deficiency and acquired immunodeficiency syndrome (AIDS) (letter) [Ghoah] (reply) [McCurley] 5 (Ja)

Antigens
effect of digital rectal examination on serum levels of prostate-specific antigen [Braver] 1110 (No)

immunoidentification of *Histoplasma capsulatum* and *Blastomycosis dermatitidis* with commercial exantigen reagents, effect of culture age [Body] 519 (My)

1996 Comprehensive Blood Bank Survey of College of American Pathologists [Cooper] 878 (Se)

progressive multifocal leukoencephalopathy and retroviral encephalitis in acquired immunodeficiency syndrome [Rhodes] 1207 (De)

prostate specific antigen and acid phosphatase-reactive cells in cystitis cystica and glandularis [Nowels] 734 (Jy)

solitary condylomatous papilloma of bronchus [Trillo] 731 (Jy)

survival of human immunodeficiency virus in blood culture systems [Hodinka] 1251 (De)

Antigens, Immune Response
expression of Ia and monocyte-macrophage lineage antigens in giant cell tumor of bone and related lesions [Ling] 65 (Ja)

malignant lymphomas in acquired immunodeficiency syndrome, additional evidence for B-cell origin [Egarter] 602 (Je)

skin as immunologic organ [Shimada] 231 (Mr)

Antiglobulin Consumption Test see Coombs' Test

Antiglobulin Test see Coombs' Test

Antisera see Immune Sera

Antithrombin III
antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

mesenteric venous thrombosis due to antithrombin III deficiency [Maung] 37 (Ja)

protein S deficiency (letter) [Dix] (reply) [High] 1082 (No)

Aorta
comparisons of human populations for histologic features of atherosclerosis, summary of questions and methods for geographic studies [Tracy] 1056 (Oe)

development of vasa vasorum of human aorta in various conditions, morphometric study [Okuyama] 721 (Jy)

hemodynamics and atherosclerosis, insights and perspectives gained from studies of human arteries [Glagov] 1018 (Oe)

Aorta, Ascending see Aorta

Aortic Valve
quadricuspid aortic valve and single coronary ostium [Kim] 842 (Au)

Aortitis
inflammatory aneurysm of aorta, aortitis, and coronary arteritis [Cohle] 1121 (No)

Apoenzymes see Apoproteins

Apolipoproteins A
lipoprotein (a), potential bridge between fields of atherosclerosis and thrombosis [Scanu] 1045 (Oe)

Apolipoproteins B
lipoprotein (a), potential bridge between fields of atherosclerosis and thrombosis [Scanu] 1045 (Oe)

Apoproteins
atherosclerosis and apoprotein E, enigmatic relationship [Getz] 1048 (Oe)

immunoassay, innovations in label technology [Howanitz] 775 (Au)

regenerative process of hyaline membrane disease, electron microscopic, immunohistochemical, and biochemical study [Nakamura] 821 (Au)

Appendicitis
evaluation of technic H-1 automated hematology analyzer in detecting peripheral blood changes in acute inflammation [Banes] 885 (Se)

Appendix
necrotizing arteritis of vermiform appendix, clinicopathologic study of 12 cases [Moynana] 738 (Jy)

Argentaffin System see Chromaffin System

Argyria
carcinoid tumor of stomach with features of midgut tumor [Quinones] 838 (Au)

Arteries
arterial smooth muscle, multifunctional mesenchymal cell [Campbell] 977 (Oe)

3-dimensional architecture of vasa vasorum in wall of human aorta, computer-aided reconstruction study [Okuyama] 721 (Jy)

Arterioles see Arteries

Arteriosclerosis
animal models and study of atherosclerosis [Vesselinovitch] 1011 (Oe)

arterial wall injury and proteoglycan changes in atherosclerosis [Brenson] 1002 (Oe)

atherosclerosis and aging, morphometric study on arterial lesions of elderly and very elderly necropsy subjects [Weber] 1066 (Oe)

atherosclerosis and apoprotein E, enigmatic relationship [Getz] 1048 (Oe)

atherosclerosis vehicle in experimental atherosclerosis, brief review with special reference to peanut oil [Kritchevsky] 1041 (Oe)

comparisons of human populations for histologic features of atherosclerosis, summary of questions and methods for geographic studies [Tracy] 1056 (Oe)

dietary cholesterol and human coronary heart disease, epidemiologic evidence [Stanley] 1032 (Oe)

hemodynamics and atherosclerosis, insights and perspectives gained from studies of human arteries [Glagov] 1018 (Oe)

inflammatory aneurysm of aorta, aortitis, and coronary arteritis [Cohle] 1121 (No)

lasting contributions of Robert W Wissler, PhD, MD, to pathology and to pathobiology of atherosclerosis [Glagov] 973 (Oe)

lipoprotein (a), potential bridge between fields of atherosclerosis and thrombosis [Scanu] 1045 (Oe)

morphology and increased growth rate of atherosclerotic intimal smooth-muscle cells [Yoshida] 987 (Oe)

origins of human atherosclerotic plaques, role of altered gene expression [Benditt] 997 (Oe)

pathobiology of atherosclerosis, current concepts and perspectives, Festschrift in tribute to Robert W Wissler, PhD, MD [Baja] 975 (Oe)

Arthritis, Rheumatoid
diseases associated with exposure to silica and nonfibrous silicate minerals [Silicosis and Silicate Disease Committee] 673 (Jy)

Asbestos
asbestos bodies in children's lungs, association with sudden infant death syndrome and bronchopulmonary dysplasia [Haq] 514 (My)

Ascites
immunohistochemical detection of ras oncogene product p21 in advanced ovarian cancer, lack of correlation with clinical outcome [Rodenburg] 151 (Fe)

prune-belly syndrome with prostatic hypoplasia, bladder wall rupture, and massive ascites in fetus with trisomy 18 [Hoagland] 1126 (No)

Ascorbic Acid
ingestion of megadoses of ascorbic acid will not produce "clean" urine from marijuana smokers (letter) [Schwartz] 769 (Au)

Aspiration Biopsy see Biopsy, Needle

Association of American Medical Colleges
teaching pathology in 21st century, experimental automated curriculum delivery system for basic pathology [Woods] 852 (Au)

Astrocystes
progressive multifocal leukoencephalopathy and retroviral encephalitis in acquired immunodeficiency syndrome [Rhodes] 1207 (De)

Autoantibodies
current concepts and diagnostic evaluation of autoimmune disease [Nakamura] 869 (Se)

use of high-dose intravenous γ -globulin in acquired von Willebrand syndrome [Macik] 143 (Fe)

Autoimmune Diseases
current concepts and diagnostic evaluation of autoimmune disease [Nakamura] 869 (Se)

does immune response play role in pathogenesis of chronic liver disease? [Mondelli] 489 (My)

lymphorrhage localized to muscle end-plate in myasthenia gravis [Pascual] 584 (Se)

review of nomenclature for tests of thyroid hormones and thyroid-related proteins in serum [Larsen] 111:1141 (De); correction, 112:132 (Fe)

use of high-dose intravenous γ -globulin in acquired von Willebrand syndrome [Macik] 143 (Fe)

Autoimmune Thyroiditis see Thyroiditis, Autoimmune

Automatic Data Processing
use of bar code labels on collection tubes for specimen management in clinical laboratory [Tilzer] 1200 (De)

Autopsy
asbestos bodies in children's lungs, association with sudden infant death syndrome and bronchopulmonary dysplasia [Haq] 514 (My)

autopsy patterns in patients dying of acquired immunodeficiency syndrome in New York City [Wilkes] 1221 (De)

causes of morbidity and mortality among infants born at

term [Rosenthal] 179 (Fe)
 computers in anatomy: pathology, survey of California hospitals [Gonatas] 1192 (De)
 congenital biliary dilatation in autosomal dominant adult polycystic disease of liver and kidneys [Terada] 1113 (No)
 development of vasa vasorum of human aorta in various conditions, morphometric study [Okuyama] 721 (Jy)
 disseminated toxoplasmosis in acquired immunodeficiency syndrome [Tschirhart] 1237 (De)
 isolation of genital mycoplasmas and *Chlamydia trachomatis* in stillborn and neonatal autopsy material [Madañ] 749 (Jy)
 juvenile nephronophthisis with calcification of basal ganglia and pancreatic insufficiency [Raafat] 630 (Je)
 lung biopsy in chronic lymphocytic leukemia [Rollins] 607 (Je)
 lung cancer metastasis to adrenocortical adenomas, chance occurrence or predilected phenomenon? [Moriyas] 266 (Mr)
 pathology of heart in acquired immunodeficiency syndrome (AIDS) [letter] [Klatt] (reply) [Hensley] 114 (Fe)
 practice of autopsy in Trieste [letter] [Giarsili] (reply) [Svendsen] 770 (Au)
 prostate specific antigen and acid phosphatase-reactive cells in cystitis cystica and glandularis [Nowels] 734 (Jy)
 pruned-belly syndrome with prostatic hypoplasia, bladder wall rupture, and massive ascites in fetus with trisomy 18 [Hoagland] 1126 (No)
Pseudomonas cepacia-associated pneumonia in cystic fibrosis, relation of clinical features to histopathologic patterns of pneumonia [Tomasefski] 166 (Fe)
 surgical pathology computer systems have come of age [Aller] 1186 (De)
 3-dimensional architecture of vasa vasorum in wall of human aorta, computer-aided reconstruction study [Okuyama] 726 (Jy)
Avidin
 differential prostacyclin production by human umbilical vasculature [Harold] 43 (Ja)
 epithelioid germinal centers in overwhelming childhood infections, aftermath of nonspecific destruction of follicular B cells by natural killer cells [Severson] 917 (Se)
 glycoconjugate expression in human renal oncocytomas, lectin histochemical study [Eble] 805 (Au)
 human chorionic gonadotropin expression in lung, breast, and renal carcinomas [Kuida] 282 (Mr)
 immunocytochemical localization of synaptophysin in human hypophyses and pituitary adenomas [Stefaneau] 801 (Au)
 immunohistochemical studies on local antitumor effects of streptococcal immunopotentiator, OK-432, in human solid malignant tumors [Sugeno] 545 (My)
 immunostaining for leukocyte common antigen (letter) [Söderström] 483, (reply) [Wick] 484 (My)
 leukocyte common antigen expression in lymphomas (letter) [Weiss] (reply) [Wick] 867 (Se)
Azons
 diffuse axonal swellings in case of acquired immunodeficiency syndrome [Giangaroso] 1259 (De)
 origin of granules in granular cell tumor, intracellular myelin formation with autogedition [Mittal] 302 (Mr)
B
Baboon see **Papio**
Back
 nonsecretory multiple myeloma [Doster] 147 (Fe)
Bacterial infections
 xanthogranulomatous pyelonitis, reappraisal and immunohistochemical study [Antonakopoulos] 275 (Mr)
Bar Codes see **Automatic Data Processing**
Barium
 radiology as new diagnostic method for barium granuloma [De Mascarel] 634 (Je)
Basal Ganglia
 juvenile nephronophthisis with calcification of basal ganglia and pancreatic insufficiency [Raafat] 630 (Je)
Basement Membrane
 benign familial hematuria [Yoshikawa] 794 (Au)
 chance discovery of hepatic fibrosis in patient with asymptomatic hypervitaminosis A [Boulac-Sage] 505 (My)
 characterization of glomeruli by immunohistochemistry and electron microscopy in case of Wilms' tumor [Payton] 536 (My)
 juvenile nephronophthisis with calcification of basal ganglia and pancreatic insufficiency [Raafat] 630 (Je)
 light chain cardiomyopathy associated with small-vessel disease [Peng] 844 (Au)
 renal glomerular and tubular abnormalities in glycogen storage disease type I [Verani] 271 (Mr)
Basophils
 use of technic H-1 in characterization of leukemias [Krause] 889 (Se)
Bayesian Analysis see **Probability**
Benzo(a)pyrene
 computerized image-analysis microscopy of tissue sections [Pappolla] 787 (Au)
 dermatopathic lymphadenitis, spectrum and significance of its morphologic features [Gould] 1145 (No)
Bile Duct Diseases
 bile duct adenomas in heterozygous (MZ) deficiency of α_1 protease inhibitor [Scheele] 945 (Se)
Bile Duct Obstruction see **Cholestasis**
Bile Ducts
 chronic active hepatitis in child with human immunodeficiency virus infection [Thung] 914 (Se)
 MHC-antigen expression in liver in acquired immunodeficiency syndrome (letter) [van den Oord] 483 (My)
Bile Ducts, Intrahepatic
 congenital biliary dilatation in autosomal dominant adult polycystic disease of liver and kidneys [Terada] 1113

(No)
Biliary Cirrhosis see **Liver Cirrhosis, Biliary**
Biliary Stasis see **Cholestasis**
Biological Assay
 caution advised in physician office analyzer evaluations (letter) [Ross] 1082, (reply) [Nanji] 1083 (No)
 factor VIII assays, assessment of variables [Brandt] 7 (Ja)
Biopsy
 lasting contributions of Robert W. Wissler, PhD, MD, to pathology and to pathobiology of atherosclerosis [Glagov] 973 (Oc)
 pathobiology of atherosclerosis, current concepts and perspectives, Festschrift in tribute to Robert W. Wissler, PhD, MD [Baja] 975 (Oc)
Biopsy
 histopathologic features of liver biopsy specimens in sickle cell disease [Mills] 290 (Mr)
 in situ DNA hybridization for cytomegalovirus in colonoscopic biopsies [Roberts] 1106 (No)
 lung biopsy in chronic lymphocytic leukemia [Rollins] 607 (Je)
Biopsy, Needle
 cystic hypersecretory carcinoma, what's in a name? (letter) [Jensen] (reply) [Colandrea] 1179 (De)
 cystic hypersecretory duct carcinoma of breast, report of case with fine-needle aspiration [Colandrea] 560 (My)
 immunocytochemistry of thyroid in surgical and cytologic specimens [Davila] 51 (Ja)
 pleural amyloidosis [Knapp] 57 (Ja)
Biotin
 differential prostacyclin production by human umbilical vasculature [Harold] 43 (Ja)
 epithelioid germinal centers in overwhelming childhood infections, aftermath of nonspecific destruction of follicular B cells by natural killer cells [Severson] 917 (Se)
 glycoconjugate expression in human renal oncocytomas, lectin histochemical study [Eble] 805 (Au)
 human chorionic gonadotropin expression in lung, breast, and renal carcinomas [Kuida] 282 (Mr)
 immunocytochemical localization of synaptophysin in human hypophyses and pituitary adenomas [Stefaneau] 801 (Au)
 immunohistochemical studies on local antitumor effects of streptococcal immunopotentiator, OK-432, in human solid malignant tumors [Sugeno] 545 (My)
 immunostaining for leukocyte common antigen (letter) [Söderström] 483, (reply) [Wick] 484 (My)
 leukocyte common antigen expression in lymphomas (letter) [Weiss] (reply) [Wick] 867 (Se)
Blacks
 OKT4 epitope deficiency and acquired immunodeficiency syndrome (AIDS) [letter] [Ghosh] (reply) [McCurley] 5 (Ja)
Bladder
 prostate specific antigen and acid phosphatase-reactive cells in cystitis cystica and glandularis [Nowels] 734 (Jy)
Bladder Neoplasms
 urinary bladder paragangliomas, immunohistochemical study [Moyana] 70 (Ja)
Blastomycosis
 immunohistochemical study of *Histoplasma capsulatum* and *Blastomycosis dermatitidis* with commercial exoantigen reagents, effect of culture age [Body] 519 (My)
Blood
 acquired immunodeficiency syndrome and clinical laboratory worker (letter) [Godfrey] (reply) [Gottfried] (editorial comment) [McClendon] 482 (My)
 survival of human immunodeficiency virus in blood culture systems [Hodinka] 1251 (De)
Blood Banks
 1986 Comprehensive Blood Bank Survey of College of American Pathologists (Cooper) 878 (Se)
Blood Cell Count
 evaluation of technic H-1 automated hematology analyzer in detecting peripheral blood changes in acute inflammation [Banez] 885 (Se)
 use of technic H-1 in characterization of leukemias [Krause] 889 (Se)
Blood Cell Number see **Blood Cell Count**
Blood Flow Velocity
 development of vasa vasorum of human aorta in various conditions, morphometric study [Okuyama] 721 (Jy)
 hemodynamics and atherosclerosis, insights and perspectives gained from studies of human arteries [Glagov] 1018 (Oc)
 light chain cardiomyopathy associated with small-vessel disease [Peng] 844 (Au)
Blood Pressure
 hemodynamics and atherosclerosis, insights and perspectives gained from studies of human arteries [Glagov] 1018 (Oc)
 3-dimensional architecture of vasa vasorum in wall of human aorta, computer-aided reconstruction study [Okuyama] 726 (Jy)
Blood Tests see **Hematologic Tests**
Blood Transfusion
 histopathologic features of liver biopsy specimens in sickle cell disease [Mills] 290 (Mr)
 1986 Comprehensive Blood Bank Survey of College of American Pathologists (Cooper) 878 (Se)
Body Fluids
 comparison of Papanicolaou's and Wright-Giemsa stains in examination of body fluids for Hodgkin's disease [Wilson] 612 (Je)
Bone and Bones
 chondroma, immunohistochemical study of 20 cases [Meis] 553 (My)
Bone Marrow
 conjugated hyperbilirubinemia and renal function in bone marrow transplant recipients [Yasmin] 245 (Mr)
 nonsecretory multiple myeloma [Doster] 147 (Fe)
Bone Neoplasms
 expression of Ia and monocyte-macrophage lineage anti-

gens in giant cell tumor of bone and related lesions [Ling] 65 (Ja)

Brain Diseases
diffuse axonal swellings in case of acquired immunodeficiency syndrome [Giangaspero] 1259 (De)

Brain Stem
diffuse axonal swellings in case of acquired immunodeficiency syndrome [Giangaspero] 1259 (De)

Branchial Cyst see Branchioma

Branchioma
lateral cervical cyst containing gastric epithelium [Gosain] 96 (Ja)

Breast Neoplasms
adenomyoepithelioma of breast [Jabi] 73 (Ja)
cystic hypersecretory carcinoma, what's in a name? (letter) [Jensen] (reply) [Colandrea] 1179 (De)
cystic hypersecretory duct carcinoma of breast, report of case with fine-needle aspiration [Colandrea] 560 (My)
human chorionic gonadotropin expression in lung, breast, and renal carcinomas [Kuida] 282 (Mr)
metaplastic breast carcinoma (letter) [O'Keane] (reply) [Pascual] 578 (Je)
metaplastic breast carcinoma with epithelial phenotype of pseudosarcomatous components [Santusano] 82 (Ja)

Bronchi
solitary condylomatous papilloma of bronchus [Trillo] 731 (Jy)

Bronchial Neoplasms
bronchial carcinoma tumor with amyloid stroma [Al-Kaisi] 211 (Fe)
diseases associated with exposure to silica and nonfibrous silicate minerals [Silicosis and Silicate Disease Committee] 673 (Jy)

Bronchiolitis Obliterans
xanthomatous bronchiolitis obliterans with cholesterol pneumonia [Heffelfinger] 650 (Je)

Bronchoalveolar Lavage Fluid
disseminated penicilliosis in patient with acquired immunodeficiency syndrome [Piehl] 1262 (De)
sputum examination in diagnosis of *Pneumocystis carinii* pneumonia in acquired immunodeficiency syndrome [del Rio] 1229 (De)

Bronchopulmonary Dysplasia
asbestos bodies in children's lungs, association with sudden infant death syndrome and bronchopulmonary dysplasia [Haque] 514 (My)

Bronchoscopy
sputum examination in diagnosis of *Pneumocystis carinii* pneumonia in acquired immunodeficiency syndrome [del Rio] 1229 (De)

Budd-Chiari Syndrome see Hepatic Vein Thrombosis

Butter
cholesterol vehicle in experimental atherosclerosis, brief review with special reference to peanut oil [Kritchevsky] 1041 (Oc)

C

Cacao see Plants, Edible

Calcification, Pathologic see Calcinosi

Calciflux see Calcinosi

Calcinosi
childhood fibrous tumor with psammoma bodies, clinicopathologic features in 2 cases [Rosenthal] 796 (Au)

Calcium
internal quality control, proficiency testing, and clinical relevance of laboratory testing [Kafka] 449 (Ap)
proposed goals for analytical precision and accuracy in single-point diagnostic testing, theoretical basis and comparison with data from College of American Pathologists proficiency surveys [Harris] 416 (Ap)

California
computers in anatomic pathology, survey of California hospitals [Gonzales] 1192 (De)

Campylobacter
immunocytochemical identification of *Campylobacter pylori* in gastritis and correlation with culture [Barbosa] 523 (My)

Cannabidiol see Cannabinoids

Cannabinoids
ingestion of megadoses of ascorbic acid will not produce 'clean' urine in *Cannabis* marijuana smokers (letter) [Schwartz] 769 (Au)

Cannabidiol see Cannabinoids

CAP LABORATORY IMPROVEMENT PROGRAMS
factor VIII assays, assessment of variables [Brandt] 7 (Ja)
identification and antimicrobial susceptibility testing of *Neisseria gonorrhoeae*, 1980-1987, results from College of American Pathologists Microbiology Surveys program [Jones] 485 (My)

1986 Comprehensive Blood Bank Survey of College of American Pathologists [Cooper] 878 (Se)
proficiency testing in clinical cytogenetics, 1986 experience of College of American Pathologists [Hoeltge] 1085 (No)

Carcinoma
bile duct adenomas in heterozygous (MZ) deficiency of α_1

protease inhibitor [Scheele] 945 (Se)

Chordoma, immunohistochemical study of 20 cases [Meis] 553 (My)

Clear-cell epithelial neoplasms of large intestine [Jewell] 197 (Fe)

myocardial infarct due to unique atrial myxoma with epithelial-like cells and systemic metastases [de Moraes] 185 (Fe)

targeting of cancer with radiolabeled antibodies, prospects for imaging and therapy [Goldenberg] 580 (Je)

Carcinoid Tumor
comparison of paraganglioma, carcinoid tumor, and small-cell carcinoma of larynx [Googe] 809 (Au)

Carcinoma, Basal Cell
membranous basal cell adenoma of parotid gland, malignant transformation in patient with multiple dermal cylindromas [Hyma] 209 (Fe)

Carcinoma, Ductal
cystic hypersecretory carcinoma, what's in a name? (letter) [Jensen] (reply) [Colandrea] 1179 (De)
cystic hypersecretory duct carcinoma of breast, report of case with fine-needle aspiration [Colandrea] 560 (My)
expression of vitamin B₁₂ R-binder in breast tumors, immunohistochemical study [Ogawa] 1117 (No)

Carcinoma, Mucinous
expression of vitamin B₁₂ R-binder in breast tumors, immunohistochemical study [Ogawa] 1117 (No)

Carcinoma, Oat Cell
comparison of paraganglioma, carcinoid tumor, and small-cell carcinoma of larynx [Googe] 809 (Au)
neuroendocrine differentiation in prostatic carcinomas, retrospective autopsy study [Turbat-Herrera] 1100 (No)
neuroendocrine differentiation and prostatic carcinoma, concept 'comes of age' [di Sant'Agnes] 1097 (No)

Carcinoma, Papillary
immunocytochemistry of thyroid in surgical and cytologic specimens [Davila] 51 (Ja)
intravascular papillary endothelial hyperplasia involving synovium [Eichhorn] 647 (Je)
lactoferrin demonstration in thyroid follicular and papillary carcinomas (letter) [Barresi] (reply) [Bedrossian] 1176 (De)

Carcinoma, Small Cell see Carcinoma, Oat Cell

Carcinoma, Squamous Cell
involucrin (letter) [Walsh] 578 (Je)
lateral cervical cyst containing gastric epithelium [Gosain] 96 (Ja)
opportunistic cancers in patients with immunodeficiency syndromes [Purtillo] 111-1123 (De); correction, 112-234 (Mr)
peripheral neuroepithelioma in childhood, immunohistochemical demonstration of epithelial differentiation [Shinoda] 1155 (No)
salivary gland lymph nodes, site of lymphadenopathies and lymphomas associated with human immunodeficiency virus infection [Joachim] 1224 (De)
solitary condylomatous papilloma of bronchus [Trillo] 731 (Jy)
squamous cell carcinoma of ovary (letter) [Chen] 114 (Fe)
xanthomatous bronchiolitis obliterans with cholesterol pneumonia [Heffelfinger] 650 (Je)

Cardiomyopathies see Myocardial Diseases

Cardiomyopathy, Hypertrophic
chloroquine-induced cardiomyopathy (letter) [Ratliff] 578 (Je)

Cardiovascular Diseases
causes of morbidity and mortality among infants born at term [Rosenthal] 178 (Fe)

Cardiovascular System
animal models and study of atherosclerosis [Vesselinovitch] 1011 (Oc)
arterial wall injury and proteoglycan changes in atherosclerosis [Berenson] 1002 (Oc)

Carotid Arteries
atherosclerosis and aging, morphometric study on arterial lesions of elderly and very elderly necropsy subjects [Weber] 1066 (Oc)
hemodynamics and atherosclerosis, insights and perspectives gained from studies of human arteries [Glagov] 1018 (Oc)

Cavernitis, Fibrous see Penile Induration

Cefazolin
in vitro inactivation of aminoglycosides by cephalosporin antibiotics [Wright] 526 (My)

Cefoperazone
in vitro inactivation of aminoglycosides by cephalosporin antibiotics [Wright] 526 (My)

Cefotaxime
in vitro inactivation of aminoglycosides by cephalosporin antibiotics [Wright] 526 (My)

Cefoxitin
in vitro inactivation of aminoglycosides by cephalosporin antibiotics [Wright] 526 (My)

Ceftriaxone
identification and antimicrobial susceptibility testing of *Neisseria gonorrhoeae*, 1980-1987, results from College of American Pathologists Microbiology Surveys Program [Jones] 485 (My)

Centers for Disease Control (US)
Medicare and Clinical Laboratories Improvement Act of 1967 proficiency testing requirements and its relationship to private sector [Edginger] 357 (Ap)

Central Nervous System
diffuse axonal swellings in case of acquired immunodeficiency syndrome [Giangaspero] 1259 (De)
malignant lymphomas in acquired immunodeficiency syndrome, additional evidence for B-cell origin [Egert] 692 (Je)

Central Nervous System Diseases
ependymoma of medulla [Dogliani] 194 (Fe)
peripheral T-cell lymphoma presenting as soft-tissue mass of extremity [Axiotis] 850 (Au)

varicella-zoster virus leukoencephalitis and cerebral vasculopathy [Morgerlo] 173 (Fe)

Cephalosporins
in vitro inactivation of aminoglycosides by cephalosporin antibiotics [Wright] 526 (My)

Cerebrospinal Fluid
acridine orange as screen for organisms in clinical specimens and comparison with Gram's stain [Hanes] 529 (My)

in vitro susceptibility of Cryptococcus neoformans isolates from patients with acquired immunodeficiency syndrome [Poon] 161 (Fe)

Cervix Diseases
Paget's disease with extensive involvement of female genital tract initially detected by cervical cytomear [Costello] 941 (Se)

Chemistry
College of American Pathologists conference XIII onevaluation of proficiency testing results for quantitative methods in relation to clinical usefulness, concluding remarks [Glenn] 471; review and comments [Hartmann] 473 (Ap)
College of American Pathologists conferences [Langell] 319 (Ap)
internal quality control, proficiency testing, and clinical relevance of laboratory testing [Kafka] 449 (Ap)
survey of accuracy of chemical analyses in clinical laboratories [1947] [Belk] 320 (Ap)
survey of special practices associated with College of American Pathologists proficiency testing in Commonwealth of Pennsylvania [Cembrowski] 374 (Ap)
use of bar code labels on collection tubes for specimen management in clinical laboratory [Tilzer] 1200 (De)

Chemistry, Clinical
application of theoretical goals based on biological variation data in proficiency testing [Fraser] 404 (Ap)

Chiari's Syndrome see Hepatic Vein Thrombosis

Child
epitheloid germinal centers in overwhelming childhood infections, aftermath of nonspecific destruction of follicular B cells by natural killer cells [Severson] 917 (Se)

Chlamydia trachomatis
isolation of genital mycoplasmas and *Chlamydia trachomatis* in stillborn and neonatal autopsy material [Madan] 749 (Jy)

Chlorides
proposed goals for analytical precision and accuracy in single-point diagnostic testing, theoretical basis and comparison with data from College of American Pathologists proficiency surveys [Harris] 416 (Ap)

Chloroquine
chloroquine-induced cardiomyopathy (letter) [Ratliff] 578 (Je)

Cholangiography
congenital biliary dilatation in autosomal dominant adult polycystic disease of liver and kidneys [Terada] 1113 (No)

Cholelithiasis
histopathologic features of liver biopsy specimens in sickle cell disease [Mills] 290 (Mr)

Cholestasis
conjugated hyperbilirubinemia and renal function in bone marrow transplant recipients [Yasmin] 245 (Mr)
histopathologic features of liver biopsy specimens in sickle cell disease [Mills] 290 (Mr)

Cholesterol
atherosclerosis and apoprotein E, enigmatic relationship [Ceta] 1048 (Oc)
caution advised in physician office analyzer evaluations (letter) [Ross] 1062, (reply) [Nanjai] 1063 (No)
cholesterol measurements, quality assurance and medical usefulness interrelationships [Oxley] 387 (Ap)
cholesterol vehicle in experimental atherosclerosis, brief review with special reference to peanut oil [Kritchevsky] 1041 (Oc)

College of American Pathologists conference XIII onevaluation of proficiency testing results for quantitative methods in relation to clinical usefulness, concluding remarks [Glenn] 471 (Ap)
evolution of evaluation criteria in College of American Pathologists surveys [Ross] 334 (Ap)
how and why of accuracy base for proficiency testing programs [Welch] 343 (Ap)
internal quality control, proficiency testing, and clinical relevance of laboratory testing [Kafka] 449 (Ap)
physician office analyzer, evaluation of quality of results obtained by technical and nontechnical personnel [Nanjai] 242 (Mr)
xanthomatous bronchiolitis obliterans with cholesterol pneumonia [Heffelfinger] 650 (Je)

Cholesterol, Dietary
dietary cholesterol and human coronary heart disease, epidemiologic evidence [Stamler] 1032 (Oc)
pathobiology of atherosclerosis, current concepts and perspectives, Festschrift in tribute to Robert W Wissler, F.D., MD [Buja] 975 (Oc)

Chondroitin
juvenile hyaline bromatosis, histologic and histochemical study [Mayer-da-Silva] 928 (Se)

Chondroitin Sulfates see Chondroitin

Chondrosarcoma
metaplastic breast carcinoma with epithelial phenotype of pseudosarcomatous components [Santusano] 82 (Ja)
primary myxoid chondrosarcoma of thyroid gland [Tseloni-Balafouta] 94 (Ja)
skeletal myxoid chondrosarcoma with microtubular aggregates within rough endoplasmic reticulum [Wolford] 77 (Ja)

Chordoma
chordoma, immunohistochemical study of 20 cases [Meis] 553 (My)

Chorioamnionitis
isolation of genital mycoplasmas and *Chlamydia*

trachomatosis in stillborn and neonatal autopsy material [Madan] 749 (Jy)

Choroid Neoplasms
skeletally myxoid chondrosarcoma with microtubular aggregates within rough endoplasmic reticulum [Wolford] 77 (Ja)

Chromaffin System
carcinoid tumor of stomach with features of midgut tumor [Quinones] 838 (Au)

Chromatography, Gas
how and why of accuracy base for proficiency testing programs [Welch] 345 (Ap)

Chromatography, Thin Layer
use of Nile red stain in detection of cholesteryl ester accumulation in acid lipase-deficient fibroblasts [Brown] 295 (Mr)

Chromogranins see Nerve Tissue Proteins

Chromosome Abnormalities
eosinophilia as precursor of acute myelomonocytic leukemia (letter) [Xavier] 577 (Je)
proficiency testing in clinical cytogenetics, 1986 experience of College of American Pathologists [Hoeltge] 1085 (No)

use of Nile red stain in detection of cholesteryl ester accumulation in acid lipase-deficient fibroblasts [Brown] 295 (Mr)

Chymotrypsin
regenerative process of hyaline membrane disease, electron microscopic, immunohistochemical, and biochemical study [Nakamura] 821 (Au)

Cicatrix
comparisons of human populations for histologic features of atherosclerosis, summary of questions and methods for geographic studies [Tracy] 1056 (Oc)

Classification
cystic hypersecretory carcinoma, what's in a name? (letter) [Jensen] (reply) [Colandrea] 1179 (De)
evaluation of clinical accuracy of laboratory tests [Zweig] 383 (Ap)

grading of tumors (letter) [Henson] 769 (Au)
histological grading of neoplasms [Henson] 1091 (No)
interobserver variability in collecting data from medical records [Beard] 59a (Je)

multiprogram characterization of laboratory bias, precision, and total error, proposal for improved assessment with shared external and expanded internal (regional) quality control pools [Lawson] 454 (Ap)

proficiency testing of enzymes, charting the way toward standardization [Lott] 392 (Ap)

revised nomenclature for tests of thyroid hormones and thyroid-related proteins in serum [Larsen] 111:1141 (De); correction, 112:132 (Fe)

user's classification of problems identified by proficiency testing surveys [Klee] 371 (Ap)

ways of assessing quality goals for diagnostic tests in clinical situations [Petersen] 435 (Ap)

Clinical Competence
medical relevance of laboratory tests, clinical perspective [Watts] 379 (Ap)

Clinical Trials
targeting of cancer with radiolabeled antibodies, prospects for imaging and therapy [Goldenberg] 580 (Je)

Cloning, Molecular
molecular genetics and diagnosis of lymphoma [Cossman] 117 (Fe)
oligonucleotide probing, applications to HLA typing [Freeman] 22 (Ja)

Coagulants
factor VIII assays, assessment of variables [Brandt] 7 (Ja)
variability in clotting factor assays, errors in technique and analysis (letter) [Jesty] (reply) [Brandt] 1080 (No)

Cocaine
pathology and etiology of cocaine-induced heart disease [Karch] 225 (Mr)

Collagen
chance discovery of hepatic fibrosis in patient with asymptomatic hypervitaminosis A [Bjoulac-Sage] 506 (My)

characterization of glomeruli by immunohistochemistry and electron microscopy in case of Wilms' tumor [Payton] 536 (My)

childhood fibrous tumor with psammoma bodies, clinicopathologic features in 2 cases [Rosenthal] 798 (Au)
light chain cardiomyopathy associated with small-vessel disease [Peng] 844 (Au)

College of American Pathologists see also CAP LABORATORY IMPROVEMENT PROGRAMS
cholesterol measurements, quality assurance and medical usefulness interrelationships [Oxley] 387 (Ap)

College of American Pathologists conference XIII on evaluation of proficiency testing results for quantitative methods in relation to clinical usefulness, concluding remarks [Glenn] 471; review and comments [Hartmann] 473 (Ap)

College of American Pathologists conferences [Langdell] 319 (Ap)
conference XIII, Sept 2-4, 1987, papers read before, 327-473 (Ap)

evaluating laboratory performance, historical and governmental perspectives [Boone] 354 (Ap)
evolution of evaluation criteria in College of American Pathologists surveys [Ross] 334 (Ap)

factor VIII assays, assessment of variables [Brandt] 7 (Ja)
how and why of accuracy base for proficiency testing programs [Welch] 345 (Ap)

identification and antimicrobial susceptibility testing of *Neisseria gonorrhoeae*, 1980-1987, results from College of American Pathologists Microbiology Surveys Program [Jones] 485 (My)

importance of effective proficiency testing program to regulation of clinical laboratories, view from 1 state [Bartola] 368 (Ap)

internal quality control, proficiency testing, and clinical relevance of laboratory testing [Kafka] 449 (Ap)

lasting contributions of Robert W. Wissler, PhD, MD, to pathology and to pathobiology of atherosclerosis [Glagov] 973 (Oc)

multiprogram characterization of laboratory bias, precision, and total error, proposal for improved assessment with shared external and expanded internal (regional) quality control pools [Lawson] 454 (Ap)

multistate regionalization of pathology services, Medical Arts Laboratory [Lambird] 948 (Se)

nonparametric analysis method for evaluation of survey results, application to Ligand Assay Survey [Klee] 399 (Ap)

pathologist as physician executive, administrative medicine comes of age [Korpmann] 579 (Je)

proficiency testing of enzymes, charting the way toward standardization [Lott] 392 (Ap)

proficiency testing programs—promises, progress, and problems, 40-year perspective [Laessig] 329 (Ap)

proficiency testing, its role in voluntary clinical laboratory accreditation program [Duckworth] 346 (Ap)

proposed goals for analytical precision and accuracy in single-point diagnostic testing, theoretical basis and comparison with data from College of American Pathologists proficiency surveys [Harris] 416 (Ap)

surgical pathology reporting and encoding system using industry-standard hardware and software [Taubman] 1195 (De)

survey of special practices associated with College of American Pathologists proficiency testing in Commonwealth of Pennsylvania [Cembrowski] 374 (Ap)

theoretical basis for clinically relevant proficiency testing evaluation limits, sensitivity analysis of effect of inherent test variability on acceptable method error [Ross] 421 (Ap)

Colonic Diseases
necrotizing arteritis of vermiform appendix, clinicopathologic study of 12 cases [Moyana] 738 (Jy)

Colonic Neoplasms
clear-cell epithelial neoplasms of large intestine [Jewell] 197 (Fe)

Colonoscopy
in situ DNA hybridization for cytomegalovirus in colonoscopic biopsies [Roberts] 1106 (No)

Computer Assisted Instruction
teaching pathology in 21st century, experimental automated curriculum delivery system for basic pathology [Woods] 852 (Au)

Computer Hardware see Computers

Computer-Assisted Image Processing see Image Processing, Computer-Assisted

Computers
clinical purposes of laboratory testing [Diamond] 377 (Ap)
computers in anatomic pathology, survey of California hospitals [Gonzales] 1192 (De)

Consultative Laboratory Assessment System, CLAS profile [Hosty] 1203 (De)

evaluating diagnostic performance of clinical tests by spreadsheet modeling, Bayesian analysis using R/Cj ratio as unifying concept [Krieg] 588 (Je)

managing laboratory information [Altschuler] 1188 (De)
surgical pathology computer systems have come of age [Allier] 1186 (De)

surgical pathology reporting and encoding system using industry-standard hardware and software [Taubman] 1195 (De)

3-dimensional architecture of vasa vasorum in wall of human aorta, computer-aided reconstruction study [Okuyama] 726 (Jy)

Concanavalin A
detection of fungi in tissue sections by lectin histochemistry [Karayannopoulos] 746 (Jy)

Condylomata Acuminata
solitary condylomatous papilloma of bronchus [Trillo] 731 (Jy)

Connective Tissue
arterial wall injury and proteoglycan changes in atherosclerosis [Berenson] 1002 (Oc)

Contraceptives, Oral
mesenteric venous thrombosis due to antithrombin III deficiency [Maung] 37 (Ja)

Coombs' Test
production of positive direct antiglobulin test due to suramin [Jamin] 898 (Se)

Coronary Disease
sudden death due to left coronary artery occlusion in infective endocarditis [Dowling] 982 (Se)

Coronary Arteriosclerosis
atherosclerosis and aging, morphometric study on arterial lesions of elderly and very elderly necropsy subjects [Weber] 1066 (Oc)

Coronary Artery Disease see Coronary Disease

Coronary Disease
anomalous right coronary artery origin in otherwise unexplained infant death [Ness] 626 (Je)

cholesterol measurements, quality assurance and medical usefulness interrelationships [Oxley] 387 (Ap)

comparisons of human populations for histologic features of atherosclerosis, summary of questions and methods for geographic studies [Tracy] 1056 (Oc)

dietary cholesterol and human coronary heart disease, epidemiologic evidence [Stamler] 1032 (Oc)

hemodynamics and atherosclerosis, insights and perspectives gained from studies of human arteries [Glagov] 1018 (Oc)

inflammatory aneurysm of aorta, aortitis, and coronary arteritis [Cohle] 1121 (No)

origins of human atherosclerotic plaques, role of altered gene expression [Benditt] 997 (Oc)

in examination of body fluids for Hodgkin's disease [Wilson] 612 (Je)

computers in anatomic pathology, survey of California hospitals [Gonzales] 1192 (De)

immunocytochemistry of thyroid in surgical and cytologic specimens [Davila] 51 (Ja)

malignant thymic tumor of liver, evidence for epithelial differentiation [Parham] 61 (Ja)

Cytolysis see **Cytotoxicity**

Cytomegalovirus

cytomegalovirus infection in acquired immunodeficiency syndrome, clinical and autopsy findings [Klatt] 540 (My)

diffuse axonal swellings in case of acquired immunodeficiency syndrome [Giangaspero] 1259 (De)

in situ DNA hybridization for cytomegalovirus in colonoscopic biopsies [Roberts] 1106 (No)

MHC-antigen expression in liver in acquired immunodeficiency syndrome [letter] [van den Oord] 483 (My)

Cytometry, Flow see **Flow Cytometry**

Cytosol

arterial smooth muscle, multifunctional mesenchymal cell [Campbell] 977 (Oc)

"benign" clear cell tumor (sugar tumor) of lung with hepatic metastases 10 years after resection of pulmonary primary tumor [letter] [Sale] 1177 (De)

clear-cell epithelial neoplasms of large intestine [Jewell] 197 (Fe)

cytoplasmic granular change of Sertoli cells in 2 cases of Sertoli-cell-only syndrome [Wong] 200 (Fe)

glutaric acidemia type II, comparison of pathologic features in 2 infants [Colevas] 1133 (No)

immunocytochemical localization of synaptophysin in human hypophyses and pituitary adenomas [Stefaneanu] 801 (Au)

morphology and increased growth rate of atherosclerotic intimal smooth-muscle cells [Yoshida] 987 (Oc)

primary mucin-secreting adenocarcinoma of kidney [Grignon] 847 (Au)

unusual oncocytic renal tumor with sarcomatoid foci and osteogenic differentiation [Young] 937 (Se)

Cytoplasmic Granules

origin of granules in granular cell tumor, intracellular myelin formation with autolysosomes [Mittal] 302 (Mr)

Cytoskeleton

malignant peritoneal mesothelioma in childhood [Armstrong] 1159 (No)

Cytotoxins

immunoassay, innovations in label technology [Howanitz] 775 (Au)

D

Data Banks see Information Systems

Equipment and Supplies

alternatives to neutrophil band count [Bentley] 883 (Se)

caution advised in physician office analyzer evaluations (letter) [Ross] 1082, (reply) [Nanji] 1083 (No)

community hospital-based regional laboratory service, Royal Inland Hospital regional laboratory service [Martin] 950 (Se)

evaluating laboratory performance, historical and governmental perspectives [Boone] 354 (Ap)

evaluation of technician H-1 automated hematology analyzer in detecting peripheral blood changes in acute inflammation [Banez] 886 (Se)

internal quality control, proficiency testing, and clinical relevance of laboratory testing [Kafka] 449 (Ap)

physician office analyzer (letter) [Scamurra] 1063 (No)

physician office analyzer, evaluation of quality of results obtained by technical and nontechnical personnel [Nanji] 242 (Mr)

physician office analyzers, do they satisfy medically use-

ful criteria for analytical performance of laboratory tests? [Nanji] 787 (Jy)

use of bar code labels on collection tubes for specimen management in clinical laboratory [Tilzer] 1200 (De)

use of technician H-1 in characterization of leukemias [Krause] 889 (Se)

Escherichia coli

serotype orange as screen for organisms in clinical specimens and comparison with Gram's stain [Hanes] 529 (My)

xanthogranulomatous pyelonephritis, reappraisal and immunohistochemical study [Antonakopoulos] 275 (Mr)

Eskimos

evolution of hepatocellular carcinoma associated with chronic hepatitis B virus infection in Alaskan Eskimos [Popper] 496 (My)

Essential Polyarteritis see Periarteritis Nodosa**Esterases**

comparative leukocyte esterase-nitrite and BAC-T-SCREEN studies using single and multiple urine volumes [Damato] 533 (My)

Extracellular Matrix

arterial smooth muscle, multifunctional mesenchymal cell [Campbell] 977 (Oc)

arterial wall injury and proteoglycan changes in atherosclerosis [Benson] 1002 (Oc)

Extremities

hemodynamics and atherosclerosis, insights and perspectives gained from studies of human arteries [Glagov] 1018 (Oc)

peripheral T-cell lymphoma presenting as soft-tissue mass of extremity [Axiotis] 850 (Au)

F**Factor II see Prothrombin****Factor VIII**

acquired von Willebrand's syndrome associated with extranodal pulmonary lymphoma [Rao] 47 (Ja)

concomitant presence of inflammatory fibroid polyp and carcinoma or adenoma in stomach [Mori] 829 (Au)

detection of factor VIII von Willebrand factor in endothelial cells in first-trimester fetuses [Travin] 40 (Ja)

factor VIII assays, assessment of variables [Brandt] 7 (Ja)

regenerative process of hyaline membrane disease, electron microscopic, immunohistochemical, and biochemical study [Nakamura] 821 (Au)

use of high-dose intravenous γ -globulin in acquired von Willebrand syndrome [Macis] 145 (Fe)

variability in clotting factor assays, errors in technique and analysis (letter) [Jesty] (reply) [Brandt] 1080 (No)

Factor IX

antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor X

antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XI

antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XII antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XIII antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XIV antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XV antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XVI antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XVII antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XVIII antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XIX antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XX antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XXI antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XXII antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XXIII antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XXIV antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XXV antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XXVI antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XXVII antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XXVIII antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XXIX antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XXX antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XXXI antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Factor XXXII antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Fibronectin
characterization of glomeruli by immunohistochemistry and electron microscopy in case of Wilms' tumor [Payton] 536 (My)
immunohistochemical studies on local antitumor effects of streptococcal immunopotentiator, OK-432, in human solid malignant tumors [Sugenoya] 545 (My)

Fibrosarcoma
metaplastic breast carcinoma with epithelial phenotype of pseudosarcomatous components [Santusano] 82 (Ja)
multicentric fibromatosis of familial inheritance (letter) [Zayid] 577 (Je)

Fibrosis
brown adipose tissue in Duchenne's progressive muscular dystrophy [Ito] 550 (My)
chance discovery of hepatic fibrosis in patient with asymptomatic hypervitaminosis A [Boulac-Sage] 505 (My)
evolution of hepatocellular carcinoma associated with chronic hepatitis B virus infection in Alaskan Eskimos [Popper] 498 (My)

Flavoproteins
glutaric acidemia type II, comparison of pathologic features in 2 infants [Colevas] 1133 (No)

Flow Cytometry
alternatives to neutrophil band count [Bentley] 883 (Se)
histopathological and clinical correlations of cystosarcoma phylloides [Murad] 752 (Jy)
influence of age on proliferation and peripheralization of thymic T cells [Hirokawa] 13 (Ja)
use of technique H-1 in characterization of leukemias [Krause] 889 (Se)

Fucoxanthin
in vitro susceptibility of *Cryptococcus neoformans* isolates from patients with acquired immunodeficiency syndrome [Foon] 161 (Fe)

Fluorescent Antibody Technique
juvenile nephronphthisis with calcification of basal ganglia and pancreatic insufficiency [Raafat] 630 (Je)

Fluoresceins
detection of fungi in tissue sections by lectin histochemistry [Karayannopoulos] 746 (Jy)

distribution of fucoxanthin in kidney and related neoplasms, absence of lectin-reactive α -fucose from vacuature of bilateral Wilms' tumors [Hennigar] 908 (Se)
lectin histochemistry of uterine adenocarcinomas [Yen] 791 (Au)

Fluorescence
immunoassay, innovations in label technology [Howanitz] 775 (Au)

Fluorescent Antibody Technique
IgM antitrophoblast antibodies in patient with pregnancy-associated lupuslike disorder, vasculitis, and recurrent intrauterine fetal demise, 191 (Fe)
nonsecretory multiple myeloma [Doster] 147 (Fe)

Follow-Up Studies
desmoplastic malignant melanoma, clinicopathologic study of 14 cases [Walsh] 922 (Se)
histological grading of neoplasms [Henson] 1091 (No)

Food Plants see Plants, Edible

Foreign Bodies
radiohistology as new, diagnostic method for barium granuloma [De Mascarel] 634 (Je)

Formaldehyde
immunostaining for leukocyte common antigen (letter) [Söderström] 483, (reply) [Wick] 484 (My)

in situ DNA hybridization for cytomegalovirus in colonoscopic biopsies [Roberts] 1106 (No)
myocardial infarct due to unique atrial myxoma with epithelial-like cells and systemic metastases [de Moraes] 185 (Fe)

neuron-specific enolase reactivity in hyperplasia and neoplasms of thyroid (letter) [Tseloni-Balafouta] 115 (Fe)

Formalin see Formaldehyde

Frozen Sections see Microtomy

Fucose
distribution of fucoxanthin in kidney and related neoplasms, absence of lectin-reactive α -fucose from vacuature of bilateral Wilms' tumors [Hennigar] 908 (Se)

Fungi
detection of fungi in tissue sections by lectin histochemistry [Karayannopoulos] 746 (Jy)

immunoidentification of *Histoplasma capsulatum* and *Blastomyces dermatitidis* with commercial exoantigen reagents, effect of culture age [Body] 519 (My)
lung biopsy in chronic lymphocytic leukemia [Rollins] 607 (Je)

G

Gamma Globulins
use of high-dose intravenous γ -globulin in acquired von Willebrand syndrome [Macik] 143 (Fe)

Ganglia
ganglioglioma containing osseous tissue and neurofibrillary tangles [Hori] 653 (Je)
intravaginal parangalia or intravaginal ectopic parathyroid tissue (letter) [Lattes] (reply) [Lack] 866 (Se)

Ganglioneuroma
malignant peripheral nerve sheath tumor and pheochromocytoma, composite tumor of adrenal [Min] 266 (Mr)
pleomorphic (anaplastic) neuroblastoma [Cuzzetto] 621 (Je)

Gastritis
immunocytochemical identification of *Camphyllobacter pylori* in gastritis and correlation with culture [Barbosa] 523 (My)

Gastrointestinal Neoplasms
malignant fibrous histiocytoma, nonspecific morphologic pattern, specific pathologic entity, or both? [Dehner] 236 (Mr)

Gastrointestinal System
gastrointestinal arterial fibromuscular dysplasia of child-

hood [Meredith] 833 (Au)
in situ DNA hybridization for cytomegalovirus in colonoscopic biopsies [Roberts] 1106 (No)
neuroendocrine differentiation and prostatic carcinoma, concept 'comes of age' [di Sant'Agnese] 1097 (No)

Genes, Ig see Genes, Immunoglobulin

Genes, Immunoglobulin
clonal ambiguity of human immunodeficiency virus-associated lymphomas, similarity to posttransplant lymphomas [Lippman] 128 (Fe)

Genes, Immunoglobulin Heavy Chain see Genes, Immunoglobulin

Genes, Immunoglobulin Light Chain see Genes, Immunoglobulin

Genetic Marker
applications of gene rearrangement analysis in diagnosis of Hodgkin's disease (letter) [Sundeen] 5, (reply) [William] 6 (Ja)
molecular genetics and diagnosis of lymphoma [Cosman] 117 (Fe)

Genetics, Biochemical
molecular genetics and diagnosis of lymphoma [Cosman] 117 (Fe)

Genetics, Human see Genetics, Medical

Genetics, Medical
applications of gene rearrangement analysis in diagnosis of Hodgkin's disease (letter) [Sundeen] 5, (reply) [William] 6 (Ja)

current concepts and diagnostic evaluation of autoimmune disease [Nakamura] 869 (Se)

glutaric acidemia type II, comparison of pathologic features in 2 infants [Colevas] 1133 (No)

molecular genetics and diagnosis of lymphoma [Cosman] 117 (Fe)

nodular T-cell lymphoma, report of case studied with morphologic, immunohistochemical, and DNA hybridization techniques [van den Oord] 133 (Fe)

oligonucleotide probing, applications to HLA typing [Freeman] 22 (Ja)

origins of human atherosclerotic plaques, role of altered gene expression [Benditt] 997 (Oc)

use of Nile red stain in detection of cholesteryl ester accumulation in acid lipase-deficient fibroblasts [Brown] 285 (Mr)

Genetics, Molecular see Genetics, Biochemical

Genital Diseases, Female
cervicovaginal psammoma bodies, initial presentation of ovarian borderline tumor [Qazi] 564 (My)

isolation of genital mycoplasmas and *Chlamydia trachomatis* in stillborn and neonatal autopsy material [Madan] 749 (Jy)

Genitourinary System see Urogenital System

Gentamicins
in vitro inactivation of aminoglycosides by cephalosporin antibiotics [Wright] 526 (My)

Germ Cells
absence of intratubular germ cell neoplasia in testicular yolk sac tumors in children, histochemical and immunohistochemical study [Manivel] 641 (Je)

Glial Stain see Phenothiazines

Glial Fibrillary Acidic Protein
ependymoma of mediastinum [Dyglioni] 194 (Fe)
immunohistochemical evaluation of leu-7, myelin basic protein, S100 protein, glial-fibrillary acidic protein, and LN3 immunoreactivity in nerve sheath tumors and sarcomas [Johnson] 155 (Fe)

Glial Intermediate Filament Proteins see Glial Fibrillary Acidic Protein

Glomerular Filtration Rate
juvenile nephronphthisis with calcification of basal ganglia and pancreatic insufficiency [Raafat] 630 (Je)

Glomerulonephritis
diseases associated with exposure to silica and nonfibrous silicate minerals [Silicosis and Silicate Disease Committee] 673 (Jy)

renal glomerular and tubular abnormalities in glycogen storage disease type I [Verani] 271 (Mr)

sinus histiocytosis with massive lymphadenopathy, occurrence in identical twins with retroperitoneal disease [Marsh] 298 (Mr)

Glomerulosclerosis, Focal see Glomerulonephritis

Glucose
evolution of evaluation criteria in College of American Pathologists surveys [Ross] 334 (Ap)

internal quality control, proficiency testing, and clinical relevance of laboratory testing [Kafka] 449 (Ap)

physician office analyzer, evaluation of quality of results obtained by technical and nontechnical personnel [Nanji] 757 (Jy)

Glutarates
glutaric acidemia type II, comparison of pathologic features in 2 infants [Colevas] 1133 (No)

Glutaric Acidemia
glutaric acidemia type II, comparison of pathologic features in 2 infants [Colevas] 1133 (No)

Glycoconjugates
glycoconjugate expression in human renal oncocytomas, lectin histochemical study [Eble] 805 (Au)

Glycogen
ectopic parathyroid tissue within vagus nerve, incidence and possible clinical significance [Lack] 304 (Mr)

Glycogen Storage Disease see Glycogenosis

Glycogenesis
renal glomerular and tubular abnormalities in glycogen storage disease type I [Verani] 271 (Mr)

Glycolysis
internal quality control, proficiency testing, and clinical relevance of laboratory testing [Kafka] 449 (Ap)

Glycoproteins
cytoplasmic granular change of Sertoli cells in 2 cases of

Sertoli-cell-only syndrome [Wong] 200 (Fe)

ectopic parathyroid tissue within vagus nerve, incidence and possible clinical significance [Lack] 304 (Mr)

immunocytochemical localization of synaptophysin in human hypophyses and pituitary adenomas [Stefaneanu] 801 (Au)

immunohistochemical evaluation of leu-7, myelin basic protein, S100 protein, glial-fibrillary acidic protein, and LN3 immunoreactivity in nerve sheath tumors and sarcomas [Johnson] 155 (Fe)

juvenile hyaline fibromatosis, histologic and histochemical study [Mayer-da-Silva] 928 (Se)

Gonadotropins
cytoplasmic granular change of Sertoli cells in 2 cases of Sertoli-cell-only syndrome [Wong] 200 (Fe)

human chorionic gonadotropin expression in lung, breast, and renal carcinomas [Kuida] 282 (Mr)

immunocytochemical localization of synaptophysin in human hypophyses and pituitary adenomas [Stefaneanu] 801 (Au)

nonparametric analysis method for evaluation of survey results, application to Ligand Assay Survey [Klee] 399 (Ap)

Gonadotropins, Chorionic
interference in immunocytometric assays caused by IgM anti-mouse IgG antibodies [McCarthy] 901 (Se)

Gonococcus see Neisseria gonorrhoeae

Goodpasture's Syndrome
characterization of glomeruli by immunohistochemistry and electron microscopy in case of Wilms' tumor [Payton] 536 (My)

Graft vs Host Disease
conjugated hyperbilirubinemia and renal function in bone marrow transplant recipients [Yaamineh] 245 (Mr)

Granuloma
lung biopsy in chronic lymphocytic leukemia [Rollins] 607 (Je)

radiohistology as new diagnostic method for barium granuloma [De Mascarel] 634 (Je)

systemic talar granulomatosis associated with disseminated histoplasmosis in drug abuser [Racela] 557 (My)

Granulosa Cell Tumor
juvenile granulosa cell tumor of testis [Nistal] 1129 (No)

Graves' Disease
current concepts and diagnostic evaluation of autoimmune disease [Nakamura] 869 (Se)

H

Hamadryas see Papio

Hardware, Computers see Computers

Hashimoto's Disease see Thyroiditis, Autoimmune

Head and Neck Neoplasms
immunohistochemical studies on local antitumor effects of streptococcal immunopotentiator, OK-432, in human solid malignant tumors [Sugenoya] 545 (My)

Health Facilities
physician office analyzers, do they satisfy medically useful criteria for analytical performance of laboratory tests? [Nanji] 757 (Jy)

Health Insurance for Aged and Disabled, Title 18
medical center-based tertiary reference laboratory, experience at Mayo Medical Laboratories (MML) [O'Sullivan] 953 (Se)

Medicare and Clinical Laboratories Improvement Act of 1967
proficiency testing requirements and its relationship to private sector [Edinger] 357 (Ap)

survey of special practices associated with College of American Pathologists proficiency testing in Commonwealth of Pennsylvania [Cembrowski] 374 (Ap)

Health Manpower
acquired immunodeficiency syndrome and clinical laboratory worker (letter) [Godfrey] (reply) [Gottfried] (editorial comment) [McDiarmid] 482 (My)

clinical purposes of laboratory testing [Diamond] 377 (Ap)

College of American Pathologists Conference XIII on evaluation of proficiency testing results for quantitative methods in relation to clinical usefulness, introduction [Hartmann] 327, concluding remarks [Glenn] 471, review and comments [Hartmann] 473 (Ap)

College of American Pathologists conference [Langdell] 319 (Ap)

evaluating laboratory performance, historical and governmental perspectives [Boone] 354 (Ap)

importance of effective proficiency testing program to regulation of clinical laboratories, view from 1 state [Bartola] 388 (Ap)

internal quality control, proficiency testing, and clinical relevance of laboratory testing [Kafka] 449 (Ap)

Medicare and Clinical Laboratories Improvement Act of 1967
proficiency testing requirements and its relationship to private sector [Edinger] 357 (Ap)

physician office analyzers, do they satisfy medically useful criteria for analytical performance of laboratory tests? [Nanji] 757 (Jy)

proficiency testing, its role in voluntary clinical laboratory accreditation program [Duckworth] 346 (Ap)

survey of special practices associated with College of American Pathologists proficiency testing in Commonwealth of Pennsylvania [Cembrowski] 374 (Ap)

use of proficiency test performance to determine clinical laboratory director qualifications [Howanitz] 349 (Ap)

use's classification of problems identified by proficiency testing surveys [Klee] 371 (Ap)

Health Occupation Manpower see Health Manpower

Heart Disease, Ischemic see Coronary Disease

Heart Diseases
cholesterol measurements, quality assurance and medical usefulness interrelationships [Osley] 387 (Ap)

comparisons of human populations for histologic features of atherosclerosis, summary of questions and methods for geographic studies [Tracy] 1066 (Oc)

- development of vasa vasorum of human aorta in various conditions, morphometric study [Okuyama] 721 (Jy)
- dietary cholesterol and human coronary heart disease, epidemiologic evidence [Stamler] 1032 (Oc)
- dysplastic cardiac development presenting as cardiomyopathy [Allenby] 1255 (De)
- origins of human atherosclerotic plaques, role of altered gene expression [Benditt] 997 (Oc)
- pathology and etiology of cocaine-induced heart disease [Karch] 225 (Mr)
- pathology of heart in acquired immunodeficiency syndrome (AIDS) (letter) [Klatt] (reply) [Hensley] 114 (Fe)
- quadricuspid aortic valve and single coronary ostium [Kim] 842 (Au)
- sudden death due to left coronary artery occlusion in infective endocarditis [Dowling] 932 (Se)
- ways of assessing quality goals for diagnostic tests in clinical situations [Petersen] 435 (Ap)
- Heart Neoplasms**
- myocardial infarct due to unique atrial myxoma with epithelial-like cells and systemic metastases [de Moraes] 185 (Fe)
- Heart Valve Diseases**
- quadricuspid aortic valve and single coronary ostium [Kim] 842 (Au)
- Helper Cells**
- does immune response play role in pathogenesis of chronic liver disease? [Mondelli] 489 (My)
- nodular T-cell lymphoma, report of case studied with morphologic, immunohistochemical, and DNA hybridization techniques [van den Oord] 133 (Fe)
- OKT4 epitope deficiency and acquired immunodeficiency syndrome (AIDS) (letter) [Ghosh] (reply) [McCurley] 5 (Ja)
- Hemangiosarcoma**
- angiosarcoma of adrenal gland [Kareti] 1163 (No)
- Hemarthrosis**
- intravascular papillary endothelial hyperplasia involving synovium [Eichhorn] 647 (Je)
- Hematoma**
- mesenteric venous thrombosis due to antithrombin III deficiency [Maung] 37 (Ja)
- Hematologic Tests**
- evaluation of technicon H-1 automated hematology analyzer in detecting peripheral blood changes in acute inflammation [Banes] 585 (Se)
- survival of human immunodeficiency virus in blood culture systems [Hodinka] 1251 (De)
- use of technicon H-1 in characterization of leukemias [Krause] 889 (Se)
- Hematology**
- survey of special practices associated with College of American Pathologists proficiency testing in Commonwealth of Pennsylvania [Cembrowski] 374 (Ap)
- Hematoxylin see Benzopyrans**
- Hematuria**
- benign familial hematuria [Yoshikawa] 794 (Au)
- Hemodynamic**
- hemodynamics and atherosclerosis, insights and perspectives gained from studies of human arteries [Glagov] 1018 (Oc)
- restrictive cardiomyopathy with α light chain deposits in myocardium as complication of multiple myeloma, histochemical and electron microscopic observations [McAllister] 1151 (No)
- Hemoglobin C Disease**
- sudden death due to left coronary artery occlusion in infective endocarditis [Dowling] 932 (Se)
- Hemophilia**
- factor VIII assays, assessment of variables [Brandt] 7 (Ja)
- Hemoptysis**
- 'benign' clear cell tumor (sugar tumor) of lung with hepatic metastases 10 years after resection of pulmonary primary tumor (letter) [Sale] 1177 (De)
- Hemorrhage**
- intravascular papillary endothelial hyperplasia involving synovium [Eichhorn] 647 (Je)
- Paget's disease with extensive involvement of female genital tract initially detected by cervical cytosem [Costello] 941 (Se)
- protein S deficiency (letter) [Dix] (reply) [High] 1082 (No)
- use of high-dose intravenous γ -globulin in acquired von Willebrand syndrome [Macik] 143 (Fe)
- Hemorrhagic Thrombocytopenia see Thrombocytopenia, Hemorrhagic**
- Hemolysis**
- classic and immunodeficiency-associated Kaposi's sarcoma, clinical, histologic, and immunologic correlations, [Santucci] 1214 (De)
- Heparin**
- arterial smooth muscle, multifunctional mesenchymal cell [Campbell] 977 (Oc)
- Hepatic Vain Thrombosis**
- histopathologic features of liver biopsy specimens in sickle cell disease [Mills] 290 (Mr)
- Hepatitis B**
- chronic active hepatitis in child with human immunodeficiency virus infection [Thung] 914 (Se)
- Hepatitis B Surface Antigens**
- does immune response play role in pathogenesis of chronic liver disease? [Mondelli] 489 (My)
- evolution of hepatocellular carcinoma associated with chronic hepatitis B virus infection in Alaskan Eskimos [Popper] 496 (My)
- Hepatitis B Virus**
- does immune response play role in pathogenesis of chronic liver disease? [Mondelli] 489 (My)
- evolution of hepatocellular carcinoma associated with chronic hepatitis B virus infection in Alaskan Eskimos [Popper] 496 (My)
- Hereditary Diseases**
- acquired von Willebrand's syndrome associated with extranodal pulmonary lymphoma [Rao] 47 (Ja)
- causes of morbidity and mortality among infants born at term [Rosenthal] 178 (Fe)
- congenital biliary dilatation in autosomal dominant adult polycystic disease of liver and kidneys [Terada] 1113 (No)
- distribution of fucosubstance in kidney and related neoplasms, absence of lectin-reactive α -fucose from vasculature of bilateral Wilms' tumors [Hennigar] 906 (Se)
- juvenile hyaline fibromatosis, histologic and histochemical study [Mayer-da-Silva] 928 (Se)
- juvenile xeroderma pigmentosa with calcification of basal ganglia and pancreatic insufficiency [Raafat] 630 (Je)
- membranous basal cell adenoma of parotid gland, malignant transformation in patient with multiple dermal cylindromas [Hyma] 209 (Fe)
- mesodiverticular band and sudden death in children, report of 2 cases [Falsgraf] 182 (Fe)
- multicentric fibromatosis of familial inheritance (letter) [Zayid] 577 (Je)

- Hospital**
- community hospital-based regional laboratory service,

Royal Inland Hospital regional laboratory service [Marshall] 950 (Se)

Hospital, Rural see Hospitals

Hospital, Teaching
test-ordering by multiple physicians increases unnecessary laboratory examinations [Valenstein] 238 (Mr)

HTLV-III
opportunistic cancers in patients with immunodeficiency syndromes [Purtillo] 111:123 (De); correction, 112:234 (Mr)

Hyaline Membrane Disease
causes of morbidity and mortality among infants born at term [Rosenthal] 178 (Fe)
hepatic hyaline globules associated with passive congestion [Klatz] 510 (My)
juvenile hyaline fibromatosis, histologic and histochemical study [Mayer-da-Silva] 928 (Se)
multicentric fibromatosis of familial inheritance (letter) [Zayid] 577 (Je)
regenerative process of hyaline membrane disease, electron microscopic, immunohistochemical, and biochemical study [Nakamura] 821 (Au)

Hyaluronic Acid
juvenile hyaline fibromatosis, histologic and histochemical study [Mayer-da-Silva] 928 (Se)

Hyaluronidase
circulating mucin in Wilms' tumor and nephroblastomatosis, effect on leukocyte counts [Schaub] 656 (Je)

Hydrocortisone
influence of age on proliferation and peripheralization of thymic T cells [Hirokawa] 13 (Ja)
Hydrogen-ion Concentration
ingestion of megadoses of ascorbic acid will not produce 'clean' urine from marijuana smokers (letter) [Schwartz] 769 (Au)

Hyperbilirubinemia
conjugated hyperbilirubinemia and renal function in bone marrow transplant recipients [Yasmin] 245 (Mr)

Hypercalcemia
neuroendocrine differentiation in prostatic carcinomas, retrospective autopsy study [Turbat-Herrera] 1100 (No)

Hypercholesterolemia
dietary cholesterol and human coronary heart disease, epidemiologic study [Stamler] 1032 (Oc)

Hypernephroma
sinus histiocytosis with massive lymphadenopathy, occurrence in identical twins with retroperitoneal disease [Marsh] 298 (Mr)

Hyperparathyroidism
papillae formation in parathyroid adenoma, source of possible diagnostic error [Sahin] 99 (Ja)

Hyperplasia
benign lymphoepithelial lesion of parotid gland in intravenous drug users [Smith] 742 (Jy)
evolution of hepatocellular carcinoma associated with chronic hepatitis B virus infection in Alaskan Eskimos [Popper] 498 (My)
intravascular papillary endothelial hyperplasia involving synovium [Eichhorn] 647 (Je)
myoid cell differentiation in true thymic hyperplasia and lymphoid hyperplasia [Judd] 1140 (No)
pathology and etiology of cocaine-induced heart disease [Karch] 225 (Mr)
xanthomatous bronchiolitis obliterans with cholesterol pneumonia [Heffelfinger] 650 (Je)

Hypertension
IgM antiprophospholipid antibodies in patient with pregnancy-associated lupuslike disorder, vasculitis, and recurrent intrauterine fetal demise, 191 (Fe)

Hyperthyroidism
immunoassay, development and directions in antibody technology [Howanitz] 771 (Au)

Hypervitaminosis A
chance discovery of hepatic fibrosis in patient with asymptomatic hypervitaminosis A [Bioulac-Sage] 505 (My)

Hypoglycemia
glutaric acidemia type II, comparison of pathologic features in 2 infants [Covales] 1133 (No)

Hypophysis see Pituitary Gland

Hypothyroidism
ways of assessing quality goals for diagnostic tests in clinical situations [Petersen] 435 (Ap)

Hysterectomy
postoperative spindle-cell nodule of endometrium [Clement] 566 (My)

I

IA Antigens see Antigens, Immune Response

IA-Like Antigens see Antigens, Immune Response

IgA
benign familial hematuria [Yoshikawa] 794 (Au)
interference in immunoenzymometric assays caused by IgM anti-mouse IgG antibodies [McCarthy] 901 (Se)

IgE
immunoblotting and dot immunobinding, emerging techniques in protein immunochemistry [Renner] 780 (Au)

IgG
benign familial hematuria [Yoshikawa] 794 (Au)
immunoblotting and dot immunobinding, emerging techniques in protein immunochemistry [Renner] 780 (Au)
interference in immunoenzymometric assays caused by IgM anti-mouse IgG antibodies [McCarthy] 901 (Se)
production of positive direct antiglobulin test due to suramin [Jamin] 898 (Se)
specificity of trophoblast-reactive antibodies in human pregnancy [Cheng] (reply) [Kemp] 1081 (No)

IgM
benign familial hematuria [Yoshikawa] 794 (Au)
biconal IgM gammopathy in chronic lymphocytic leukemia [Schaffner] 206 (Fe)
epithelioid germinal centers in overwhelming childhood

infections, aftermath of nonspecific destruction of follicular B cells by natural killer cells [Severson] 917 (Se)
IgM antiprophospholipid antibodies in patient with pregnancy-associated lupuslike disorder, vasculitis, and recurrent intrauterine fetal demise, 191 (Fe)
interference in immunoenzymometric assays caused by IgM anti-mouse IgG antibodies [McCarthy] 901 (Se)

Image Analysis, Computer-Assisted see Image Processing, Computer-Assisted

Image Processing, Computer-Assisted
computerized image-analysis microscopy of tissue sections [Pappolla] 787 (Au)

Image Reconstruction see Image Processing, Computer-Assisted

Immune Associated Antigens see Antigens, Immune Response

Immune Sera
desmoplastic malignant melanoma, clinicopathologic study of 14 cases [Walsh] 922 (Se)
oligonucleotide probing, applications to HLA typing [Freeman] 22 (Ja)
regenerative process of hyaline membrane disease, electron microscopic, immunohistochemical, and biochemical study [Nakamura] 821 (Au)

Immunoassay
immunoassay, development and directions in antibody technology [Howanitz] 771 (Au)
immunoassay, innovations in label technology [Howanitz] 775 (Au)
immunoblotting and dot immunobinding, emerging techniques in protein immunochemistry [Renner] 780 (Au)
Immunochemistry, Enzyme see Immunochemistry Techniques
immunoblotting and dot immunobinding, emerging techniques in protein immunochemistry [Renner] 780 (Au)
Immunocytochemistry see Immunohistochemistry

Immunodeficiency
acquired von Willebrand's syndrome associated with extranodal pulmonary lymphoma [Rao] 47 (Ja)
angiosarcoma of adrenal gland [Karetz] 1163 (No)
concomitant presence of inflammatory fibroid polyp and carcinoma or adenoma in stomach [Mori] 829 (Au)
dermatopathic lymphadenitis, spectrum and significance of its morphologic features [Gould] 1145 (No)
detection of factor VIII von Willebrand factor in endothelial cells in first-trimester fetuses [Travis] 40 (Ja)
disseminated penicilliosis in patient with acquired immunodeficiency syndrome [Piehl] 1262 (De)
epithelioid germinal centers in overwhelming childhood infections, aftermath of nonspecific destruction of follicular B cells by natural killer cells [Severson] 917 (Se)
human chorionic gonadotropin expression in lung, breast, and renal carcinomas [Kuida] 282 (Mr)
immunohistochemical studies on local antitumor effects of streptococcal immunopotentiator, OK-432, in human solid malignant tumors [Sugenoya] 545 (My)
immunostaining for leukocyte common antigen (letter) [Söderström] 483, (reply) [Wick] 484 (My)
leukocyte common antigen expression in lymphomas (letter) [Weiss] (reply) [Wick] 867 (Se)
malignant lymphomas in acquired immunodeficiency syndrome, additional evidence for B-cell origin [Egarter] 602 (Je)
myocardial infarct due to unique atrial myxoma with epithelioid-like cells and systemic metastases [de Moraes] 185 (Fe)
solitary condylomatous papilloma of bronchus [Trillo] 731 (Jy)

Immunoglobulins
benign familial hematuria [Yoshikawa] 794 (Au)
immunoblotting and dot immunobinding, emerging techniques in protein immunochemistry [Renner] 780 (Au)
molecular genetics and diagnosis of lymphoma [Cossman] 117 (Fe)
pathogenetic role of HIV infection in Kaposi's sarcoma of Equatorial East Africa [Craighead] 259 (Mr)

Immunoglobulins, Kappa Chain
light chain cardiomyopathy associated with small-vessel disease [Peng] 844 (Au)
restrictive cardiomyopathy with a light chain deposits in myocardium as complication of multiple myeloma, histochemical and electron microscopic observations [McAllister] 1151 (No)

Immunoglobulins, Lambda Chain
restrictive cardiomyopathy with a light chain deposits in myocardium as complication of multiple myeloma, histochemical and electron microscopic observations [McAllister] 1151 (No)

Immunoglobulins, Light Chain
light chain cardiomyopathy associated with small-vessel disease [Peng] 844 (Au)

Immunohistochemistry
concomitant presence of inflammatory fibroid polyp and carcinoma or adenoma in stomach [Mori] 829 (Au)
dermatopathic lymphadenitis, spectrum and significance of its morphologic features [Gould] 1145 (No)
desmoplastic malignant melanoma, clinicopathologic study of 14 cases [Walsh] 922 (Se)
disseminated toxoplasmosis in acquired immunodeficiency syndrome [Tschirhart] 1237 (De)
expression of vitamin B₁₂ R-binding in breast tumors, immunohistochemical study [Ogawa] 1117 (No)
idiopathic thrombocytopenic purpura in patients at risk for acquired immunodeficiency syndrome, histopathologic study, immunohistochemistry, and ultrastructural study on 6 spleens [Rousselet] 1242 (De)
immunocytochemical localization of synaptophysin in human hypothalamus and pituitary adenomas [Stefaneanu] 801 (Au)
immunocytochemistry of thyroid in surgical and cytologic specimens [Davila] 51 (Ja)
immunoidentification of *Histoplasma capsulatum* and

Blastosporium dermatitis with commercial exoantigen reagents, effect of culture age [Body] 519 (My)
lactoferrin demonstration in thyroid follicular and papillary carcinomas (letter) [Barresi] (reply) [Bedrossian] 1176 (De)

Myoid cell differentiation in true thymic hyperplasia and lymphoid hyperplasia [Judd] 1140 (No)
regenerative process of hyaline membrane disease, electron microscopic, immunohistochemical, and biochemical study [Nakamura] 821 (Au)
restrictive cardiomyopathy with a light chain deposits in myocardium as complication of multiple myeloma, histochemical and electron microscopic observations [McAllister] 1151 (No)

Immunohistochemistry see Immunohistochemistry

Immunolabeling Techniques
restrictive cardiomyopathy with a light chain deposits in myocardium as complication of multiple myeloma, histochemical and electron microscopic observations [McAllister] 1151 (No)

Immunoperoxidase Techniques see Immunochemistry Techniques

Immunosuppression
clonal ambiguity of human immunodeficiency virus-associated lymphomas, similarity to posttransplant lymphomas [Lippman] 128 (s-s)
cure of *Coccidioides pneumonia* by amphotericin B in patient with megakaryocytic leukemia (letter) [Brubaker] 1178 (De)
diffuse axonal swellings in case of acquired immunodeficiency syndrome [Giangaspero] 1259 (De)
malignant lymphomas in acquired immunodeficiency syndrome, additional evidence for B-cell origin [Egarter] 602 (Je)
Pseudomonas cepacia-associated pneumonia in cystic fibrosis, relation of clinical features to histopathologic patterns of pneumonia [Tomasshefski] 166 (Fe)

Indicators and Reagents
caution advised in physician office analyzer evaluations (letter) [Ross] 1082, (reply) [Nanjil] 1053 (No)
circulating mucin in Wilms' tumor and nephroblastomatosis, effect on leukocyte counts [Schaub] 656 (Je)
immunoassay, development and directions in antibody technology [Howanitz] 771 (Au)
immunoidentification of *Histoplasma capsulatum* and *Blastosporium dermatitis* with commercial exoantigen reagents, effect of culture age [Body] 519 (My)
1986 Comprehensive Blood Bank Survey of College of American Pathologists [Cooper] 878 (Se)
protein testing of enzymes, charting the way toward standardization [Lott] 392 (Ap)

Indium Radiolabels
targeting of cancer with radiolabeled antibodies, prospects for imaging and therapy [Goldenberg] 580 (Je)

Indoles
primary mucin-secreting adenocarcinoma of kidney [Grignon] 847 (Au)

Infant Mortality
causes of morbidity and mortality among infants born at term [Rosenthal] 178 (Fe)

IgM antiprophospholipid antibodies in patient with pregnancy-associated lupuslike disorder, vasculitis, and recurrent intrauterine fetal demise, 191 (Fe)

Infant, Newborn
causes of morbidity and mortality among infants born at term [Rosenthal] 178 (Fe)
gastrointestinal arterial fibromuscular dysplasia of childhood [Meredith] 835 (Au)

Infant, Premature
causes of morbidity and mortality among infants born at term [Rosenthal] 178 (Fe)

Infection
mesodiverticular band and sudden death in children, evidence of 2 cases [Pfalzgraf] 182 (Fe)

Infection
epithelioid germinal centers in overwhelming childhood infections, aftermath of nonspecific destruction of follicular B cells by natural killer cells [Severson] 917 (Se)

Inflammation
alternatives to neutrophil band count [Bentley] 883 (Se)
evaluation of technician H-1 automated hematology analyzer in detecting peripheral blood changes in acute inflammation [Banez] 885 (Se)
inflammatory aneurysm of aorta, aortitis, and coronary arteritis [Cohle] 1121 (No)

Information Systems
Consultative Laboratory Assessment System, CLAS profile [Hosty] 1203 (De)
impact of new features of laboratory information systems on quality assessment in anatomic pathology [Friedman] 1188 (De)
managing laboratory information [Altschuler] 1188 (De)
surgical pathology reporting and encoding system using industry-standard hardware and software [Taubman] 1195 (De)
use of bar code labels on collection tubes for specimen management in clinical laboratory [Tilzer] 1200 (De)

Injections, Intravenous
benign lymphoepithelial lesion of parotid gland in intravenous drug users [Smith] 742 (Jy)

Inpatients see Patients

Interleukin 2
soluble interleukin 2 receptors in patients with malignant lymphoma [Harrington] 597 (Je)

Intestinal Neoplasms
carcinoid tumor of stomach with features of midgut tumor [Quinones] 838 (Au)
malignant fibrous histiocytoma of stomach, report and review of malignant fibrohistiocytic tumors of alimentary tract [Wright] 251 (Mr)
malignant fibrous histiocytoma, nonspecific morphologic pattern, specific pathologic entity, or both? [Dehner] 236 (Mr)

Intestine, Large
malignant fibrous histiocytoma of stomach, report and review of malignant fibrohistiocytic tumors of alimentary tract [Wright] 251 (Mr)

Intestine, Small
mesodiverticular band and sudden death in children, report of 2 cases [Pfalzgraf] 182 (Fe)

Iodine
immunossay, innovations in label technology [Howanitz] 775 (Au)

Iodine isotopes
immunoblotting and dot immunobinding, emerging techniques in protein immunochemistry [Renner] 780 (Au)

Ischemia
gastrointestinal arterial fibromuscular dysplasia of childhood [Meredith] 833 (Au)
histopathologic features of liver biopsy specimens in sickle cell disease [Mills] 290 (Mr)

Italy
practice of autopsy in Trieste (letter) [Giarelli] (reply) [Svendsen] 770 (Au)

Jaundice, Cholestatic see **Cholestasis**
Jaundice, Obstructive see **Cholestasis**

Joint Committee on Accreditation of Healthcare Organizations
user's classification of problems identified by proficiency testing surveys [Lise] 371 (Ap)

K

Kappa Immunoglobulins see **Immunoglobulins, Kappa Chain**

Karyotyping
applications of gene rearrangement analysis in diagnosis of Hodgkin's disease (letter) [Sunde] 5, (reply) [William] 6 (Ja)

Keratin
bile duct adenomas in heterozygous (MZ) deficiency of α_1 protease inhibitor [Scheele] 945 (Se)

comparison of paraganglioma, carcinoid tumor, and small-cell carcinoma of larynx [Googe] 809 (Au)

composite gastric carcinoma, report of tumor of carcinoma-carcinoid spectrum [Ulrich] 91 (Ja)

immunohistochemical diagnosis of sinonasal melanoma, carcinoma, and neuroblastoma with monoclonal antibodies HMB-45 and anti-synaptophysin [Wick] 616 (Je)

immunoreactivity for cytokeratin and epithelial membrane antigen in leiomyosarcoma [Miettinen] 637 (Je)

involucrin (letter) [Waltz] 578 (Je)

metaplastic breast carcinoma (letter) [O'Keefe] (reply) [Pascual] 578 (Je)

myoid cell differentiation in true thymic hyperplasia and lymphoid hyperplasia [Judd] 1140 (No)

peripheral neuroepithelioma in childhood, immunohistochemical demonstration of epithelial differentiation [Shinoda] 1155 (No)

skin as immunologic organ [Shimada] 231 (Mr)

Ketoconazole
in vitro susceptibility of *Cryptococcus neoformans* isolates from patients with acquired immunodeficiency syndrome [Poon] 161 (Fe)

Kidney
benign familial hematuria [Yoshikawa] 794 (Au)

conjugated hyperbilirubinemia and renal function in bone marrow transplant recipients [Yasmin] 245 (Mr)

Kidney Diseases
congenital biliary dilatation in autosomal dominant adult polycystic disease of liver and kidneys [Terada] 1113 (No)

juvenile nephronophthisis with calcification of basal ganglia and pancreatic insufficiency [Rafat] 630 (Je)

xanthogranulomatous pyelonephritis, reappraisal and immunohistochemical study [Antonakopoulos] 275 (Mr)

Kidney Failure, Chronic
juvenile nephronophthisis with calcification of basal ganglia and pancreatic insufficiency [Rafat] 630 (Je)

Kidney Neoplasms
distribution of fucose substance in kidney and related neoplasms, absence of lectin-reactive α -fucose from vasculature of bilateral Wilms' tumors [Hennigar] 908 (Se)

glycoconjugate expression in human renal oncocytomas, lectin histochemical study [Eble] 806 (Au)

human chorionic gonadotropin expression in lung, breast, and renal carcinomas [Kuida] 282 (Mr)

primary mucin-secreting adenocarcinoma of kidney [Grignon] 847 (Au)

unusual oncocytic renal tumor with sarcomatoid foci and osteogenic differentiation [Young] 937 (Se)

Kidney, Polycystic
congenital biliary dilatation in autosomal dominant adult polycystic disease of liver and kidneys [Terada] 1113 (No)

Killer Cells
epithelioid germinal centers in overwhelming childhood infections, antimethicillin-specific destruction of follicular B cells by natural killer cells [Severson] 917 (Se)

L

Laboratory Diagnosis see **Diagnosis, Laboratory**

Lactate Dehydrogenase
soluble interleukin 2 receptors in patients with malignant lymphoma [Harrington] 597 (Je)

Lactate Dehydrogenase Isoenzymes
efficiency of lactate dehydrogenase isoenzyme determination for diagnosis of acute myocardial infarction [Rosenberg] 885 (Se)

Lactoferrin see **Lactoglobulins**

Lactoglobulins
immunocytochemistry of thyroid in surgical and cytologic specimens [Davila] 51 (Ja)

lactoferrin demonstration in thyroid follicular and papillary carcinomas (letter) [Barresi] (reply) [Bedrosian]

1176 (De)
Lambda Immunoglobulins see **Immunoglobulins, Lambda Chain**

Laminin
characterization of glomeruli by immunohistochemistry and electron microscopy in case of Wilms' tumor [Payton] 536 (My)

Landmark Contribution in Pathology and Medicine
survey of accuracy of chemical analyses in clinical laboratories (1947) [Belk] 320 (Ap)

Langerhans Cells
skin as immunologic organ [Shimada] 231 (Mr)

Lanthanides see **Metals, Rare Earth**

Laparotomy
mesenteric venous thrombosis due to antithrombin III deficiency [Maung] 37 (Ja)

Laryngeal Neoplasms
comparison of paraganglioma, carcinoid tumor, and small-cell carcinoma of larynx [Googe] 809 (Au)

Lectins
cholesterol vehicle in experimental atherosclerosis, brief review with special reference to peanut oil [Kritchevsky] 1041 (Ce)

detection of fungi in tissue sections by lectin histochemistry [Karayannopoulos] 746 (Jy)

distribution of fucose substance in kidney and related neoplasms, absence of lectin-reactive α -fucose from vasculature of bilateral Wilms' tumors [Hennigar] 908 (Se)

glycoconjugate expression in human renal oncocytomas, lectin histochemical study [Eble] 806 (Au)

lectin histochemistry of uterine adenocarcinomas [Yen] 791 (Au)

Legislation, Medical
federal regulation of clinical laboratories, prospective public policy analysis [Hammond] 363 (Ap)

Leiomyoblastoma
late recurrence (33 years) of gastric epithelioid stromal tumor (leiomyoblastoma) with low malignant potential [Miller] 86 (Ja)

Leiomyosarcoma
immunoreactivity for cytokeratin and epithelial membrane antigen in leiomyosarcoma [Miettinen] 637 (Je)

malignant fibrous histiocytoma of stomach, report and review of malignant fibrohistiocytic tumors of alimentary tract [Wright] 251 (Mr)

malignant fibrous histiocytoma, nonspecific morphologic pattern, specific pathologic entity, or both? [Dehner] 236 (Mr)

Length of Stay
cytomegalovirus infection in acquired immunodeficiency syndrome, clinical and autopsy findings [Klatt] 540 (My)

Leukemia
molecular genetics and diagnosis of lymphoma [Cossman] 117 (Fe)

use of technicon H-1 in characterization of leukemias [Krause] 889 (Se)

Leukemia, Hairy Cell
isolated polyarteritis of testis in hairy-cell leukemia [Lise] 646 (Je)

Leukemia, Lymphocytic
biconal IgM gammopathy in chronic lymphocytic leukemia [Schaffner] 206 (Fe)

lung biopsy in chronic lymphocytic leukemia [Rollins] 607 (Je)

Leukemia, Lymphocytic, Chronic see **Leukemia, Lymphocytic**

Leukemia, Megakaryocytic see **Thrombocythemia, Hemorrhagic**

Leukemia, Myelocytic
eosinophilia as precursor of acute myelomonocytic leukemia [Weiss] (reply) [Wick] 867 (Se)

Leukemia, Myelomonocytic see **Leukemia, Myelocytic**

Leukocyte Count
alternatives to neutrophil band count [Bentley] 883 (Se)

circulating mucin in Wilms' tumor and nephroblastoma, effect on leukocyte counts [Schaub] 656 (Je)

Leukocyte Number see **Leukocyte Count**

Leukocytes
comparative leukocyte esterase-nitrite and BAC-T-SCREEN studies using single and multiple urine volumes [Damato] 533 (My)

leukocyte common antigen expression in lymphomas (letter) [Weiss] (reply) [Wick] 867 (Se)

oligonucleotide probing, applications to HLA typing [Freeman] 22 (Ja)

Leukocytosis
evaluation of technicon H-1 automated hematology analyzer in detecting peripheral blood changes in acute inflammation [Banez] 885 (Se)

Ligands
immunoblotting and dot immunobinding, emerging techniques in protein immunochemistry [Renner] 780 (Au)

nonparametric analysis method for evaluation of survey results, application to Ligand Assay Survey [Klee] 399 (Ap)

Lipase
use of Nile red stain in detection of cholesteryl ester accumulation in acid lipase-deficient fibroblasts [Brown] 295 (Mr)

Lipids
arterial smooth muscle, multifunctional mesenchymal cell [Campbell] 977 (Ce)

arterial wall injury and proteoglycan changes in atherosclerosis [Berenson] 1002 (Ce)

cholesterol measurements, quality assurance and medical usefulness interrelationships [Oxley] 387 (Ap)

College of American Pathologists conference XIII on evaluation of proficiency testing results for quantitative methods in relation to clinical usefulness, review and comments [Hartmann] 473 (Ap)

glutaric acidemia type II, comparison of pathologic features in 2 infants [Coles] 1133 (No)

lasting contributions of Robert W Wissler, PhD, MD, to pathology and to pathobiology of atherosclerosis [Glagov] 973 (Ce)

origins of human atherosclerotic plaques, role of altered gene expression [Benditt] 997 (Ce)

pathobiology of atherosclerosis, current concepts and perspectives, Festschrift in tribute to Robert W Wissler, PhD, MD [Baja] 975 (Ce)

use of Nile red stain in detection of cholesteryl ester accumulation in acid lipase-deficient fibroblasts [Brown] 295 (Mr)

Lipomatosis
juvenile nephronophthisis with calcification of basal ganglia and pancreatic insufficiency [Rafat] 630 (Je)

Lipoproteins
arterial smooth muscle, multifunctional mesenchymal cell [Campbell] 977 (Ce)

arterial wall injury and proteoglycan changes in atherosclerosis [Berenson] 1002 (Ce)

lipoprotein (a), potential bridge between fields of atherosclerosis and thrombosis [Scanu] 1045 (Ce)

pathobiology of atherosclerosis, current concepts and perspectives, Festschrift in tribute to Robert W Wissler, PhD, MD [Baja] 975 (Ce)

Lipoproteins, HDL Cholesterol
dietary cholesterol and human coronary heart disease, epidemiologic evidence [Stamler] 1032 (Ce)

Lipoproteins, LDL
atherosclerosis and apoprotein E, enigmatic relationship [Getz] 1048 (Ce)

lipoprotein (a), potential bridge between fields of atherosclerosis and thrombosis [Scanu] 1045 (Ce)

morphology and increased growth rate of atherosclerotic intimal smooth-muscle cells [Yoshida] 987 (Ce)

Lipoproteins, LDL Cholesterol
dietary cholesterol and human coronary heart disease, epidemiologic evidence [Stamler] 1032 (Ce)

Lipoproteins, VLDL
atherosclerosis and apoprotein E, enigmatic relationship [Getz] 1048 (Ce)

Liposomes
immunossay, innovations in label technology [Howanitz] 775 (Au)

Listeria monocytogenes
effect of prompt inoculation on results of seceptor system minimal inhibitory concentration determinations for *Listeria monocytogenes* [Dillon] 163 (Fe)

Liver
histopathologic features of liver biopsy specimens in sickle cell disease [Mills] 290 (Mr)

Liver Cirrhosis, Biliary
does immune response play role in pathogenesis of chronic liver disease? [Mondelli] 489 (My)

Liver Diseases
chronic active hepatitis in child with human immunodeficiency virus infection [Thung] 914 (Se)

congenital biliary dilatation in autosomal dominant adult polycystic disease of liver and kidneys [Terada] 1113 (No)

does immune response play role in pathogenesis of chronic liver disease? [Mondelli] 489 (My)

hepatic hyaline globules associated with passive congestion [Klatt] 510 (My)

Liver Function Tests
chance discovery of hepatic fibrosis in patient with asymptomatic hypervitaminosis A [Blouac-Sage] 505 (My)

Liver Neoplasms
benign clear cell tumor (sugar tumor) of lung with hepatic metastases 10 years after resection of pulmonary primary tumor (letter) [Sale] 1177 (Ce)

bile duct adenomas in heterozygous (MZ) deficiency of α_1 protease inhibitor [Scheele] 945 (Se)

evolution of hepatocellular carcinoma associated with chronic hepatitis B virus infection in Alaskan Eskimos [Popper] 498 (My)

malignant rhabdoid tumor of liver, evidence for epithelial differentiation [Parham] 61 (Ja)

Lung
asbestos bodies in children's lungs, association with sudden infant death syndrome and bronchopulmonary dysplasia [Haque] 514 (My)

Lung Diseases
acquired von Willebrand's syndrome associated with extrapulmonary lymphoma [Rao] 47 (Ja)

diseases associated with exposure to silica and nonfibrous silicate minerals [Silicosis and Silicate Disease Committee] 673 (Jy)

lung biopsy in chronic lymphocytic leukemia [Rollins] 607 (Je)

xanthomatous bronchiolitis obliterans with cholesterol pneumonia [Heffelfinger] 650 (Je)

Lung Neoplasms
benign clear cell tumor (sugar tumor) of lung with hepatic metastases 10 years after resection of pulmonary primary tumor (letter) [Sale] 1177 (Ce)

ependymoma of mediastinum [Dogliani] 194 (Fe)

human chorionic gonadotropin expression in lung, breast, and renal carcinomas [Kuida] 282 (Mr)

lung cancer metastasis to adrenocortical adenomas, chance occurrence or predicted phenomenon? [Moriya] 286 (Mr)

malignant fibrous histiocytoma of stomach, report and review of malignant fibrohistiocytic tumors of alimentary tract [Wright] 251 (Mr)

Lupus Erythematosus, Systemic
chloroquine-induced cardiomyopathy (letter) [Ratliff] 578 (Je)

IgM antitrophoblast antibodies in patient with pregnancy-associated lupuslike disorder, vasculitis, and recurrent intrauterine fetal demise, 191 (Fe)

specificity of trophoblast-reactive antibodies in human pregnancy [Cheng] (reply) [Kemp] 1061 (No)

Lymph Nodes

benign vascular proliferation in lymph node following acute toxoplasmosis, differential diagnosis from Kaposi's sarcoma [Rousselet] 1264 (De)
dermatopathic lymphadenitis, spectrum and significance of its morphologic features [Gould] 1145 (No)
salivary gland lymph nodes, site of lymphadenopathies and lymphomas associated with human immunodeficiency virus infection [Joachim] 1224 (De)

Lymphadenitis

dermatopathic lymphadenitis, spectrum and significance of its morphologic features [Gould] 1145 (No)

Lymphatic Diseases

diseases associated with exposure to silica and nonfibrous silicate minerals [Silicosis and Silicate Disease Committee] 673 (Jy)
lymphorrhage localized to muscle end-plate in myasthenia gravis [Pascuzzi] 934 (Se)
sinus histiocytosis with massive lymphadenopathy, occurrence in identical twins with retroperitoneal disease [Marsh] 298 (Mr)

Lymphocytes

classic and immunodeficiency-associated Kaposi's sarcoma, clinical, histologic, and immunologic correlations, [Santucci] 1214 (De)
OKT4 epitope deficiency and acquired immunodeficiency syndrome (AIDS) [Ghosh] (reply) [McCurley] 5 (Ja)
oligonucleotide probing, applications to HLA typing [Freeman] 22 (Ja)

pathogenic role of HIV infection in Kaposi's sarcoma of Equatorial East Africa [Craighead] 259 (Mr)

T-Lymphocytes

arterial smooth muscle, multifunctional mesenchymal cell [Campbell] 977 (Oc)

dermatopathic lymphadenitis, spectrum and significance of its morphologic features [Gould] 1145 (No)
peripheral T-cell lymphoma presenting as soft-tissue mass of extremity [Axiotis] 850 (Au)

T-Lymphocytes, Cytotoxic

does immune response play role in pathogenesis of chronic liver disease? [Mondelli] 489 (My)

T-Lymphocytes, Helper see Helper Cells

T-Lymphocytes, Inducer see Helper Cells

Lymphoid Tissue

classic and immunodeficiency-associated Kaposi's sarcoma, clinical, histologic, and immunologic correlations, [Santucci] 1214 (De)

myoid cell differentiation in true thymic hyperplasia and lymphoid hyperplasia [Judd] 1140 (No)

Lymphoma

acquired von Willebrand's syndrome associated with extranodal pulmonary lymphoma [Rao] 47 (Ja)

clonal ambiguity of human immunodeficiency virus-associated lymphomas, similarity to posttransplant lymphomas [Lippman] 128 (Fe)

immunostaining for leukocyte common antigen (letter) [Söderström] 483, (reply) [Wick] 484 (My)

malignant lymphomas in acquired immunodeficiency syndrome, additional evidence for B-cell origin [Egertier] 602 (Je)

molecular genetics and diagnosis of lymphoma [Cossman] 117 (Fe)

nodular T-cell lymphoma, report of case studied with morphologic, immunohistochemical, and DNA hybridization techniques [van den Oord] 133 (Fe)

peripheral T-cell lymphoma presenting as soft-tissue mass of extremity [Axiotis] 850 (Au)

salivary gland lymph nodes, site of lymphadenopathies and lymphomas associated with human immunodeficiency virus infection [Joachim] 1224 (De)

soluble interleukin 2 receptors in patients with malignant lymphoma [Harrington] 597 (Je)

Lymphoma, Non-Hodgkin's

leukocyte common antigen expression in lymphomas (letter) [Weiss] (reply) [Wick] 367 (Se)

Lymphoproliferative Disorders

clonal ambiguity of human immunodeficiency virus-associated lymphomas, similarity to posttransplant lymphomas [Lippman] 128 (Fe)

Lymphosarcoma see Lymphoma, Non-Hodgkin's

Lysosomes

cytoplasmic granular change of Sertoli cells in 2 cases of Sertoli-cell-only syndrome [Wong] 200 (Fe)

immunoblotting and dot immunobinding, emerging techniques in protein immunohistochemistry [Renner] 780 (Au)

renal glomerular and tubular abnormalities in glycogen storage disease type I [Verani] 271 (Mr)

use of Nile red stain in detection of cholesteryl ester accumulation in acid lipase-deficient fibroblasts [Brown] 295 (Mr)

Lyszyme see Muramidase

M

Maca

animal models and study of atherosclerosis [Vesselinovitch] 1011 (Oc)

arterial wall injury and proteoglycan changes in atherosclerosis [Berenson] 1002 (Oc)

atherosclerosis and aging, morphometric study on arterial lesions of elderly and very elderly necropsy subjects [Weber] 1006 (Oc)

Maca Mutata

atherosclerosis and apoprotein E, enigmatic relationship [Getz] 1048 (Oc)

Macrophages

anti-leu-3a antibody reactivity with Reed-Sternberg cells of Hodgkin's disease [Oka] 139 (Fe)

arterial smooth muscle, multifunctional mesenchymal cell [Campbell] 977 (Oc)

arterial wall injury and proteoglycan changes in atherosclerosis [Berenson] 1002 (Oc)

atherosclerosis and apoprotein E, enigmatic relationship [Getz] 1048 (Oc)

classic and immunodeficiency-associated Kaposi's sarcoma, clinical, histologic, and immunologic correlations, [Santucci] 1214 (De)

expression of Ia and monocyte-macrophage lineage antigens in giant cell tumor of bone and related lesions [Ling] 65 (Ja)

malignant lymphomas in acquired immunodeficiency syndrome, additional evidence for B-cell origin [Egertier] 602 (Je)

origins of human atherosclerotic plaques, role of altered gene expression [Benditt] 997 (Oc)

progressive multifocal leukoencephalopathy and retroviral encephalitis in acquired immunodeficiency syndrome [Rhodes] 1207 (De)

regenerative process of hyaline membrane disease, electron microscopic, immunohistochemical, and biochemical study [Nakamura] 821 (Au)

systemic late granulomatosis associated with disseminated histoplasmosis in drug abuser [Racela] 557 (My)

Malpractice

clinical purposes of laboratory testing [Diamond] 377 (Ap)

Mandril see Papio

Mass Spectrometry see Spectrum Analysis, Mass

evaluating diagnostic performance of clinical tests by spreadsheet modeling, Bayesian analysis using R/C ratio as unifying concept [Krieg] 588 (Je)

nonparametric analysis method for evaluation of survey results, application to Ligand A: survey [Klee] 399 (Ap)

Matrix, Extracellular see Extracellular Matrix

Meckel's Diverticulum

mesodiverticular band and sudden death in children, report of 2 cases [Pfaffgraf] 182 (Fe)

Mediastinal Neoplasms

ependymoma of mediastinum [Dogliani] 194 (Fe)

Medical Audit

clinical purposes of laboratory testing [Diamond] 377 (Ap)

medical relevance of laboratory tests, clinical perspective [Watts] 379 (Ap)

Medical Informatics

pathologist as physician executive, administrative medicine corner of age [Korpmann] 579 (Je)

Medical Records

Consultative Laboratory Assessment System, CLAS profile [Hosty] 1203 (De)

interobserver variability in collecting data from medical records [Board] 594 (Je)

managing laboratory information [Altschuler] 1188 (De)

surgical pathology reporting and encoding system using industry-standard hardware and software [Taubman] 1195 (De)

Melanocytes

desmoplastic malignant melanoma, clinicopathologic study of 14 cases [Walsh] 922 (Se)

immunohistochemical diagnosis of sinonasal melanoma, carcinoma, and neuroblastoma with monoclonal [Wick] 616 (Je)

Melanoma

desmoplastic malignant melanoma, clinicopathologic study of 14 cases [Walsh] 922 (Se)

immunohistochemical diagnosis of sinonasal melanoma, carcinoma, and neuroblastoma with monoclonal antibodies HMB-45 and anti-synaptophysin [Wick] 616 (Je)

Mesenchymoma

arterial smooth muscle, multifunctional mesenchymal cell [Campbell] 977 (Oc)

arterial wall injury and proteoglycan changes in atherosclerosis [Berenson] 1002 (Oc)

histopathological and clinical correlations of cystosarcoma phyllodes [Murad] 752 (Jy)

metaplastic breast carcinoma (letter) [O'Kean] (reply) [Pascal] 578 (Je)

metaplastic breast carcinoma with epithelial phenotype of pseudosarcomatous components [Santusanio] 82 (Ja)

myocardial infarct due to unique atrial myxoma with epithelial-like cells and systemic metastases [de Moraes] 185 (Fe)

peripheral neuroepithelioma in childhood, immunohistochemical demonstration of epithelial differentiation [Shinoda] 1155 (No)

Mesenteric Veins

mesenteric venous thrombosis due to antithrombin III deficiency [Maung] 37 (Ja)

Mesenteric

mesodiverticular band and sudden death in children, report of 2 cases [Pfaffgraf] 182 (Fe)

Mesoderm

ganglioglioma containing osseous tissue and neurofibrillary tangles [Hori] 653 (Je)

Mesonephros

absence of intratubular germ cell neoplasia in testicular yolk sac tumors in children, histochemical and immunohistochemical study [Manivel] 641 (Je)

Mesothelioma

asbestos bodies in children's lungs, association with sudden infant death syndrome and bronchopulmonary dysplasia [Haque] 514 (My)

malignant peritoneal mesothelioma in childhood [Armstrong] 1159 (No)

metabolic diseases

glutaric acidemia type II, comparison of pathologic features in 2 infants [Colevas] 1133 (No)

Metabolism

arterial smooth muscle, multifunctional mesenchymal cell [Campbell] 977 (Oc)

atherosclerosis and apoprotein E, enigmatic relationship [Getz] 1048 (Oc)

pathobiology of atherosclerosis, current concepts and perspectives, Festschrift in tribute to Robert W. Wissler, PhD, MD [Buja] 975 (Oc)

Metals, Rare Earth

immunoassay, innovations in label technology [Howanitz] 775 (Au)

Miconazole

in vitro susceptibility of *Cryptococcus neoformans* isolates from patients with acquired immunodeficiency syndrome [Poon] 161 (Fe)

Microcomputers see Computers

Microscopy

computerized image-analysis microspectroscopy of tissue sections [Pappolla] 787 (Au)

desmoplastic malignant melanoma, clinicopathologic study of 14 cases [Walsh] 922 (Se)

peripheral T-cell lymphoma presenting as soft-tissue mass of extremity [Axiotis] 850 (Au)

Microscopy, Electron

carcinoid tumor of stomach with features of midgut tumor [Quinones] 838 (Au)

characterization of glomeruli by immunohistochemistry and electron microscopy in case of Wilms' tumor [Payton] 536 (My)

immunoreactivity for cytokeratin and epithelial membrane antigen in leiomyosarcoma [Miettinen] 637 (Je)

review of malignant fibrohistiocytic tumors of alimentary tract [Wright] 251 (Mr)

malignant peritoneal mesothelioma in childhood [Armstrong] 1159 (No)

Microscopy, Electron, Scanning

myocardial infarct due to unique atrial myxoma with epithelial-like cells and systemic metastases [de Moraes] 185 (Fe)

Microscopy, Fluorescence

benign familial hematuria [Yoshikawa] 794 (Au)

Microtomy

computerized image-analysis microspectroscopy of tissue sections [Pappolla] 787 (Au)

detection of fungi in tissue sections by lectin histochemistry [Karayannopoulos] 746 (Jy)

immunoreactivity for cytokeratin and epithelial membrane antigen in leiomyosarcoma [Miettinen] 637 (Je)

immunostaining for leukocyte common antigen (letter) [Söderström] 483, (reply) [Wick] 484 (My)

radiohistology as new diagnostic method for barium granuloma [De Mascara] 634 (Je)

Mitochondria

brown adipose tissue in Duchenne's progressive muscular dystrophy [Lil] 550 (My)

glutaric acidemia type II, comparison of pathologic features in 2 infants [Colevas] 1133 (No)

unusual oncofetal renal tumor with sarcomatous foci and osteogenic differentiation [Young] 837 (Se)

Mitogens

arterial smooth muscle, multifunctional mesenchymal cell [Campbell] 977 (Oc)

classic and immunodeficiency-associated Kaposi's sarcoma, clinical, histologic, and immunologic correlations, [Santucci] 1214 (De)

Mitotic Spindle Apparatus

immunohistochemical evaluation of leu-7, myelin basic protein, S100 protein, glial-fibrillary acidic protein, and LNA immunoreactivity in nerve sheath tumors and sarcomas [Johnson] 155 (Fe)

immunoreactivity for cytokeratin and epithelial membrane antigen in leiomyosarcoma [Miettinen] 637 (Je)

postoperative spindle-cell nodule of endometrium [Clement] 566 (My)

Molecular Biology

applications of gene rearrangement analysis in diagnosis of Hodgkin's disease (letter) [Sunder] 5, (reply) [William] 6 (Ja)

Molecular Genetics see Genetics, Biochemical

Monkey, Rhesus see Macaca Mulatta

Monoclonal Gammopathies see Paraproteinemias

Monoclonal Gammopathies, Benign see Hypergammaglobulinemia

Monocytes

anti-leu-3a antibody reactivity with Reed-Sternberg cells of Hodgkin's disease [Oka] 139 (Fe)

expression of Ia and monocyte-macrophage lineage antigens in giant cell tumor of bone and related lesions [Ling] 65 (Ja)

Morbidity

causes of morbidity and mortality among infants born at term [Rosenthal] 178 (Fe)

Mortality

causes of morbidity and mortality among infants born at term [Rosenthal] 178 (Fe)

Motor Endplate see Neuromuscular Junction

Mucin

circulating mucin in Wilms' tumor and nephroblastomatosis, effect on leukocyte counts [Schaub] 656 (Je)

primary mucin-secreting adenocarcinoma of kidney [Grierson] 847 (Au)

Multiple Myeloma

nonsecretory multiple myeloma [Doster] 147 (Fe)

restrictive cardiomyopathy with light chain deposits in myocardium as complication of multiple myeloma, histochemical and electron microscopic observations [McAllister] 1151 (No)

Muramidase

chordoma, immunohistochemical study of 20 cases [Meis] 553 (My)

epithelioid germinal centers in overwhelming childhood infections, aftermath of nonspecific destruction of follicular B cells by natural killer cells [Severon] 917 (Se)

regenerative process of hyaline membrane disease, electron microscopic, immunohistochemical, and biochemical study [Nakamura] 821 (Au)

Muscle, Smooth

arterial smooth muscle, multifunctional mesenchymal cell [Campbell] 977 (Oc)

morphology and increased growth rate of atherosclerotic

intimal smooth-muscle cells [Yoshida] 987 (Oc)

Muscle, Smooth, Vascular
 lasting contributions of Robert W Wissler, PhD, MD, to pathology and to pathobiology of atherosclerosis [Glague] 978 (Oc)

origins of human atherosclerotic plaques, role of altered gene expression [Benditt] 997 (Oc)

Muscles
 chordoma, immunohistochemical study of 20 cases [Meis] 553 (My)

development of vasa vasorum of human aorta in various conditions, morphometric study [Okuyama] 721 (Jy)

lymphorrhage localized to muscle end-plate in myasthenia gravis [Pascuzzi] 934 (Se)

Muscular Dystrophy
 brown adipose tissue in Duchenne's progressive muscular dystrophy [Ito] 550 (My)

Myasthenia Gravis
 current concepts and diagnostic evaluation of autoimmune disease [Nakamura] 889 (Se)

lymphorrhage localized to muscle end-plate in myasthenia gravis [Pascuzzi] 934 (Se)

myoid cell differentiation in true thymic hyperplasia and lymphoid hyperplasia [Judd] 1140 (No)

Mycobacterium avium
 sputum examination in diagnosis of *Pneumocystis carinii* pneumonia in acquired immunodeficiency syndrome [de Ro] 1229 (De)

Mycoplasma
 isolation of genital mycoplasmas and *Chlamydia trachomatis* in stillborn and neonatal autopsy material [Madan] 749 (Jy)

Mycosis Fungoides
 dermatopathic lymphadenitis, spectrum and significance of its morphologic features [Gould] 1145 (No)

Myelin Proteins
 origin of granules in granular cell tumor, intracellular myelin formation with autolysis [Mittal] 302 (Mr)

Myelin Sheath
 malignant peripheral nerve sheath tumor and pheochromocytoma, composite tumor of adrenal [Min] 266 (Mr)

Myoblastoma
 origin of granules in granular cell tumor, intracellular myelin formation with autolysis [Mittal] 302 (Mr)

Myocardial Disease
 brown adipose tissue in Duchenne's progressive muscular dystrophy [Ito] 550 (My)

dysplastic cardiac development presenting as cardiomyopathy [Allenby] 1255 (De)

Myocardial Infarction
 efficiency of lactate dehydrogenase isoenzyme determination for diagnosis of acute myocardial infarction [Rosenberg] 896 (Se)

light chain cardiomyopathy associated with small-vessel disease [Peng] 844 (Au)

myocardial infarct due to unique atrial myxoma with epithelial-like cells and systemic metastases [de Moraes] 185 (Fe)

ways of assessing quality goals for diagnostic tests in clinical situations [Petersen] 435 (Ap)

Myocarditis
 disseminated toxoplasmosis in acquired immunodeficiency syndrome [Tschirhart] 1237 (De)

pathology and etiology of cocaine-induced heart disease [Karch] 225 (Mr)

pathology of heart in acquired immunodeficiency syndrome (AIDS) [letter] [Klatt] (reply) [Hensley] 114 (Fe)

Myocardium
 chloroquine-induced cardiomyopathy [letter] [Ratiff] 578 (Je)

pathology of heart in acquired immunodeficiency syndrome (AIDS) [letter] [Klatt] (reply) [Hensley] 114 (Fe)

restrictive cardiomyopathy with a light chain deposits in myocardium as complication of multiple myeloma, histochemical and electron microscopic observations [McAllister] 1151 (No)

Myoclonus
 anomalous right coronary artery origin in otherwise unexplained infant death [Ness] 626 (Je)

Myoepithelial Tumor
 adenomyoepithelioma of breast [Jabi] 73 (Ja)

Myoepithelioma see **Myoepithelial Tumor**

Myoglobin
 myoid cell differentiation in true thymic hyperplasia and lymphoid hyperplasia [Judd] 1140 (No)

Myoneural Junction see **Neuromuscular Junction**

Myxoma
 myocardial infarct due to unique atrial myxoma with epithelial-like cells and systemic metastases [de Moraes] 185 (Fe)

N

N-Ras Genes see **Ras Genes**

Naphuride see **Suramin**

Nasopharyngeal Neoplasms
 immunohistochemical diagnosis of sinonasal melanoma, carcinoma, and neuroblastoma with monoclonal antibodies HMB-45 and anti-synaptophysin [Wick] 616 (Je)

Necrotizing Arteritis see **Periarteritis Nodosa**

Neisseria gonorrhoeae
 identification and antimicrobial susceptibility testing of *Neisseria gonorrhoeae*, 1980-1987, results from College of American Pathologists Microbiology Surveys Program [Jones] 485 (My)

Neoplasia Metastasis
 angiosarcoma of adrenal gland [Karetz] 1163 (No)

'benign' clear cell tumor (sugar tumor) of lung with hepatic metastases 10 years after resection of pulmonary primary tumor [letter] [Sale] 1177 (De)

cervicovaginal psammoma bodies, initial presentation of ovarian borderline tumor [Qazi] 564 (My)

chordoma, immunohistochemical study of 20 cases [Meis]

553 (My)

clear-cell epithelial neoplasms of large intestine [Jewell] 197 (Fe)

clonal ambiguity of human immunodeficiency virus-associated lymphomas, similarity to posttransplant lymphomas [Lippman] 128 (Fe)

composite gastric carcinoma, report of tumor of carcinoma-carcinoid spectrum [Ulrich] 91 (Ja)

cytogenetic study of Kaposi's sarcoma associated with acquired immunodeficiency syndrome [Saikuevich] 825 (Au)

desmoplastic malignant melanoma, clinicopathologic study of 14 cases [Walsh] 922 (Se)

ependymoma of medulla [Daglion] 194 (Fe)

expression of Ia and monocyte-macrophage lineage antigens in giant cell tumor of bone and related lesions [Ling] 65 (Ja)

expression of vitamin B₁₂ R-binder in breast tumors, immunohistochemical study [Ogawa] 1117 (No)

ganglioglioma containing osseous tissue and neurofibrillary tangles [Hori] 653 (Je)

histopathological and clinical correlations of cystosarcoma phylloides [Murad] 752 (Jy)

immunohistochemical diagnosis of sinonasal melanoma, carcinoma, and neuroblastoma with monoclonal antibodies HMB-45 and anti-synaptophysin [Wick] 616 (Je)

immunohistochemical studies on local antitumor effects of streptococcal immunopotentiator, OK-432, in human solid malignant tumors [Sugeno] 545 (My)

involucrin (letter) [Waltz] 578 (Je)

late recurrence (33 years) of gastric epithelioid stromal tumor (leiomyoblastoma) with low malignant potential [Miller] 86 (Ja)

lectin histochemistry of uterine adenocarcinomas [Yen] 791 (Au)

lung cancer metastasis to adrenocortical adenomas, chance occurrence or predicted phenomenon? [Moriya] 286 (Mr)

malignant fibrous histiocytoma of stomach, report and review of malignant fibrohistiocytic tumors of alimentary tract [Wright] 251 (Mr)

malignant fibrous histiocytoma, nonspecific morphologic pattern, specific pathologic entity, or both? [Dehner] 236 (Mr)

malignant lymphomas in acquired immunodeficiency syndrome, additional evidence for B-cell origin [Egarter] 602 (Je)

malignant peritoneal mesothelioma in childhood [Armstrong] 1159 (No)

malignant rhabdoid tumor of liver, evidence for epithelial differentiation [Farham] 61 (Ja)

membranous basal cell adenoma of parotid gland, malignant transformation in patient with multiple dermal cylindromas [Hyma] 209 (Fe)

metaplastic breast carcinoma (letter) [O'Kean] (reply) [Pascual] 578 (Je)

metaplastic breast carcinoma with epithelial phenotype of pseudosarcomatous components [Santusanio] 82 (Ja)

myocardial infarct due to unique atrial myxoma with epithelial-like cells and systemic metastases [de Moraes] 185 (Fe)

origin of granules in granular cell tumor, intracellular myelin formation with autolysis [Mittal] 302 (Mr)

peripheral T-cell lymphoma presenting as soft-tissue mass of extremity [Axiotis] 850 (Au)

pleomorphic (anaplastic) neuroblastoma [Cuzzotto] 621 (Je)

prostate specific antigen and acid phosphatase-reactive cells in cystitis cystica and glandularis [Novels] 784 (Jy)

salivary gland lymph nodes, site of lymphadenopathies and lymphomas associated with human immunodeficiency virus infection [Joachim] 1224 (De)

solitary condylomatous papilloma of bronchus [Trillo] 731 (Jy)

soluble interleukin 2 receptors in patients with malignant lymphoma [Harrington] 597 (Je)

squamous cell carcinoma of ovary (letter) [Chen] 114 (Fe)

unusual oncocyte renal tumor with sarcomatoid foci and osteogenic differentiation [Young] 937 (Se)

xanthomatous bronchiolitis obliterans with cholesterol pneumonia [Heffelfinger] 650 (Je)

Neoplasm Staging
 grading of tumors (letter) [Henson] 769 (Au)

histological grading of neoplasms [Henson] 1091 (No)

Neoplasms
 cytomegalovirus infection in acquired immunodeficiency syndrome, clinical and autopsy findings [Klatt] 540 (My)

histological grading of neoplasms [Henson] 1091 (No)

immunocytochemistry of thyroid in surgical and cytologic specimens [Davila] 51 (Ja)

immunohistochemical evaluation of leu-7, myelin basic protein, S100 protein, glial-fibrillary acidic protein, and LN3 immunoreactivity in nerve sheath tumors and sarcomas [Johnson] 155 (Fe)

immunoreactivity for cytokeratin and epithelial membrane antigen in leiomyosarcoma [Miettinen] 637 (Je)

immunostaining for leukocyte common antigen (letter) [Stelzer] 483 (reply) [Wick] 484 (My)

lactoferrin demonstration in thyroid follicular and papillary carcinomas (letter) [Barresi] (reply) [Bedrossian] 1176 (De)

papillae formation in parathyroid adenoma, source of possible diagnostic error [Sahin] 99 (Ja)

Neoplasia **Glandular Epithelial**
 benign lymphoepithelial lesion of parotid gland in intravenous drug users [Smith] 742 (Jy)

Nephritis, Familial see **Nephritis, Hereditary**

Nephritis, Hereditary
 renal glomerular and tubular abnormalities in glycogen storage disease type 1 [Verani] 271 (Mr)

Nephroblastoma
 characterization of glomeruli by immunohistochemistry and electron microscopy in case of Wilms' tumor [Pay-

ton] 536 (My)

circulating mucin in Wilms' tumor and neuroblastoma, effect on leukocyte counts [Schaub] 656 (Je)

distribution of fucose substance in kidney and related neoplasms, absence of lectin-reactive α -fucose from vacuole of bilateral Wilms' tumors [Henniger] 908 (Se)

pleomorphic (anaplastic) neuroblastoma [Cuzzotto] 621 (Je)

Nerve Degeneration
 ganglioglioma containing osseous tissue and neurofibrillary tangles [Hori] 653 (Je)

Nerve Tissue Protein S 100
 chordoma, immunohistochemical study of 20 cases [Meis] 553 (My)

immunohistochemical evaluation of leu-7, myelin basic protein, S100 protein, glial-fibrillary acidic protein, and LN3 immunoreactivity in nerve sheath tumors and sarcomas [Johnson] 155 (Fe)

origin of granules in granular cell tumor, intracellular myelin formation with autolysis [Mittal] 302 (Mr)

Nerve Tissue Proteins
 comparison of paraneoplastic, carcinoma tumor, and small-cell carcinoma of larynx [Googee] 809 (Au)

ectopic parathyroid tissue within vagus nerve, incidence and possible clinical significance [Lack] 304 (Mr)

intraocular paraneoplastic or intracranial ectopic parathyroid tissue (letter) [Lattes] (reply) [Lack] 866 (Se)

Nervous System Neoplasms
 malignant peripheral nerve sheath tumor and pheochromocytoma, composite tumor of adrenal [Min] 266 (Mr)

Netilmicin
 in vitro inactivation of aminoglycosides by cephalosporin antibiotics [Wright] 526 (My)

Neuroblastoma
 immunohistochemical diagnosis of sinonasal melanoma, carcinoma, and neuroblastoma with monoclonal antibodies HMB-45 and anti-synaptophysin [Wick] 616 (Je)

malignant peripheral nerve sheath tumor and pheochromocytoma, composite tumor of adrenal [Min] 266 (Mr)

pleomorphic (anaplastic) neuroblastoma [Cuzzotto] 621 (Je)

Neurofibrils
 ganglioglioma containing osseous tissue and neurofibrillary tangles [Hori] 653 (Je)

Neurofibroma
 immunohistochemical evaluation of leu-7, myelin basic protein, S100 protein, glial-fibrillary acidic protein, and LN3 immunoreactivity in nerve sheath tumors and sarcomas [Johnson] 155 (Fe)

Neuromuscular Junction
 lymphorrhage localized to muscle end-plate in myasthenia gravis [Pascuzzi] 934 (Se)

Neuron-Specific Enolase see **Phosphopyruvate Hydratase**

Neurosecretory Systems
 bronchial carcinoma tumor with amyloid stroma [Al-Kaisi] 211 (Fe)

neuroendocrine differentiation in prostatic carcinoma, retrospective autopsy study [Turbat-Herrera] 1100 (No)

neuroendocrine differentiation and prostatic carcinoma, concept 'comes of age' [di Sant'Agnes] 1097 (No)

neuron-specific enolase reactivity in hyperplasia and neoplasms of thyroid (letter) [Tselentis-Balafoutis] 116 (Fe)

Neutrophils
 alternatives to neutrophil band count [Bentley] 883 (Se)

evaluation of technicon H-1 automated hematology analyzer in detecting peripheral blood changes in acute inflammation [Banez] 885 (Se)

New York City
 autopsy patterns in patients dying of acquired immunodeficiency syndrome in New York City [Wilkes] 1221 (De)

NEWS AND COMMENT
 104 (Ja), 309 (Mr), 570 (My), 859 (Au), 1269 (De)

Nitrites
 comparative leukocyte esterase-nitrite and BAC-T-SCREEN studies using single and multiple urine volumes [Damato] 533 (My)

Nitrogen
 physician office analyzer, evaluation of quality of results obtained by technical and nontechnical personnel [Nanji] 242 (Mr)

Nomenclature
 surgical pathology reporting and encoding system using industry-standard hardware and software [Taubman] 1185 (De)

Noise Neoplasms
 immunohistochemical diagnosis of sinonasal melanoma, carcinoma, and neuroblastoma with monoclonal antibodies HMB-45 and anti-synaptophysin [Wick] 616 (Je)

Nucleoproteins
 does immune response play role in pathogenesis of chronic liver disease? [Mondelli] 489 (My)

O

Oligonucleotides
 oligonucleotide probing, applications to HLA typing [Freeman] 22 (Ja)

Oncogenes
 immunohistochemical detection of *ras* oncogene product p21 in advanced ovarian cancer, lack of correlation with clinical outcome [Rodenburg] 151 (Fe)

Organization and Administration
 multistate regionalization of pathology services, **Medical Arts Laboratory (Lambird) 948 (Se)**

pathologist as physician executive, administrative medicine comes of age [Korpmann] 579 (Je)

regionalization of laboratory services at University of Utah Medical Center, Associated Regional and University Pathologists, Inc (ARUP) [Matsen] 957 (Se)

Outpatients see **Patients**

Ovarian Neoplasms

cervicovaginal psammoma bodies, initial presentation of ovarian borderline tumor [Qazi] 564 (My)
immunohistochemical detection of ras oncogene product p21 in advanced ovarian cancer, lack of correlation with clinical outcome [Rodenburg] 151 (Fe)
squamous cell carcinoma of ovary (letter) [Chen] 114 (Fe)

P

Paget's Disease, Extra-Mammary

Paget's disease with extensive involvement of female genital tract initially detected by cervical cytomear [Costello] 941 (Se)

Pain

nonsecretory multiple myeloma [Doster] 147 (Fe)
unusual oncocytic renal tumor with sarcomatoid foci and osteogenic differentiation [Young] 937 (Se)

Pancreatic Insufficiency

juvenile nephropathy with calcification of basal ganglia and pancreatic insufficiency [Rasafat] 630 (Je)

Papanicolaou Smear

comparison of Papanicolaou's and Wright-Giemsa stains in examination of body fluids for Hodgkin's disease [Wilson] 612 (Je)

Paget's disease with extensive involvement of female genital tract initially detected by cervical cytomear [Costello] 941 (Se)

Papilloma

solitary condylomatous papilloma of bronchus [Trillo] 731 (Jy)

Papillomaviruses

solitary condylomatous papilloma of bronchus [Trillo] 731 (Jy)

Paplo

atherosclerosis and apoprotein E, enigmatic relationship [Gertz] 1048 (Oe)

Paraffin

detection of fungi in tissue sections by lectin histochemistry [Karayannopoulos] 746 (Jy)

immunostaining for leukocyte common antigen (letter) [Söderström] 483, (reply) [Wick] 484 (My)

leukocyte common antigen expression in lymphomas (letter) [Weiss] (reply) [Wick] 867 (Se)

radiohistology as new diagnostic method for barium granuloma [De Mascarel] 634 (Je)

Paraganglioma

comparison of paraganglioma, carcinoid tumor, and small-cell carcinoma of larynx [Googe] 809 (Au)

intravaginal paraganglia or intravaginal ectopic parathyroid tissue (letter) [Lattes] (reply) [Lack] 866 (Se)

urinary bladder paragangliomas, immunohistochemical study [Moyana] 70 (Ja)

Parainmunoglobulinemia see Paraproteinemia

Paranasal Sinus

sinus histiocytoma with massive lymphadenopathy, occurrence in identical twins with retroperitoneal disease [Marsh] 298 (Mr)

Paraproteinemia

biclonal IgM gammopathy in chronic lymphocytic leukemia [Schaffner] 206 (Fe)

nonsecretory multiple myeloma [Doster] 147 (Fe)

Paraproteins

biclonal IgM gammopathy in chronic lymphocytic leukemia [Schaffner] 206 (Fe)

nonsecretory multiple myeloma [Doster] 147 (Fe)

Parathyroid Diseases

ectopic parathyroid tissue within vagus nerve, incidence and possible clinical significance [Lack] 304 (Mr)

intravaginal paraganglia or intravaginal ectopic parathyroid tissue (letter) [Lattes] (reply) [Lack] 866 (Se)

Parathyroid Hormone

interobserver variability in collecting data from medical records [Beard] 594 (Je)

neuroendocrine differentiation in prostatic carcinomas, retrospective autopsy study [Turbat-Herrera] 1100 (No)

Parathyroid Neoplasms

papillary formation in parathyroid adenoma, source of possible diagnostic error [Sahin] 99 (Ja)

Parotid Gland

benign lymphoepithelial lesion of parotid gland in intravenous drug users [Smith] 742 (Jy)

salivary gland lymph nodes, site of lymphadenopathies and lymphomas associated with human immunodeficiency virus infection [Joachim] 1224 (De)

Parotid Neoplasms

membranous basal cell adenoma of parotid gland, malignant transformation in patient with multiple dermal cylindromas [Hyma] 209 (Fe)

PATHOBIOLOGY OF ATHEROSCLEROSIS - CONCEPTS AND PERSPECTIVES

Festschrift in tribute to Robert W. Wissler, PhD, MD [Buja] 973-1066 (Oe)

Pathology

computers in anatomic pathology, survey of California hospitals (Gomella] 1192 (De)

histological grading of neoplasms [Henson] 1091 (No)

histopathological and clinical correlations of cytostoma phyllodes [Murad] 752 (Jy)

idiopathic thrombocytopenic purpura in patients at risk for acquired immunodeficiency syndrome, histopathologic study, immunohistochemistry, and ultrastructural study on 6 spleens [Roussellet] 1242 (De)

impact of new features of laboratory information systems on quality assessment in anatomic pathology [Friedman] 1189 (De)

lasting contributions of Robert W. Wissler, PhD, MD, to pathology and to pathobiology of atherosclerosis (Glagov] 973 (Oe)

multistate regionalization of pathology services, Medical Arts Laboratory [Lambird] 948 (Se)

pathobiology of atherosclerosis, current concepts and perspectives, Festschrift in tribute to Robert W. Wissler, PhD, MD [Buja] 973 (Oe)

pathologist as physician executive, administrative medicine comes of age [Korpmann] 579 (Je)

pathology in 19th century at University of California [Cohen] 658 (Je)

practice of autopsy in Trieste (letter) [Giarelli] (reply) [Svendsen] 770 (Au)

proficiency testing in clinical cytogenetics, 1986 experience of College of American Pathologists [Hoeltge] 1085 (No)

regionalization of laboratory services at University of Utah Medical Center, Associated Regional and University Pathologists, Inc. (ARUP) [Matsen] 957 (Se)

teaching pathology in 21st century, experimental automated curriculum delivery system for basic pathology [Woods] 852 (Au)

Patients

so duplicate chemistry profiles correlate with multiple physicians, let's not blame doctors! [Speicher] 235 (Mr)

test-ordering by multiple physicians increases unnecessary laboratory examinations [Valenstein] 238 (Mr)

Peanuts

cholesterol vehicle in experimental atherosclerosis, brief review with special reference to peanut oil [Kritchevsky] 1041 (Oe)

Penicillin G

effect of prompt inoculation on results of seceptor system minimal inhibitory concentration determinations for *Listeria monocytogenes* [Dillon] 163 (Fe)

Penicillins

disseminated penicilliosis in patient with acquired immunodeficiency syndrome [Piehl] 1262 (De)

in vitro inactivation of aminoglycosides by cephalosporin antibiotics [Wright] 526 (My)

Penicillium

disseminated penicilliosis in patient with acquired immunodeficiency syndrome [Piehl] 1262 (De)

Penile Induration

childhood fibrous tumor with psammoma bodies, clinicopathologic features in 2 cases [Rosenthal] 798 (Au)

Pennsylvania

survey of special practices associated with College of American Pathologists proficiency testing in Commonwealth of Pennsylvania [Cembrowski] 374 (Ap)

Periarteritis Nodosa

isolated polyarteritis of testis in hairy-cell leukemia [Lies] 646 (Je)

neurotizing arteritis of vermiform appendix, clinicopathologic study of 12 cases [Moyana] 738 (Jy)

Pericardial Effusion

cytogenetic study of Kaposi's sarcoma associated with acquired immunodeficiency syndrome [Saikevych] 825 (Au)

Perinatology

causes of morbidity and mortality among infants born at term [Rosenthal] 178 (Fe)

Perineum

Paget's disease with extensive involvement of female genital tract initially detected by cervical cytomear [Costello] 941 (Se)

Periodic Acid-Schiff Reaction see Histochemistry

Peritoneal Neoplasms

malignant peritoneal mesothelioma in childhood [Armstrong] 1159 (No)

Peritonitis

mesenteric venous thrombosis due to antithrombin III deficiency [Maung] 37 (Ja)

Peroxidases

glycoconjugate expression in human renal oncocytomas, lectin histochemical study [Ehle] 805 (Au)

human chorionic gonadotropin expression in lung, breast, and renal carcinomas [Kuida] 282 (Mr)

immunocytochemical identification of *Campylobacter pylori* in gastritis and correlation with culture [Barbosa] 523 (My)

immunocytochemical localization of synaptophysin in human hypophyses and pituitary adenomas [Stefaneanu] 801 (Au)

immunostaining for leukocyte common antigen (letter) [Söderström] 483, (reply) [Wick] 484 (My)

lectin histochemistry of uterine adenocarcinomas [Yen] 791 (Au)

neuron-specific enolase reactivity in hyperplasia and neoplasms of thyroid (letter) [Tseloni-Balaouta] 115 (Fe)

use of technion H-1 in characterization of leukemias [Krause] 889 (Se)

Peyronie's Disease see Penile Induration

Phenothiazines

comparison of Papanicolaou's and Wright-Giemsa stains in examination of body fluids for Hodgkin's disease [Wilson] 612 (Je)

Pneumocystis carinii in sputum, comparable efficacy of screening stains and determination of cyst density [Blumenfeld] 816 (Au)

Phlegmasia Alba Dolens see Thrombophlebitis

Phosphorypyruvate hydratase

comparison of Papanicolaou, carcinoid tumor, and small-cell carcinoma of larynx [Googe] 809 (Au)

neuroendocrine differentiation in prostatic carcinomas, retrospective autopsy study [Turbat-Herrera] 1100 (No)

neuron-specific enolase reactivity in hyperplasia and neoplasms of thyroid (letter) [Tseloni-Balaouta] 115 (Fe)

Physicians

pathologist as physician executive, administrative medicine comes of age [Korpmann] 579 (Je)

physician office analyzers, do they satisfy medically useful criteria for analytical performance of laboratory tests? [Nanjai] 757 (Jy)

so duplicate chemistry profiles correlate with multiple physicians, let's not blame doctors! [Speicher] 235 (Mr)

test-ordering by multiple physicians increases unnecessary laboratory examinations [Valenstein] 238 (Mr)

Physicians' Offices see Health Facilities

Pituitary Gland

immunocytochemical localization of synaptophysin in human hypophyses and pituitary adenomas [Stefaneanu] 801 (Au)

Placenta

IgM antitrophoblast antibodies in patient with pregnancy-associated lupuslike disorder, vasculitis, and recurrent intrauterine fetal demise, 191 (Fe)

Plants, Edible

cholesterol vehicle in experimental atherosclerosis, brief review with special reference to peanut oil [Kritchevsky] 1041 (Oe)

Plasma Cell Dyscrasias see Paraproteinemia

Plasminogen

lipoprotein (a), potential bridge between fields of atherosclerosis and thrombosis [Scanu] 1045 (Oe)

Pleural Effusion

pleural amyloidosis [Knapp] 57 (Ja)

Ploides

immunohistochemical detection of ras oncogene product p21 in advanced ovarian cancer, lack of correlation with clinical outcome [Rodenburg] 151 (Fe)

Pneumoconiosis

diseases associated with exposure to silica and nonfibrous silicate minerals [Silicosis and Silicate Disease Committee] 673 (Jy)

Pneumocystis carinii

disseminated penicilliosis in patient with acquired immunodeficiency syndrome [Piehl] 1262 (De)

opportunistic carcinomas in patients with immunodeficiency syndromes [Purtilo] 111-1123 (De); correction, 112-234 (Mr)

Pneumonia

cure of *Coccidioides immitis* pneumonia by amphotericin B in patient with megakaryocytic leukemia (letter) [Baker] 1178 (De)

lung biopsy in chronic lymphocytic leukemia [Rollins] 607 (Je)

Pseudomonas cepacia-associated pneumonia in cystic fibrosis, relation of clinical features to histopathologic patterns of pneumonia [Tomaszefski] 166 (Fe)

xanthomatous bronchiolitis obliterans with cholesterol pneumonia [Hoffelinger] 550 (Je)

Pneumonia, Pneumocystis carinii

Pneumocystis carinii in sputum, comparable efficacy of screening stains and determination of cyst density [Blumenfeld] 816 (Au)

sputum examination in diagnosis of *Pneumocystis carinii* pneumonia in acquired immunodeficiency syndrome [de Rio] 1229 (De)

Polyarteritis Nodosa see Periarteritis Nodosa

Polyomaviruses

progressive multifocal leukoencephalopathy and retroviral encephalitis in acquired immunodeficiency syndrome [Rhodes] 1207 (De)

Predictive Value of Tests

acridine orange as screen for organisms in clinical specimens and comparison with Gram's stain [Hanes] 529 (My)

Prednisone

in situ DNA hybridization for cytomegalovirus in colonic biopsies [Roberts] 1106 (No)

Pregnancy

isolation of genital mycoplasmas and *Chlamydia trachomatis* in stillborn and neonatal autopsy material [Madan] 749 (Jy)

specificity of trophoblast-reactive antibodies in human pregnancy [Cheng] (reply) [Kemp] 1081 (No)

Preleukemia

eosinophilia as precursor of acute myelomonocytic leukemia (letter) [Xavier] 577 (Je)

Proctitis

benign lymphoepithelial lesion of parotid gland in intravenous drug users [Smith] 742 (Jy)

Probability

evaluating diagnostic performance of clinical tests by spreadsheet modeling, Bayesian analysis using R/C ratio as unifying concept [Krieg] 588 (Je)

Proenzymes see Enzyme Precursors

Professional Competence

clinical purposes of laboratory testing [Diamond] 377 (Ap)

Prognosis

immunohistochemical detection of ras oncogene product p21 in advanced ovarian cancer, lack of correlation with clinical outcome [Rodenburg] 151 (Fe)

soluble interleukin 2 receptors in patients with malignant lymphoma [Harrington] 597 (Je)

Programmed Instruction, Computerized see Computer Assisted Instruction

Properdin Factor B see Enzyme Precursors

Prostaglandins see Prostaglandins X

Prostaglandins

differential prostacyclin production by human umbilical vasculature [Harold] 43 (Ja)

Prostate

effect of digital rectal examination on serum levels of prostate-specific antigen [Brawer] 1110 (No)

prostate specific antigen and acid phosphatase-reactive cells in cystitis cystica and glandularis [Nowels] 734 (Jy)

prune-belly syndrome with prostatic hypoplasia, bladder wall rupture, and massive ascites in fetus with trisomy 15 [Hogdland] 1126 (No)

Prostatic Neoplasms

neuroendocrine differentiation in prostatic carcinomas, retrospective autopsy study [Turbat-Herrera] 1100 (No)

neuroendocrine differentiation and prostatic carcinoma, concept comes of age [di Sant'Agnes] 1097 (No)

Protease Inhibitors

bile duct adenomas in heterozygous (MZ) deficiency of α_1 protease inhibitor [Scheele] 945 (Se)

Protein C

antithrombin III, protein C, and protein S, naturally

occurring anticoagulant proteins [High] 28 (Ja)

Protein Deficiency
protein S deficiency (letter) [Dix] (reply) [High] 1082 (No)

Proteins
antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)
protein S deficiency (letter) [Dix] (reply) [High] 1082 (No)

Proteinuria
renal glomerular and tubular abnormalities in glycogen storage disease type I [Verani] 271 (Mr)

Proteoglycans
arterial wall injury and proteoglycan changes in atherosclerosis [Berenson] 1002 (Oc)

Protrombin
antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Prune Belly Syndrome
prune-belly syndrome with prostatic hypoplasia, bladder wall rupture, and massive ascites in fetus with trisomy 18 [Hogland] 1126 (No)

Pruritus
Paget's disease with extensive involvement of female genital tract initially detected by cervical cytosear [Costello] 941 (Se)

Pseudomonas
Pseudomonas cepacia-associated pneumonia in cystic fibrosis, relation of clinical features to histopathologic patterns of pneumonia [Tomasefski] 166 (Fe)

Public Health
autopsy patterns in patients dying of acquired immunodeficiency syndrome in New York City [Wilkes] 1221 (De)

Public Policy
federal regulation of clinical laboratories, prospective public policy analysis [Hammond] 363 (Ap)
technology assessment in medicine, role of American Medical Association [McGivney] 1181 (De)

Pulmonary Abscess
Pulmonary Abscess
diseases associated with exposure to silica and nonfibrous silicate minerals [Silicosis and Silicate Disease Committee] 673 (Jy)

Purpura, Thrombocytopenic
idiopathic thrombocytopenic purpura in patients at risk for acquired immunodeficiency syndrome, histopathologic study, immunohistochemistry, and ultrastructural study on 6 spleens [Rousselet] 1242 (De)

Pyelonephritis
xanthogranulomatous pyelonephritis, reappraisal and immunohistochemical study [Antonakopoulos] 275 (Mr)

Q

Quality Assurance, Health Care
cholesterol measurements, quality assurance and medical usefulness interrelationships [Oxley] 387 (Ap)

College of American Pathologists conference XIII
on evaluation of proficiency testing results for quantitative methods in relation to clinical usefulness, introduction [Hartmann] 327; concluding remarks [Glenn] 471; review and comments [Hartmann] 473 (Ap)

evaluating laboratory performance, historical and governmental perspectives [Boone] 354 (Ap)
evaluation of ability of proficiency testing programs to determine intralaboratory performance, peer group statistics vs clinical usefulness limits [Ehrmeyer] 444 (Ap)

evaluation of clinical accuracy of laboratory tests [Zweig] 383 (Ap)
evolution of evaluation criteria in College of American Pathologists surveys [Ross] 334 (Ap)

impact of new features of laboratory information systems on quality assessment in anatomic pathology [Friedman] 1189 (De)
importance of effective proficiency testing program to regulation of clinical laboratories, view from 1 state [Bartola] 368 (Ap)

internal quality control, proficiency testing, and clinical relevance of laboratory testing [Kafka] 449 (Ap)
interobserver variability in collecting data from medical records [Beard] 594 (Je)

medical relevance of laboratory tests, clinical perspective [Watts] 379 (Ap)
Medicare and Clinical Laboratories Improvement Act of 1967 proficiency testing requirements and its relationship to private sector [Edinger] 357 (Ap)

multiprogram characterization of laboratory bias, precision, and total error, proposal for improved assessment with shared external and expanded internal (regional) quality control pools [Lawson] 454 (Ap)
pathologist as physician executive, administrative medicine comes of age [Korman] 579 (Je)

physician office analyzer (letter) [Scamurra] 1083 (No)
proficiency testing programs—promises, progress, and problems, 40-year prospective [Laessig] 329 (Ap)

proficiency testing, its role in voluntary clinical laboratory accreditation program [Duckworth] 346 (Ap)
proposed goals for analytical precision and accuracy in single-point diagnostic testing, theoretical basis and comparison with data from College of American Pathologists proficiency surveys [Harris] 416 (Ap)

statistical procedure for measuring and evaluating performance in interlaboratory comparison programs [Tholen] 462 (Ap)
surgical pathology computer systems have come of age [Aller] 1186 (De)

survey of special practices associated with College of American Pathologists proficiency testing in Commonwealth of Pennsylvania [Cembrowski] 374 (Ap)
theoretical basis for clinically relevant proficiency testing evaluation limits, sensitivity analysis of effect of inherent test variability on acceptable method error [Ross] 421 (Ap)

user's classification of problems identified by proficiency testing surveys [Klee] 371 (Ap)

ways of assessing quality goals for diagnostic tests in clinical situations [Peterson] 435 (Ap)

Quality Control
application of theoretical goals based on biological variation data in proficiency testing [Fraser] 404 (Ap)
caution advised in physician office analyzer evaluations (letter) [Ross] 1082, (reply) [Nanji] 1083 (No)

College of American Pathologists conference XIII
on evaluation of proficiency testing results for quantitative methods in relation to clinical usefulness, introduction [Hartmann] 327; concluding remarks [Glenn] 471; review and comments [Hartmann] 473 (Ap)

College of American Pathologists conferences [Langdell] 319 (Ap)
evaluating laboratory performance, historical and governmental perspectives [Boone] 354 (Ap)

evaluation of ability of proficiency testing programs to determine intralaboratory performance, peer group statistics vs clinical usefulness limits [Ehrmeyer] 444 (Ap)
evaluation of clinical accuracy of laboratory tests [Zweig] 383 (Ap)

evolution of evaluation criteria in College of American Pathologists surveys [Ross] 334 (Ap)
federal regulation of clinical laboratories, prospective public policy analysis [Hammond] 363 (Ap)

importance of effective proficiency testing program to regulation of clinical laboratories, view from 1 state [Bartola] 368 (Ap)
internal quality control, proficiency testing, and clinical relevance of laboratory testing [Kafka] 449 (Ap)

medical relevance of laboratory tests, clinical perspective [Watts] 379 (Ap)

Medicare and Clinical Laboratories Improvement Act of 1967
proficiency testing requirements and its relationship to private sector [Edinger] 357 (Ap)

multiprogram characterization of laboratory bias, precision, and total error, proposal for improved assessment with shared external and expanded internal (regional) quality control pools [Lawson] 454 (Ap)
multistate regionalization of pathology services, Medical Arts Laboratory [Lambird] 948 (Se)

nonparametric analysis method for evaluation of survey results, application to Ligand Assay Survey [Klee] 399 (Ap)
overall role of proficiency testing program [Rippey] 340 (Ap)

physician office analyzer (letter) [Scamurra] 1083 (No)
physician office analyzers, do they satisfy medically useful criteria for analytical performance of laboratory tests? [Nanji] 1082 (Jy)

proficiency testing of enzymes, charting the way toward standardization [Lott] 392 (Ap)
proficiency testing programs—promises, progress, and problems, 40-year prospective [Laessig] 329 (Ap)

proficiency testing, its role in voluntary clinical laboratory accreditation program [Duckworth] 346 (Ap)
proposed goals for analytical precision and accuracy in single-point diagnostic testing, theoretical basis and comparison with data from College of American Pathologists proficiency surveys [Harris] 416 (Ap)

statistical procedure for measuring and evaluating performance in interlaboratory comparison programs [Tholen] 462 (Ap)
theoretical basis for clinically relevant proficiency testing evaluation limits, sensitivity analysis of effect of inherent test variability on acceptable method error [Ross] 421 (Ap)

use of proficiency test performance to determine clinical laboratory director qualifications [Howanitz] 349 (Ap)
user's classification of problems identified by proficiency testing surveys [Klee] 371 (Ap)

ways of assessing quality goals for diagnostic tests in clinical situations [Peterson] 435 (Ap)

Quality of Health Care
clinical purposes of laboratory testing [Diamond] 377 (Ap)
community hospital-based regional laboratory service, Royal Inland Hospital regional laboratory service [Martin] 950 (Se)

evaluating laboratory performance, historical and governmental perspectives [Boone] 354 (Ap)
multistate regionalization of pathology services, Medical Arts Laboratory [Lambird] 948 (Se)

so duplicate chemistry profiles correlate with multiple physicians, let's not blame doctors! [Speicher] 235 (Mr)
test-ordering by multiple physicians increases unnecessary laboratory examinations [Valenstein] 238 (Mr)

use of proficiency test performance to determine clinical laboratory director qualifications [Howanitz] 349 (Ap)

Questionnaires
proficiency testing of enzymes, charting the way toward standardization [Lott] 392 (Ap)

survey of special practices associated with College of American Pathologists proficiency testing in Commonwealth of Pennsylvania [Cembrowski] 374 (Ap)

R

Rabbits
animal models and study of atherosclerosis [Vesselinovitch] 1011 (Oc)

Radiography
lung biopsy in chronic lymphocytic leukemia [Rollins] 607 (Ja)

radiohistology as new diagnostic method for barium granuloma [De Mascarel] 634 (Je)
targeting of cancer with radiolabeled antibodies, prospects for imaging and therapy [Goldenberg] 580 (Je)

Radiolabel
diffusional prostacyclin production by human umbilical vasculature [Harold] 43 (Ja)

immunoassay, innovations in label technology [Howanitz] 775 (Au)
interference in immunoassayometric assays caused by IgM anti-mouse IgG antibodies [McCarthy] 901 (Se)

revised nomenclature for tests of thyroid hormones and thyroid-related proteins in serum [Larsen] 111:1141 (De); correction, 112:132 (Fe)

Radiology
nonsecretory multiple myeloma [Doster] 147 (Fe)

Radiotherapy
late recurrence (33 years) of gastric epithelioid stromal tumor (leiomyoblastoma) with low malignant potential [Miller] 86 (Ja)

squamous cell carcinoma of ovary (letter) [Chen] 114 (Fe)

Ras Genes
immunohistochemical detection of ras oncogene product p21 in advanced ovarian cancer, lack of correlation with clinical outcome [Rodenbury] 151 (Fe)

Reagents see Indicators and Reagents

Receptors, Thyrotropin
revised nomenclature for tests of thyroid hormones and thyroid-related proteins in serum [Larsen] 111:1141 (De); correction, 112:132 (Fe)

Rectum
effect of digital rectal examination on serum levels of prostatic-specific antigen [Brawer] 1110 (No)

Reference Standards
community hospital-based regional laboratory service, Royal Inland Hospital regional laboratory service [Martin] 950 (Se)

how and why of accuracy base for proficiency testing programs [Welch] 343 (Ap)
medical center-based tertiary reference laboratory, experience at Mayo Medical Laboratories (MML) [O'Sullivan] 953 (Se)

Reference Values
medical relevance of laboratory tests, clinical perspective [Watts] 379 (Ap)

Registries
grading of tumors (letter) [Henson] 769 (Au)

Reimbursement Mechanisms
Consultative Laboratory Assessment System, CLAS profile [Hosty] 1203 (De)

medical center-based tertiary reference laboratory, experience at Mayo Medical Laboratories (MML) [O'Sullivan] 953 (Se)
Medicare and Clinical Laboratories Improvement Act of 1967 proficiency testing requirements and its relationship to private sector [Edinger] 357 (Ap)

Research
lasting contributions of Robert W. Wissler, PhD, MD, to pathology and to pathobiology of atherosclerosis [Glagov] 973 (Oc)

technology assessment in medicine, role of American Medical Association [McGivney] 1181 (De)

Research Design
application of theoretical goals based on biological variation data in proficiency testing [Fraser] 404 (Ap)

interobserver variability in collecting data from medical records [Beard] 594 (Je)
theoretical basis for clinically relevant proficiency testing evaluation limits, sensitivity analysis of effect of inherent test variability on acceptable method error [Ross] 421 (Ap)

ways of assessing quality goals for diagnostic tests in clinical situations [Peterson] 435 (Ap)

Respiratory Failure see Respiratory Insufficiency

Respiratory Insufficiency
brown adipose tissue in Duchenne's progressive muscular dystrophy [Ho] 550 (My)

Reticulum
epithelioid germinal centers in overwhelming childhood infections, aftermath of nonspecific destruction of follicular B cells by natural killer cells [Severson] 917 (Se)

Retroperitoneal Space
sinus histiocytosis with massive lymphadenopathy, occurrence in identical twins with retroperitoneal disease [Marsh] 296 (Mr)

Reverse Transcriptase
survival of human immunodeficiency virus in blood culture systems [Hodinka] 1251 (De)

Risk
acquired immunodeficiency syndrome and clinical laboratory worker (letter) [Godfrey] (reply) [Gottfried] (editorial comment) [McClendon] 482 (My)

Risk Factors
idiopathic thrombocytopenic purpura in patients at risk for acquired immunodeficiency syndrome, histopathologic study, immunohistochemistry, and ultrastructural study on 6 spleens [Rousselet] 1242 (De)

origins of human atherosclerotic plaques, role of altered gene expression [Benditt] 997 (Oc)

RNA
origins of human atherosclerotic plaques, role of altered gene expression [Benditt] 997 (Oc)

survival of human immunodeficiency virus in blood culture systems [Hodinka] 1251 (De)

RNA-Dependent DNA Polymerase see Reverse Transcriptase

S

Salivary Gland Neoplasms
adenomyoepithelioma of breast [Jahi] 73 (Ja)

skeletal myxoid chondrosarcoma with microtubular aggregates within rough endoplasmic reticulum [Wolford] 77 (Ja)

Salivary Glands
benign lymphoepithelial lesion of parotid gland in intra-

- venous drug users [Smith] 742 (Jy)
- salivary gland lymph nodes, site of lymphadenopathies and lymphomas associated with human immunodeficiency virus infection [Joachim] 1224 (De)
- Sarcoma**
- immunohistochemical evaluation of leu-7, myelin basic protein, S100 protein, glial-fibrillary acidic protein, and LNB immunoreactivity in nerve sheath tumors and sarcomas [Johnson] 155 (Fe)
- malignant peripheral nerve sheath tumor and pheochromocytoma, composite tumor of adrenal [Min] 266 (Mr)
- unusual oncogenic renal tumor with sarcomatoid foci and osteogenic differentiation [Young] 937 (Se)
- Sarcoma, Kaposi's**
- benign vascular proliferation in lymph node following acute toxoplasmosis, differential diagnosis from Kaposi's sarcoma [Rousselet] 1264 (De)
- classic and immunodeficiency-associated Kaposi's sarcoma, clinical, histologic, and immunologic correlations, [Santucci] 1214 (De)
- cytogenetic study of Kaposi's sarcoma associated with acquired immunodeficiency syndrome [Saitkevich] 525 (Au)
- opportunistic cancers in patients with immunodeficiency syndromes [Purtillo] 111:123 (De); correction, 112:224 (Mr)
- pathogenetic role of HIV infection in Kaposi's sarcoma of Equatorial East Africa [Craighead] 259 (Mr)
- Schools, Medical**
- pathology in 19th century at University of California [Cohen] 658 (Je)
- Schwann Cells**
- immunohistochemical evaluation of leu-7, myelin basic protein, S100 protein, glial-fibrillary acidic protein, and LNB immunoreactivity in nerve sheath tumors and sarcomas [Johnson] 155 (Fe)
- Sclerid**
- evolution of hepatocellular carcinoma associated with chronic hepatitis B virus infection in Alaskan Eskimos [Popper] 498 (My)
- Scleroderma, Systemic**

- proposed goals for analytical precision and accuracy in single-point diagnostic testing, theoretical basis and comparison with data from College of American Pathologists proficiency surveys [Harris] 416 (Ap)
- Soft Tissue Neoplasms**
- childhood fibrous tumor with psammoma bodies, clinicopathologic features in 2 cases [Rosenthal] 798 (Au)
- Software**
- evaluating diagnostic performance of clinical tests by spreadsheet modeling, Bayesian analysis using Ri/Cj ratio as unifying concept [Krieg] 588 (Je)
- surgical pathology computer systems have come of age [Aller] 1186 (De)
- Spectrometry, Mass** see **Spectrum Analysis, Mass**
- Spectrum Analysis, Mass**
- how and why of accuracy base for proficiency testing programs [Welch] 343 (Ap)
- Spleen**
- idiopathic thrombocytopenic purpura in patients at risk for acquired immunodeficiency syndrome, histopathologic study, immunohistochemistry, and ultrastructural study on 6 spleens [Rousselet] 1242 (De)
- Spondylitis, Ankylosing**
- inflammatory aneurysm of aorta, aortitis, and coronary arteritis [Cohle] 1121 (No)
- Sputum**
- disseminated penicilliosis in patient with acquired immunodeficiency syndrome [Piehl] 1262 (De)
- sputum examination in diagnosis of *Pneumocystis carinii* pneumonia in acquired immunodeficiency syndrome [del Rio] 1229 (De)
- Stains and Staining**
- acquired von Willebrand's syndrome associated with extranodal pulmonary lymphoma [Rao] 47 (Ja)
- acridine orange as screen for organisms in clinical specimens and comparison with Gram's stain [Hanes] 529 (My)
- anti-leu-3a antibody reactivity with Reed-Sternberg cells of Hodgkin's disease [Oka] 139 (Fe)
- biclonal IgM gammopathy in chronic lymphocytic leukemia [Schaffner] 206 (Fe)
- carcinoid tumor of stomach with features of midgut tumor [Quinones] 838 (Au)
- classic discovery of hepatic fibrosis in patient with asymptomatic hypervitaminosis A [Boulac-Sage] 505 (My)
- characterization of glomeruli by immunohistochemistry and electron microscopy in case of Wilms' tumor [Payton] 536 (My)
- chordoma, immunohistochemical study of 20 cases [Meia] 553 (My)
- clear-cell epithelial neoplasms of large intestine [Jewell] 197 (Fe)
- comparison of Papanicolaou's and Wright-Giemsa stains in examination of body fluids for Hodgkin's disease [Wilson] 612 (Je)
- comparison of paraganglioma, carcinoid tumor, and small-cell carcinoma of larynx [Gooze] 809 (Au)
- cytoplasmic granular change of Sertoli cells in 2 cases of Sertoli-cell-only syndrome [Wong] 200 (Fe)
- dermatopathic lymphadenitis, spectrum and significance of its morphologic features [Gould] 1145 (No)
- desmoplastic malignant melanoma, clinicopathologic study of 14 cases [Walsh] 922 (Se)
- detection of factor VIII von Willebrand factor in endothelial cells in first-trimester fetuses [Travis] 40 (Ja)
- differential prostacyclin production by human umbilical vasculature [Harold] 45 (Ja)
- disseminated penicilliosis in patient with acquired immunodeficiency syndrome [Piehl] 1262 (De)
- disseminated toxoplasmosis in acquired immunodeficiency syndrome [Tschirhart] 1237 (De)
- distribution of fuscosubstances in kidney and related neoplasms, absence of lectin-reactive α -fucose from vasculature of bilateral Wilms' tumors [Hennigar] 908 (Se)
- epithelioid germinal centers in overwhelming childhood infections, aftermath of nonspecific destruction of follicular B cells by natural killer cells [Severan] 917 (Se)
- glycoconjugate expression in human renal oncocytomas, lectin histochemical study [Eble] 805 (Au)
- hepatic hyaline globules associated with passive congestion [Klatt] 510 (My)
- immunoblotting and dot immunobinding, emerging techniques in protein immunohistochemistry [Renner] 780 (Au)
- immunocytochemical identification of *Campylobacter pylori* in gastritis and correlation with culture [Barbosa] 523 (My)
- immunohistochemical detection of *ras* oncogene product p21 in advanced ovarian cancer, lack of correlation with clinical outcome [Rodenburg] 151 (Fe)
- immunohistochemical diagnosis of stromal melanoma, carcinoma, and neuroblastoma with monoclonal antibodies HMB-45 and anti-synaptophysin [Wick] 616 (Je)
- immunohistochemical studies on local antitumor effects of streptococcal immunopotentiator, OK-432, in human solid malignant tumors [Sugeno] 545 (My)
- immunostaining for leukocyte common antigen (letter) [Söderström] 483, (reply) [Wick] 484 (My)
- involucrin (letter) [Walta] 578 (Je)
- neuron-specific enolase reactivity in hyperplasia and neoplasms of thyroid (letter) [Tseloni-Balafouta] 115 (Fe)
- nonsecretory multiple myeloma [Doster] 147 (Fe)
- origin of granules in granular cell tumor, intracellular myelin formation with autolysosomes [Mittal] 302 (Mr)
- Pneumocystis carinii* in sputum, comparable efficacy of screening stains and determination of cyst density [Blumenfeld] 816 (Au)
- primary mucin-secreting adenocarcinoma of kidney [Grierson] 847 (Au)
- progressive multifocal leukoencephalopathy and retroviral encephalitis in acquired immunodeficiency syndrome [Rhodes] 1207 (De)
- prostate specific antigen and acid phosphatase-reactive cells in cystitis cystica and glandularis [Nowels] 734 (Jy)
- radiohistology as new diagnostic method for barium granuloma [De Mascarel] 534 (Je)
- solitary condylomatous papilloma of bronchus [Trillo] 731 (Jy)
- use of Nile red stain in detection of cholesteryl ester accumulation in acid lipase-deficient fibroblasts [Brown] 285 (Mr)
- varicella-zoster virus leukoencephalitis and cerebral vasculopathy [Morgello] 173 (Fe)
- Standard Preparations** see **Reference Standards**
- Standards, Reference** see **Reference Standards**
- Staphylococcal Protein A**
- acquired von Willebrand's syndrome associated with extranodal pulmonary lymphoma [Rao] 47 (Ja)
- Staphylococcus**
- comparative leukocyte esterase-nitrite and BAC-T-SCREEN studies using single and multiple urine volumes [Damato] 533 (My)
- Staphylococcus aureus**
- acridine orange as screen for organisms in clinical specimens and comparison with Gram's stain [Hanes] 529 (My)
- Statistics**
- application of theoretical goals based on biological variation data in proficiency testing [Fraser] 494 (Ap)
- evaluation of ability of proficiency testing programs to determine intralaboratory performance, peer group statistics vs clinical usefulness limits [Ehrmeyer] 444 (Ap)
- evolution of evaluation criteria in College of American Pathologists surveys [Rose] 334 (Ap)
- interobserver variability in collecting data from medical records [Reard] 594 (Je)
- multiprogram characterization of laboratory bias, precision, and total error, proposal for improved assessment with shared external and expanded internal (regional) quality control pools [Lawson] 454 (Ap)
- statistical procedure for measuring and evaluating performance in interlaboratory comparison programs [Tholen] 462 (Ap)
- theoretical basis for clinically relevant proficiency testing evaluation limits, sensitivity analysis of effect of inherent test variability on acceptable method error [Ross] 421 (Ap)
- Stearic Acid**
- cholesterol vehicle in experimental atherosclerosis, brief review with special reference to peanut oil [Kritchevsky] 1041 (Ce)
- Steroids**
- lung biopsy in chronic lymphocytic leukemia [Rollins] 607 (Je)
- Stillbirth** see **Fetal Death**
- Stomach**
- late-stage cervical cyst containing gastric epithelium [Gosain] 96 (Ja)
- Stomach Neoplasms**
- carcinoid tumor of stomach with features of midgut tumor [Quinones] 838 (Au)
- characterization of glomeruli by immunohistochemistry and electron microscopy in case of Wilms' tumor [Payton] 536 (My)
- concomitant presence of inflammatory fibroid polyp and carcinoma or adenoma in stomach [Mori] 829 (Au)
- late recurrence (33 years) of gastric epithelioid stromal tumor (leiomyoblastoma) with low malignant potential [Miller] 86 (Ja)
- malignant fibrous histiocytoma of stomach, report and review of malignant fibrohistiocytic tumors of alimentary tract [Wright] 251 (Mr)
- malignant fibrous histiocytoma, nonspecific morphologic pattern, specific pathologic entity, or both? [Dehner] 236 (Mr)
- Streptococcus**
- comparative leukocyte esterase-nitrite and BAC-T-SCREEN studies using single and multiple urine volumes [Damato] 533 (My)
- immunohistochemical studies on local antitumor effects of streptococcal immunopotentiator, OK-432, in human solid malignant tumors [Sugeno] 545 (My)
- sudden death due to left coronary artery occlusion in infective endocarditis [Dowling] 392 (Se)
- Submandibular Gland**
- salivary gland lymph nodes, site of lymphadenopathies and lymphomas associated with human immunodeficiency virus infection [Joachim] 1224 (De)
- Submaxillary Gland** see **Submandibular Gland**
- Substance Abuse**
- benign lymphoepithelial lesion of parotid gland in intravenous drug users [Smith] 742 (Jy)
- systemic tale granulomatosis associated with disseminated histoplasmosis in drug abuser [Racela] 557 (My)
- Sudden Infant Death**
- anomalous right coronary artery origin in otherwise unexplained infant death [Ness] 626 (Je)
- astute bodies in children's lungs, association with sudden infant death syndrome and bronchopulmonary dysplasia [Haque] 514 (My)
- Suppressor Cells**
- classic and immunodeficiency-associated Kaposi's sarcoma, clinical, histologic, and immunologic correlations, [Santucci] 1214 (De)
- OKT4 epitope deficiency and acquired immunodeficiency syndrome (AIDS) (letter) [Ghosh] (reply) [McCurley] 5 (Ja)
- Suramin**
- production of positive direct antiglobulin test due to suramin [Jamin] 898 (Se)
- Surgery, Pathology**
- surgical pathology computer systems have come of age [Aller] 1186 (De)
- Survival**
- histological grading of neoplasms [Henson] 1091 (No)
- Sweet Glands**
- membranous basal cell adenoma of parotid gland, malignant transformation in patient with multiple dermal cylindromas [Hyma] 209 (Fe)
- Swine**
- animal models and study of atherosclerosis [Vesselinovich] 1011 (Ce)
- Synovium**
- intravascular papillary endothelial hyperplasia involving synovium [Eichhorn] 647 (Je)

T

Talc
systemic talc granulomatosis associated with disseminated histoplasmosis in drug abuser [Racela] 567 (My)

Tanzania
pathogenic role of HIV infection in Kaposi's sarcoma of Equatorial East Africa [Craighead] 259 (Mr)

TEACHING PATHOLOGY AND LABORATORY MEDICINE
teaching pathology in 21st century, experimental automated curriculum delivery system for basic pathology [Woods] 852 (Au)

Technetium
targeting of cancer with radiolabeled antibodies, prospects for imaging and therapy [Goldenberg] 580 (Je)

Technology, Medical
technology assessment in medicine, role of American Medical Association [McGivney] 1181 (De)

Technology Assessment, Biomedical
technology assessment in medicine, role of American Medical Association [McGivney] 1181 (De)

Technology, Medical
alternatives to neutrophil band count [Bentley] 883 (Se)
federal regulation of clinical laboratories, prospective public policy analysis [Hammond] 363 (Ap)
impact of new features of laboratory information systems on quality assessment in anatomic pathology [Friedman] 1188 (De)

Teratoma
squamous cell carcinoma of ovary (letter) [Chen] 114 (Fe)

Testicular Neoplasms
absence of intratubular germ cell neoplasia in testicular yolk sac tumors in children, histochemical and immunohistochemical study [Manivel] 641 (Je)
isolated polyarthritis of testis in hairy-cell leukemia [Llie] 646 (Je)
juvenile granulosa cell tumor of testis [Nistal] 1129 (No)

Tetracycline
identification and antimicrobial susceptibility testing of *Neisseria gonorrhoeae*, 1980-1987, results from College of American Pathologists Microbiology Surveys Program [Jones] 485 (My)

Thrombocytopenia, Hemorrhagic
cure of *Cervaria pneumoniae* by amphotericin B in patient with megakaryocytic leukemia (letter) [Brubaker] 1178 (De)

Thromboembolism
antithrombin III, protein C, and protein S, naturally occurring anticoagulant proteins [High] 28 (Ja)

Thrombophlebitis
mesenteric venous thrombosis due to antithrombin III deficiency [Maung] 37 (Ja)

Thrombosis
lipoprotein (a), potential bridge between fields of atherosclerosis and thrombosis [Scann] 1045 (Oc)

Thrombosis, Venous see Thrombophlebitis

Thymus Gland
influence of age on proliferation and peripheralization of thymic T cells [Hirokawa] 18 (Ja)

Thymus Hyperplasia
myoid cell differentiation in true thymic hyperplasia and lymphoid hyperplasia [Judd] 1140 (No)

Thyroid Diseases
immunocytochemistry of thyroid in surgical and cytologic specimens [Davila] 51 (Ja)
lactoferrin demonstration in thyroid follicular and papillary carcinomas (letter) [Barresi] (reply) [Bedrossian] 1176 (De)

Thyroid Function Tests
immunoassay, development and directions in antibody technology [Howanitz] 771 (Au)

Thyroid Neoplasms
immunohistochemical studies on local antitumor effects of streptococcal immunopotentiator, OK-432, in human solid malignant tumors [Sugenoya] 545 (My)
neuron-specific enolase reactivity in hyperplasia and neoplasms of thyroid (letter) [Tseleni-Balafouta] 115 (Fe)
primary myxoid chondrosarcoma of thyroid gland [Tseleni-Balafouta] 94 (Ja)

Thyroid Stimulating Hormone see Thyrotropin

Thyroiditis, Autoimmune
current concepts and diagnostic evaluation of autoimmune disease [Nakamura] 869 (Se)

Thyroiditis, Chronic see Thyroiditis, Autoimmune

Thyroiditis, Lymphocytic see Thyroiditis, Autoimmune

Thyroiditis, Lymphomatous see Thyroiditis, Autoimmune

Thyrotropin
immunoassay, development and directions in antibody technology [Howanitz] 771 (Au)
revised nomenclature for tests of thyroid hormones and thyroid-related proteins in serum [Larsen] 111:1141 (De); correction, 112:132 (Fe)
ways of assessing quality goals for diagnostic tests in clinical situations [Petersen] 435 (Ap)

Thyroxine
nonparametric analysis method for evaluation of survey results, application to Ligand Assay Survey [Klee] 399 (Ap)

Tobramycin
in vitro inactivation of aminoglycosides by cephalosporin antibiotics [Wright] 526 (My)

Toullidines
Pneumocystis carinii in sputum, comparable efficacy of screening stains and determination of cyst density [Blumenfeld] 816 (Au)

Tomography, X-Ray Computed
angiosarcoma of adrenal gland [Kareti] 1163 (No)

juvenile nephronphthias with calcification of basal ganglia and pancreatic insufficiency [Raafat] 630 (Je)

Toxicology
pathology and etiology of cocaine-induced heart disease [Karch] 225 (Mr)

Toxoplasma
pathology of heart in acquired immunodeficiency syndrome (AIDS) (letter) [Klatt] (reply) [Hensley] 114 (Fe)

Toxoplasmosis
benign vascular proliferation in lymph node following acute toxoplasmosis, differential diagnosis from Kaposi's sarcoma [Rousselet] 1264 (De)

Transcobalamin
expression of vitamin B₁₂ R-binder in breast tumors, immunohistochemical study [Ogawa] 1117 (No)

Transferrin
specificity of trophoblast-reactive antibodies in human pregnancy [Cheng] (reply) [Kemp] 1081 (No)

Transplantation
conjugated hyperbilirubinemia and renal function in bone marrow transplant recipients [Yasmin] 245 (Mr)
oligonucleotide probing, applications to HLA typing [Freeman] 22 (Ja)

Trifluorine see Toluidines

Triglycerides
physician office analyzer, evaluation of quality of results obtained by technical and nontechnical personnel [Nanj] 242 (Mr)

Trilodotryonine
revised nomenclature for tests of thyroid hormones and thyroid-related proteins in serum [Larsen] 111:1141 (De); correction, 112:132 (Fe)

Trisomy
prune-belly syndrome with prostatic hypoplasia, bladder wall rupture, and massive ascites in fetus with trisomy 18 [Hoagland] 1126 (No)

Trophoblast
specificity of trophoblast-reactive antibodies in human pregnancy [Cheng] (reply) [Kemp] 1081 (No)

Trypsin Inhibitor, Alpha 1-Antitrypsin see Alpha 1-Antitrypsin

TSH Receptors see Receptors, Thyrotropin

TSH see Thyrotropin

Tumor Markers, Biological
immunoassay, development and directions in antibody technology [Howanitz] 771 (Au)
targeting of cancer with radiolabeled antibodies, prospects for imaging and therapy [Goldenberg] 580 (Je)

Twins
sinus histiocytosis with massive lymphadenopathy, occurrence in identical twins with retroperitoneal disease [Marsh] 298 (Mr)

U

Umbilical Arteries
differential prostacyclin production by human umbilical vasculature [Harold] 43 (Ja)

Umbilical Veins
differential prostacyclin production by human umbilical vasculature [Harold] 43 (Ja)

United States
factor VIII assays, assessment of variables [Brandt] 7 (Ja)
proficiency testing, its role in voluntary clinical laboratory accreditation program [Duckworth] 346 (Ap)

United States Health Care Financing Administration
Medicare and Clinical Laboratories Improvement Act of 1967 proficiency testing requirements and its relationship to private sector [Edinger] 357 (Ap)

University of California
pathology in 19th century at University of California [Chen] 658 (Je)

Urea
physician office analyzer, evaluation of quality of results obtained by technical and nontechnical personnel [Nanj] 242 (Mr)

Ureter
xanthogranulomatous pyelonephritis, reappraisal and immunohistochemical study [Antonakopoulos] 275 (Mr)

Uric Acid
soluble interleukin 2 receptors in patients with malignant lymphoma [Harrington] 597 (Je)

Urine
comparative leukocyte esterase-nitrite and BAC-T-SCREEN studies using single and multiple urine volumes [Damato] 533 (My)
ingestion of megadoses of ascorbic acid will not produce 'clean' urine from marijuana smokers (letter) [Schwartz] 769 (Au)

Urogenital System
effect of digital rectal examination on serum levels of prostatic-specific antigen [Brawer] 1110 (No)
postoperative spindle-cell nodule of endometrium [Clement] 566 (My)
prune-belly syndrome with prostatic hypoplasia, bladder wall rupture, and massive ascites in fetus with trisomy 18 [Hoagland] 1126 (No)

Uterine Neoplasms
lectin histochemistry of uterine adenocarcinomas [Yen] 791 (Au)

V

Vaginal Diseases
Paget's disease with extensive involvement of female genital tract initially detected by cervical cytomear [Costello] 941 (Se)

Vaginal Smears
cervicovaginal psammoma bodies, initial presentation of ovarian borderline tumor [Qazi] 564 (My)

Paget's disease with extensive involvement of female genital tract initially detected by cervical cytomear [Costello] 941 (Se)

Vagus Nerve
ectopic parathyroid tissue within vagus nerve, incidence and possible clinical significance [Lack] 304 (Mr)
intravagal paraganglia or intravagal ectopic parathyroid tissue (letter) [Lattes] (reply) [Lack] 866 (Se)

Varicella-Zoster Virus
varicella-zoster virus leukoencephalitis and cerebral vasculopathy [Morgello] 173 (Fe)

Vasa Vasorum
development of vasa vasorum of human aorta in various conditions, morphometric study [Okuyama] 721 (Jy)
3-dimensional architecture of vasa vasorum in wall of human aorta, computer-aided reconstruction study [Okuyama] 726 (Jy)

Vasculitis
IgM antitrophoblast antibodies in patient with pregnancy-associated lupuslike disorder, vasculitis, and recurrent intrauterine fetal demise, 191 (Fe)
isolated polyarthritis of testis in hairy-cell leukemia [Llie] 646 (Je)
necrotizing arteritis of vermiform appendix, clinicopathologic study of 12 cases [Moyana] 738 (Jy)

Veins
3-dimensional architecture of vasa vasorum in wall of human aorta, computer-aided reconstruction study [Okuyama] 726 (Jy)

Venous Thrombosis see Thrombophlebitis

Venules see Veins

Video Recording
teaching pathology in 21st century, experimental automated curriculum delivery system for basic pathology [Woods] 852 (Au)

Videodisc Recording see Video Recording

Vimentin
chordoma, immunohistochemical study of 20 cases [Meis] 553 (My)
desmoplastic malignant melanoma, clinicopathologic study of 14 cases [Walsh] 922 (Se)
immunocytochemistry of thyroid in surgical and cytologic specimens [Davila] 51 (Ja)
malignant rhabdoid tumor of liver, evidence for epithelial differentiation [Parham] 61 (Ja)
metaplastic breast carcinoma (letter) [O'Kean] (reply) [Fascia] 578 (Je)
peripheral neuroepithelioma in childhood, immunohistochemical demonstration of epithelial differentiation [Shioda] 1155 (No)

VISTAS IN IMMUNOPATHOLOGY
current concepts and diagnostic evaluation of autoimmune disease [Nakamura] 869 (Se)
does immune response play role in pathogenesis of chronic liver disease? [Mondelli] 489 (My)
immunoassay, development and directions in antibody technology [Howanitz] 771 (Au)
immunoassay, innovations in label technology [Howanitz] 775 (Au)
immunoblotting and dot immunobinding, emerging techniques in protein immunochemistry [Renner] 780 (Au)
influence of age on proliferation and peripheralization of thymic T cells [Hirokawa] 18 (Ja)
molecular genetics and diagnosis of lymphoma [Cossman] 117 (Fe)
skin as immunologic organ [Shimada] 231 (Mr)
targeting of cancer with radiolabeled antibodies, prospects for imaging and therapy [Goldenberg] 580 (Je)

Vitamin B 12 Binding Proteins see Transcobalamin

Von Willebrand Factor
detection of factor VIII von Willebrand factor in endothelial cells in first-trimester fetuses [Travis] 40 (Ja)
use of high-dose intravenous γ -globulin in acquired von Willebrand syndrome [Macik] 143 (Fe)

von Willebrand's Disease
acquired von Willebrand's syndrome associated with extrapulmonary lymphoma [Rao] 47 (Ja)
factor VIII assays, assessment of variables [Brandt] 7 (Ja)
use of high-dose intravenous γ -globulin in acquired von Willebrand syndrome [Macik] 143 (Fe)

W

Wills' Tumor see Nephroblastoma

Wissler, Robert W (1917-)
lasting contributions of Robert W. Wissler, PhD, MD, to pathology and to pathobiology of atherosclerosis [Glagov] 973 (Oc)

Woodchucks see Sclerides

X

X Chromosome
proficiency testing in clinical cytogenetics, 1986 experience of College of American Pathologists [Hoeltge] 1085 (No)

Y

Y Chromosome
proficiency testing in clinical cytogenetics, 1986 experience of College of American Pathologists [Hoeltge] 1085 (No)

Yeasts
immunoidentification of *Histoplasma capsulatum* and *Blastomyces dermatitidis* with commercial exoantigen reagents, effect of culture age [Body] 519 (My)

Yolk Sac Tumor see Mesonephroma

Z

Zymogens see Enzyme Precursors
